

PRAKASH SAISESH M

708-476-9796 | prakashsaiseshm@gmail.com

PROFFESIONAL SUMMARY

Versatile Software Developer with a Master's in Data Science and 3 years of experience building scalable full-stack web applications. Proficient in Java, Spring Boot, React, and Angular, with a strong record in designing RESTful APIs and optimizing database performance. Experienced in implementing CI/CD pipelines and automated testing to ensure robust code quality.

TECHNICAL SKILLS

- Programming Languages:** Core Java/J2EE, C, C++, Python, Kotlin, PL/SQL
- Web Technologies:** HTML5, XML, PHP, CSS/CSS3, Bootstrap, TypeScript, JavaScript, JQuery
- Java APIs:** JDBC, JMS, JAXB, AWT
- Frameworks & Libraries:** ReactJS, AngularJS, NodeJS, Spring Boot, Spring MVC, Hibernate
- Web/Application Servers:** Apache Tomcat, WebSphere
- Database Technologies:** MYSQL, Oracle, PostgreSQL, MongoDB
- IDE:** Eclipse, RAD, IntelliJ, Visual Studio Code
- Version Control:** GitHub, SVN, Bit bucket
- Build Tools:** Maven, Gradle
- Continuous Integration & Deployment:** Jenkins, AWS, Terraform CI/CD, GCP, Azure, DevOps (Kubernetes), Docker
- Methodologies:** Agile, Waterfall
- Other Tools:** Postman, SOAP UI, OpenShift, JIRA

WORK HISTORY

Lewis University

Jun 2024 - May 2025

Student Employee

- Built student portals using Spring Boot backend with REST APIs, paired with Angular frontend, improving data load times by 40% through optimized JPA/Hibernate queries.
- Automated student record processing with Java batch jobs (Spring Batch) and Oracle PL/SQL, reducing manual errors by 35%.
- Ensured SEVIS compliance by developing audit logs with Java EE and Spring Security, achieving 100% accuracy in federal reporting
- Optimized database performance by refactoring legacy JDBC code to Spring Data JPA, cutting query times by 30%.
- Integrated a chatbot for admissions using Java/Spring backend and Node.js, boosting engagement by 25%

Accenture

Jul 2021 - Jul 2023

Associate Software Engineer

- Engineered responsive UIs and implemented Java microservices with Spring Boot, aligning development with full stack best practices.
- Administered database management using Hibernate and JDBC with PostgreSQL and Oracle, demonstrating proficient use of SQL databases.
- Designed and deployed data pipelines with Apache Kafka, achieving a 99.9% data delivery rate and a 35% increase in throughput.
- Developed RESTful APIs to enable seamless communication across distributed systems and enhance integration with front-end components.
- Integrated OKTA for improved authentication in legacy systems, reinforcing robust security measures and overall system stability.
- Optimized cloud infrastructure with AWS and incorporated CI/CD practices using Terraform to enhance system scalability and performance.
- Conducted comprehensive API and functional testing with Selenium and SOAP UI, reducing post-deployment issues by 50% and improving code quality.

Optum

May 2020 - Jun 2021

Java Developer Intern

- Authored Java code for AWS applications, reducing technical debt by 40% and bolstering code maintainability.
- Produced comprehensive design documentation, including use case and sequence diagrams, to support clear project communication.
- Collaborated with UX designers and back-end developers to design secure, user-friendly applications that meet full stack development standards.
- Optimized Oracle SQL queries, reducing execution times by 30% and boosting overall application performance.
- Crafted secure RESTful APIs and integrated JWT authentication, reducing unauthorized access attempts by 90% and enhancing system security.

EDUCATION

LEWIS University, IL.

May 2025

Master of Science, Data Science

CVR College of Engineering, Hyderabad, India

Jul 2021

Bachelor of Technology, Computer Science and Engineering
