

Prachi Dalvi

Business Analyst

WORK EXPERIENCE

Etech Group, West Chester, OH

Business Analyst

06/2022 – Present

- Designed and developed 15+ Tableau dashboards to visualize KPIs, financial trends, and executive insights, directly driving data-driven decision-making.
- Delivered executive dashboards that improved year-over-year and quarter-over-quarter performance tracking, enhancing financial strategy and forecasting accuracy.
- Analyzed and integrated large datasets from Sage Intacct, Zoho Analytics, and ETL pipelines, ensuring a single source of truth for business reporting.
- Partnered with stakeholders to gather and translate reporting requirements into scalable Tableau and SQL solutions.
- Developed complex SQL queries, CTEs, and stored procedures to extract, transform, and validate multi-domain datasets across Finance, Automotive, Supply Chain, and Technology.
- Created and maintained metadata, data dictionaries, and data flow documentation, strengthening data governance and consistency.
- Conducted data profiling, validation, and performance tuning to optimize Tableau dashboards and ensure accuracy, reducing load times and improving usability.
- Implemented ETL automation and trained business users on self-service analytics, improving reporting efficiency and increasing organizational data literacy.

Faurecia, Auburn Hills, MI

Data Analyst Intern

04/2022 – 06/2022

- Collected and structured manufacturing part data to develop comprehensive data sheets for internal process optimization.
- Maintained and enhanced internal databases, migrating data to a relational database model (SQL) for improved data integrity and accessibility.

BorgWarner, Auburn Hills, MI

Global Supply Management (GSM) Intern

07/2021 – 04/2022

- Analyzed material planning and logistics data to forecast demand, monitor inventory, and optimize supply chain efficiency across multiple manufacturing plants.
- Developed Excel-based reports and dashboards to track KPIs (inventory levels, lead times, supplier performance), enabling leadership to make informed operational decisions.
- Collaborated with cross-functional teams to gather requirements and implement process improvements that reduced bottlenecks and improved reporting accuracy.
- Created and maintained documentation of material workflows and data mappings, ensuring alignment with global logistics standards.

Comerica Bank, Livonia, MI

Production Support Consultant

12/2019 – 10/2020

- Managed Treasury Management requests, overseeing the Lockbox lifecycle (creation, updates, closures, and access rights) to ensure seamless banking operations.
- Led system enhancements and testing, gathering business requirements, executing test plans, and resolving issues to improve Lockbox functionality.
- Provided business and technical support, managing database updates, user maintenance, incident resolution, and process optimization.

SKILLS

Hard Skills:

- Requirements Gathering
- Data Visualization
- SQL Server Integration Services (SSIS)
- Agile Methodologies

Techniques:

- Business Intelligence (BI)
- Agile Methodologies
- Data Analysis

Tools and Software:

- Tableau
- MS SQL
- Python
- SAS

EDUCATION

Oakland University

Masters in Business Analytics

Rochester Hills, MI, USA

01/2021 - 12/2023

University of Mumbai

Bachelor of Science (IT)

Mumbai, Maharashtra, India

07/2001 - 05/2004

CERTIFICATIONS & ACHIEVEMENTS

- 2024 [PCEP-30-02] PCEP™ – Certified Entry-Level Python Programmer
- 2024 Tableau Desktop Specialist Certified
- 2023 SAS Hackathon Technology Winner (Forecasting)

- Collaborated with cross-functional teams and stakeholders, ensuring efficient system operations, data integrity, and reporting accuracy.

Altimetrik Corp, Dearborn, MI

Production Support Analyst

11/2015 – 08/2019

- Analyzed system data flows and created documentation for data definitions, workflows, and compliance reporting to support SOX and IT audits.
- Automated manual data validation and transformation processes using Pega RPA and SQL, improving accuracy and reducing turnaround time.
- Supported Agile transformation projects by gathering requirements, coordinating sprints, and ensuring data/reporting deliverables aligned with business needs.
- Collaborated with cross-functional teams to identify data quality issues, implement preventative procedures, and enhance enterprise reporting consistency.
