Masters in Business Analytics | Sacred Heart University, Fairfield, Connecticut, USA

Mar 2024

Bachelors in Business Administration (BBA) | VIT-AP University, Amaravati, Andhra Pradesh, India

May 2022

WORK EXPERIENCE

Honeywell, USA | Business Analyst

Jan 2024 - Current

- Applied SDLC and Agile/Scrum methodologies to manage and execute projects, resulting in a 20% improvement in project delivery times.
- Created comprehensive FRD, BRD, and SRS documentation, ensuring clear communication of business requirements and reducing project ambiguities.
- Leveraged MS SharePoint for document management and collaboration, enhancing team coordination and document accessibility.
- Developed interactive dashboards using Tableau to provide stakeholders with real-time insights, improving decision-making processes.
- Conducted Cost/Benefit Analysis, Impact Analysis, and GAP Analysis to identify project feasibility and areas of improvement, contributing to a 15% increase in project success rates.
- Managed and tracked project progress using Jira, increasing task completion accuracy and team productivity.
- Utilized negotiation skills to manage stakeholder expectations and secure necessary project resources, contributing to higher stakeholder satisfaction.

Metasystems, India | Business Analyst

Aug 2020 - Nov 2022

- Employed Waterfall methodology for structured project management, defining clear project scopes and deliverables, resulting in timely and successful project completions.
- Worked on MS Project to track project milestones and other deliverables as well as resources roles and responsibilities and organize other project details.
- Congregated Business Requirements, analyzed data/workflows, and defined the scope, financial projections, and Cost/Benefit analysis.
- Published many reports and visualizations created for the Power BI service and thereby developed dashboards.
- Created defect tracking using HP Quality Center and Jira and reviewed them in subsequent iterations of the application development process.
- Facilitated Joint Application Development (JAD) sessions to gather detailed user requirements, enhancing the accuracy of project deliverables.
- Conducted User Acceptance Testing (UAT) to ensure final deliverables met business requirements, reducing post-implementation issues.
