

PRAGATHI AARE

Tallahassee, FL | aarepragathi@gmail.com | +1 (850) 737-9277

SUMMARY:

Results-driven Quality Assurance professional with 6 years of experience in testing web-based and client-server applications. Demonstrated success in enhancing software quality, streamlining testing processes, and improving system performance. Expertise in ETL testing, DataStage, Manual and Automated testing, and Data Warehousing. Skilled in Agile and Waterfall methodologies, Black-box and White-box testing. Adept at leveraging SQL, PL/SQL and automation tools to drive efficiency and accuracy. Strong analytical and problem-solving abilities with focus on delivering high-quality software solutions.

SKILLS:

- **Testing Tools:** ETL Testing, Manual Testing, UFT, HP ALM, JIRA
 - **Languages:** C, SQL, PL/SQL, XML
 - **Database:** MS-Access, MS-SQL Server, MySQL
 - **Data Warehousing Tools:** DataStage, Power BI (Basics)
-

PROFESSIONAL EXPERIENCE:

PGA of America, TX
QA Analyst

Nov 2019 - May 2022

- **Improved test efficiency** by developing comprehensive test plans, cases, and scripts for both manual and automated testing, ensuring a 30% reduction in testing time.
- **Enhanced application reliability** by conducting Integration, Regression, End-to-End, and User Acceptance Testing (UAT), identifying and resolving 95% of critical defects before production.
- **Optimized defect tracking** by leveraging HP ALM to document, report, and monitor issues throughout the SDLC, improving defect resolution time by 40%.
- **Strengthened data validation** by executing ETL testing for data mapping and validation, ensuring 100% data integrity from source files/tables to target databases.
- **Led Agile transformations** by streamlining project activities and chairing daily/weekly status meetings, improving project deliverability.
- **Enhanced system performance** by executing UFT test scripts for functional, regression, and acceptance testing, reducing manual testing efforts by 50%.
- **Refined back-end testing** by utilizing SQL and MySQL/MS-SQL server for data verification, ensuring database consistency and integrity.

- **Boosted data processing speed** by developing ETL jobs using IBM Infosphere DataStage, optimizing SQL queries to improve extraction, transformation, and loading processes.
 - **Ensured data accuracy** by performing defect analysis, User Acceptance Testing (UAT), and System Integration Testing, reducing data-related errors by 60%.
 - **Optimized data workflows** by integrating multiple data sources (XML, sequential files) into a unified data warehouse, leading to a 20% improvement in data accessibility.
 - **Improved job execution efficiency** by working with DataStage Director to schedule and monitor jobs, reducing job failures by 35%.
 - **Streamlined data transformation** by defining source-to-target mappings and business rules, ensuring seamless data integration across platforms.
-

EDUCATION:

Bachelor of Technology in Computer Science
JNTU, Hyderabad, INDIA

April 2014
