United States | +1 (989) 506-3088 | pradeepkarra1@gmail.com | [linkedin.com/in/karra-pradeep](https://www.linkedin.com/in/karra-pradeep)

Professional Summary

Senior Data Analyst with 5+ years of experience in fraud detection, risk analytics, and enterprise data reporting across banking, fintech, higher education, and manufacturing. Skilled in SQL, Tableau, Excel, and ETL pipelines with proven success in automating reporting, validating/migrating data, and supporting corporate security investigations. Strong communicator who translates analytics into clear insights, collaborates with cross-functional teams, and mentors junior analysts.

Education

Central Michigan University <i>Master of Science, Information Technology</i> (GPA: 3.75/4)	2025
St. Martin's Engineering College <i>Bachelor of Technology, Electronics & Communication</i> (GPA: 7/10)	2019
TRR Engineering College <i>Diploma, Electrical & Electronics Engineering</i> (GPA: 7.5/10)	2016

Technical Skills

- **MS Office Skills:** Excel (Advanced: Pivot Tables, VLOOKUP/XLOOKUP, INDEX-MATCH, Macros, VBA, Power Query, Data Analysis ToolPak), PowerPoint (Executive Presentations), Word (Documentation), Outlook (Email & Calendar)
- **Languages & Tools:** Python, R, SQL, C, C++, MATLAB
- **Transaction Management:** ETL, Data Wrangling, Post-Trade Processing, Trade Settlement, Apache Airflow, dbt, PySpark
- **Databases:** Snowflake, MySQL, PostgreSQL, SQL Server, Redshift, Teradata
- **Risk Management & Analytics:** Tableau, Power BI, Splunk, Qlik, Matplotlib, Seaborn
- **Cloud Platforms:** AWS (Glue, Redshift, Lambda, S3, EC2), Azure (Data Factory, Synapse), GCP (BigQuery, Dataflow), Databricks, Kafka
- **Compliance & Reporting:** Machine Learning, XGBoost, TensorFlow, Time Series Forecasting, Regulatory Reporting
- **Version Control & Workflow:** GitHub, CI/CD, Jira, Agile, Scrum
- **Collaborative Leadership:** Strong communicator, proven ability to partner with SMEs and Business Partners to align data solutions with business needs

Professional Experience

Central Michigan University | *Data Analyst / Engineer* Aug 2023 - May 2025

Environment: Higher Education | AWS Cloud (S3, Redshift, Glue, Lambda, EC2) | SQL Server | Tableau | Excel VBA

- Designed Tableau dashboards and automated SQL/Excel reports, reducing manual reporting by 85% and cutting prep time by 70%.
- Built ETL pipelines in SQL/Python with AWS Redshift for data validation and migration, improving accuracy by 90%.
- Automated NCAA/FERPA compliance reports with SQL, VBA, and Lambda scheduling, saving 200+ hours annually.
- Optimized refresh rates with SQL and S3 pipelines, enabling dashboards to update every 15 minutes for real-time monitoring.
- Partnered with Finance and IT stakeholders to present concise insights supporting compliance and fraud monitoring.

Genpact | *Senior Data Analyst / Engineer (Google Pay Project)* Jun 2021 - Jul 2023

Environment: FinTech | AWS Cloud (Glue, Redshift, S3) | Snowflake | Kafka | Tableau | Excel VBA | Jira/Confluence

- Developed complex SQL queries and anomaly detection scripts on 500GB+ daily transactions, flagging fraud instantly.
- Built Tableau dashboards and Excel macros for refund/complaint data, reducing resolution time by 40%.
- Integrated Kafka streams with Snowflake and S3 for real-time fraud detection, improving accuracy by 50%.
- Automated compliance/audit reports in SQL, VBA, and AWS Lambda, cutting prep time by 60%.
- Presented fraud insights to executives and business partners, ensuring data-driven decisions during reviews.

ICICI Bank | *Analyst, Risk & Fraud Analytics* Jul 2019 - Jul 2021

Environment: Banking | SQL Server | AWS S3 & EC2 | Power BI | Excel VBA | Regulatory Compliance Systems

- Automated fraud reporting with SQL stored procedures and VBA macros, reducing reporting cycle from 3 days to 11 hours.
- Investigated 10M+ daily transactions using SQL/Python, migrating fraud data to AWS S3 for scalable analysis.
- Built a fraud scoring model in SQL/Python hosted on EC2, cutting resolution time by 30% and reducing false positives by 25%.
- Developed Power BI dashboards/time-series models that improved ATM and online fraud detection by 15%.
- Standardized fraud reporting with SQL, Power BI, and AWS Lambda, ensuring compliance and avoiding audit penalties.

Lampex Electronics Limited | *PCB Manufacturing Intern* May 2015 - Nov 2015

Environment: Manufacturing | Excel (Macros, Pivot Tables) | Quality Assurance & Process Reporting

- Logged production metrics in Excel and built pivot dashboards, giving supervisors visibility into defects and yields.
- Documented soldering, lamination, and drilling results, improving reporting accuracy and reducing rework.
- Automated defect tracking with Excel macros and checklists, improving process consistency and product durability.
- Partnered with engineers to interpret reports and recommend corrective actions, improving assembly quality.

Certifications

- AWS Cloud Practitioner
- Google Cloud (Looker, Vertex AI)
- Citi Quantitative Analysis Simulation
- Lean Six Sigma Green Belt
- Deloitte Data Analytics Simulation
