

Prabhansh Sharma

(617)-949-6931 | prab.shar95@gmail.com | [LinkedIn](#) | Boston, MA

EDUCATION

Northeastern University | Master of Science in Information Systems

Relevant Courses: Database Management & Database Design, Data Architecture and Business Intelligence

Boston, MA

December 2023

Guru Gobind Singh Indraprastha University | Bachelor of Technology

Relevant Courses: Fundamentals of Computing, Introduction to Programming, Data Structures

Delhi, India

September 2018

WORK EXPERIENCE

Bright Mind Enrichment

Boston, MA

Data Engineer

February 2024 – Present

- Designed automated pipelines using **SQL and Python**, improving data accessibility by 30% for educational programs.
- Built custom **SQL queries** in **Google BigQuery** to monitor key metrics, enabling stakeholders to track program impact and optimize resource allocation by 20%.
- Implemented **ETL processes** in **Python**, boosting real-time analytics and improving wellness program response time by 20%.
- Designed **Tableau dashboards** for stakeholders, delivering insights on learning gaps, homelessness, and vaccination impact.

American Family Insurance – (Homesite Insurance)

Boston, MA

Data Engineer Co-op

July 2022 – December 2022

- Developed **SQL-based data models** and schemas to organize and structure **large datasets** for analytical purposes, facilitating data analysis and reporting tasks with a 20% increase in efficiency.
- Integrated **Google Cloud services** to automate and streamline data ingestion, reducing manual intervention by 40%.
- Optimized data models in **Google BigQuery**, reducing query costs and execution time by 25% for large-scale analytics projects.
- Created **Python scripts** to automate data processing tasks, **reducing manual effort by 50%**, saving 15 hours per week.
- Designed and implemented **ETL data pipelines** by automating the processes and reducing manual handling by 50%.
- Collaborated with **stakeholders** to create **Tableau dashboards**, leading to a 40% reduction in data interpretation time.
- Implemented quality checks in **JIRA** to ensure accuracy and integrity of data, resulting in a 15% reduction in data errors.

NatWest Group (Royal Bank of Scotland)

Delhi, India

Data Engineer

January 2019 – August 2021

- Implemented data pipelines using **Google Cloud Dataflow**, automating data transformations, enhancing data flow efficiency.
- Developed custom **SQL queries** in **Google BigQuery** to generate actionable insights, enhancing decision-making.
- Applied statistical analysis using **PySpark** on datasets, identifying and addressing anomalies with a 95% accuracy rate.
- Optimized **ETL workflows** for seamless data integration across banking systems, improving data accuracy by 20%.
- Executed complex **SQL queries for validation** of dataset, ensuring integrity of financial dataset with 98% accuracy rate.
- Created **Tableau dashboards** and reports to visualize and identify trends and patterns enhancing strategic insights by 15%.
- Developed **Excel macros, VBA scripts**, automating tasks and cutting manual workload by 25%, enhancing data processing.

ACADEMIC PROJECTS

Database Warehousing & BI for IMDb | *Talend, Alteryx, Tableau, Power BI, MS SQL,*

January 2022 - May 2022

- Extracted data from various sources (TSV, CSV, etc.) and profiled data to stage 100 million rows collected from IMDb.
- Built interactive BI dashboards in **Power BI & Tableau** to perform IMDb data analysis & analyzed revenue generation.

Insurance Management System | *Microsoft Azure Studio, SSMS, Tableau*

September 2021 - December 2021

- Constructed data warehouse and multiple data marts for an Insurance Management System, enhancing data analysis
- Implemented **SQL Functions and Triggers**, reducing data manipulation time by 20% and enhancing efficiency.

SKILLS

- Languages:** SQL, Python, Java, R, C++, HTML
- Database:** MySQL, MS SQL Server, PostgreSQL, MongoDB, PL-SQL, T-SQL, Oracle, NoSQL, Databricks
- BI Analytics:** Tableau, PowerBI, Looker, Talend, Alteryx, ER Studio, Adobe Analytics
- Cloud Technologies:** Microsoft Azure Studio, Google BigQuery, AWS, Snowflake, Google Cloud
- Tools:** GitHub, ETL, MS Access, Jira, Agile, Gen AI, Spark, Microsoft Azure Studio, VBA, MS Office, SAP, SAS
