

Pradyumna Reddy

Cincinnati, OH, USA • (513) 855-5713 • prady.ambavaram@gmail.com • [LinkedIn](#)

SUMMARY

4+ years of hands-on experience in data engineering, demonstrating a solid foundation and proven track record in delivering insightful data driven solutions. Extensive expertise in Python-based environments, proficient in performing data analytics, wrangling, and extracting data from Excel. Skilled in utilizing libraries such as NumPy, Pandas, Matplotlib, and SciPy. in visualizing complex datasets with tools like Tableau, Power BI, and Google Data Studio, effectively translating analytical insights into actionable stakeholder recommendations. Extensive experience with cloud technologies, including AWS, Azure, and Google Cloud Platform (GCP), enabling scalable and efficient data storage and processing solutions.

EXPERIENCE

TRANSCEND TECHNOLOGIES, Data Analyst

Jan 2024 - Present

- Optimized data transformation and feature engineering processes using SQL and Python, reducing manual effort by 40% and accelerating data analysis by 50%.
- Designed and implemented 10+ business-critical dashboards in Power BI, increasing data visibility by 30% and accelerating decision-making processes by 25%.
- Spearheaded KPI reporting, delivering precise and timely performance metrics that improved data-informed decision-making by 20% and boosted accountability across teams.
- Leveraged Python and Scikit-learn to build predictive models and perform statistical analyses, supporting data-driven insights for international markets.
- Worked on Data Visualization, Data Cleaning and Data Modelling, Business Intelligence and statistical analysis. Adept at leveraging BI tools and extract useful Insights from the given set of data. Analyse, monitor, design and build complex custom-designed solutions that use a wide range of the latest technologies.

Rexer Pharma, BI/Data Analytics Engineer

Sep 2018 – Dec 2022

- Worked in analysis, design, and developing middleware using Java Servlets, JavaBeans, Microservices, Spring, and doing enhancements and issue resolutions.
- Implemented the database connectivity using JDBC with the MYSQL database as the backend and designed and developed UI for portfolio review dashboard application using front-end tools.
- Automated repetitive tasks by scripting in Python, saving 20 hours per week and allowing the team to focus on high-priority tasks.
 - Collaborated with project managers to define project requirements, design software architecture, and established project timelines using project management and version control tools like Jira and Git.
 - Improved the process of compiling data in R used by data visualization tools & Excel by working with the team to improve the program and reduce EC2 CPU usage time, thereby helping save 20% costs to the company by reducing the number of horizontally scaled EC2 resources. Led data migration efforts from on-premises databases to Snowflake, ensuring minimal downtime and seamless transition of large datasets.

EDUCATION

University of Cincinnati, Cincinnati, Master of Science – Information Technology

Anurag Group of Institutions, Hyderabad, Bachelor of Technology – Computer Science and Engineering

SKILLS

Methodologies: SDLC, Agile, Waterfall, **Languages:** Python, R, SQL, SAS, **IDEs:** Visual Studio Code, PyCharm, Jupyter Notebook, **Project Management:** MS Project, MS Visio, MS Excel, Jira, **Cloud Technology:** AWS, Azure (Data Lake Storage, Databricks, Data Factory, DevOps), Snowflake, **Packages/Tools:** NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, Seaborn, TensorFlow, Ggplot2, **Visualization Tools:** Tableau, Power BI, Alteryx, MS Excel, AWS, **Database:** MS SQL Server, Oracle, MySQL, PostgreSQL, DB2 **Other Skills:** ETL, Data Cleaning, Data Warehousing, Data Wrangling, FRD, JAD, RTM, AT, AB testing

CERTIFICATIONS

DP-203: Microsoft Certified Azure Data Engineer Associate

Python Essential Training (2022) – LinkedIn Learning

Python for Data Science and Machine Learning Bootcamp
