

PRABHATH MUMMANENI

813-534-0291 | mprabhathmummaneni@gmail.com | linkedin.com/in/prabhathmummaneni | Portfolio

Professional Summary

Software Engineer with 3 years of experience building scalable microservices using Java, Spring Boot, and Docker. Optimized queries, cutting response times by 40%. Led multi-cloud projects for AWS, Azure, GCP. Passionate about scalable Java solutions and excels in Agile methodologies, CI/CD pipelines, and RESTful services development.

Skills

Programming Languages: Java 8+, Python, C++, JavaScript, TypeScript, HTML, CSS, Shell, Bash, SQL.

Frameworks: Spring MVC, SpringBoot, Hibernate, React, NodeJS, NextJS, TailwindCSS, Flask.

Databases: SQL (MySQL, PostgreSQL), NoSQL (MongoDB).

Cloud & Infrastructure: Amazon Web Services (EC2, S3, Aurora, Lambda), Microsoft Azure, Google cloud platform (GCP), Jenkins, CI/CD, Docker, Git, GitHub, Postman.

IDES: IntelliJ, Visual Studio Code, Jupyter Notebook, Eclipse, Vim.

Other Skills: Agile, Scrum, Jira, JMeter, JUnit, Mockito, Grafana, Kibana, Prometheus, SDLC, Windows, Linux.

Professional Experience

North Carolina A & T State University, Software Engineer - Greensboro, NC Jan 2023 - Dec 2024

Technologies: Java, Spring Boot, Python, Flask, Docker, MongoDB, RabbitMQ, Bash, Git, REST

- Engineered backend services for internal tools and data systems, supporting research teams with reliable solutions.
- Set up and deployed microservices in Docker containers, making sure development environments were consistent and easy to replicate.
- Created event-driven pipelines to handle large volumes of unstructured data, building workflows that could scale and recover from errors while processing over 20,000 records.
- Wrote scripts to automate complex workflows, cutting down execution time by 60% and simplifying deployments across different environments.
- Played a key role in engineering work for two published papers and a conference presentation, collaborating with researchers and documenting technical details.

Informatica, Associate Software Engineer - Bengaluru, India Jul 2021 - Dec 2022

Technologies: Java, Spring Boot, Hibernate, React, JavaScript, ActiveMQ, AWS, MySQL, Aurora, MongoDB, REST

- Built backend services using object-oriented and functional programming approaches, developing an event-driven system that handled over 1 million transactions daily with high reliability.
- Integrated MongoDB with auto-scaling clusters to manage heavy workloads, improving multi-cloud compatibility across AWS, GCP, and Azure, which boosted customer integrations by 20%.
- Led a team of 3 engineers to develop a storage management feature over two sprints, designing and rolling out a scalable reporting system and usage controls.
- Tracked down and fixed critical production deadlocks in microservices by analyzing Kibana logs, preventing outages in a high-traffic environment.
- Improved SQL queries by eliminating full table scans and tweaking joins, speeding up response times by 40%.
- Took charge of sprint tasks in an Agile team, using Scrum and Kanban to deliver 10+ features in a three-month release cycle while hitting deadlines.

Informatica, Software Development Intern - Bengaluru, India Jan 2021 - Jun 2021

Technologies: Java, Angular, Hibernate, React, Jenkins, TestNG, JMeter, Figma, Prometheus, Grafana, REST, Perforce

- Set up CI/CD pipelines in Jenkins, automating over 200 API tests with TestNG, performance tests with JMeter, and unit tests, reducing manual testing efforts by 80% while working with QA to ensure solid releases.
- Enhanced a React.js front-end using Figma designs, partnering with UX and product teams to improve accessibility on a critical application page.
- Created Postman validation scripts and configured dynamic environments to support 15+ deployments across AWS, Azure, and GCP, improving release reliability and QA efficiency.

Education

North Carolina A & T State University Jan 2023 - Dec 2024

Master's with Thesis in Computer and Information Sciences

Amrita Vishwa Vidyapeetham

Jul 2017 - May 2021

Bachelor's in Computer Science and Engineering
