

MUNI PRANAY POLAMPALLI

Seattle, WA 98109 | +1(206) 687-5707 | pmpranay36@gmail.com | linkedin.com/in/pranaypmp

Summary

Results-driven **Java Full Stack Developer** with **4+ years of experience** designing and developing scalable, high-performance enterprise applications. Specialized in building dynamic UI components using React and Angular, developing robust APIs, and optimizing database performance. Proficient in architecting cloud-native solutions and automating CI/CD pipelines to streamline deployments and enhance operational agility. Experienced at delivering business-driven solutions in fast-paced Agile environments, focused on efficiency, adaptability, and continuous improvement.

Professional Experience

Full Stack Java Developer

07/2024 - Present

Elevance Health – WA, USA

- Designed and developed scalable healthcare applications using **Java**, **Spring Boot**, and **React**, optimizing UI responsiveness by 20% and enhancing patient data retrieval efficiency.
- Led the migration of legacy monolithic applications to a microservices architecture, leveraging AWS Lambda, Fargate, and **API Gateway**, reducing operational costs by 25% and improving fault tolerance.
- Deployed and configured AWS EKS, S3, Elastic Beanstalk, ensuring 99.96% uptime with auto-scaling for peak loads.
- Optimized **MongoDB** queries by 25% using aggregation pipelines and indexing, enhancing real-time data processing.
- Optimized **PostgreSQL** performance by implementing indexing, partitioning, stored procedures, and query caching to improve data processing efficiency and ensure transactional consistency.
- Strengthened data security and compliance by implementing OAuth 2.0, JWT authentication, RBAC (Role-Based Access Control), and HIPAA-compliant encryption, ensuring secure patient data transmission and storage.
- Integrated AI-driven models using **Python** and **TensorFlow** to analyze insurance claims data, detect anomalies, and automate risk assessment, improving processing efficiency and accuracy.

Full Stack Java Developer

01/2024 - 05/2024

Elevance Health – MO, USA

- Architected and integrated RESTful APIs using Java and Spring Boot to facilitate low latency microservices communication, reducing response times by 30%.
- Designed **React UI** components with Hooks and Context API, minimizing re-renders by 30% and accelerating page load times with dynamic code-splitting.
- Involved in AWS migration with Lambda, API Gateway, reducing infrastructure costs and improving scalability.
- Integrated **Apache Kafka** for real-time event-driven processing, improving data streaming, event logging, and system monitoring to enhance scalability.
- Implemented unit and integration testing with JUnit and Mockito, improving test coverage to 85% and code reliability.

Full Stack Java Developer

09/2021 - 08/2022

Hexaware Technologies – India

- Engineered scalable applications with **RESTful APIs** using Java, Spring Boot, and Hibernate, improving data exchange and reducing downtime by 35% while handling 500k+ daily transactions in a high-load production environment.
- Developed dynamic UI components with **Angular** and RxJS, enhancing state management, responsiveness, and real-time data processing.
- Enhanced database performance by optimizing **SQL** queries and implementing Redis caching, reducing query response time by 30% in high-traffic applications.
- Led microservices migration using **Kubernetes** and Azure, achieving 99.2% uptime and 20% cost reduction, while automating infrastructure provisioning with **Terraform** for scalability.
- Orchestrated and automated CI/CD pipelines with Jenkins and Azure DevOps, accelerating releases by 50% and ensuring zero-downtime deployments.
- Collaborated in Agile/Scrum teams, refining product roadmaps, leading sprint planning, and driving backlog grooming to align development efforts with business objectives.

Software Developer

10/2019 - 08/2021

Genius Softech – India

- Developed and optimized high-performance web applications using **React.js**, Redux, and React Hooks, reducing API calls by 20% and improving load speed by 30% for enhanced user experience.
- Developed scalable back-end services using **Spring Boot**, creating RESTful APIs that seamlessly integrate with microservices and front-end applications, enhancing system reliability and scalability.

- Optimized database performance in MySQL, leveraging indexing, query optimization, and caching, reducing query execution time by 40% while ensuring data integrity and consistency.
- Streamlined and configured **AWS** deployments using **Jenkins** and **GitHub Actions**, reducing build and release cycle times by 50%, and improving deployment speed and reliability.
- Enhanced application security by implementing JWT-based authentication and OAuth 2.0, strengthening user data protection and ensuring secure API access.
- Integrated RESTful APIs and third-party services to enable real-time data synchronization, enhancing front-end and backend communication while increasing user engagement by 15%.

Technical Skills

Languages & Frameworks:	Java, Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, React.js, Redux, TypeScript, JavaScript
Backend Development:	RESTful APIs, Microservices Architecture, Apache Kafka, RabbitMQ
Frontend Development:	React.js, Redux, React Hooks, Angular, HTML5, CSS3, JavaScript, Bootstrap, Lazy Loading
Database & Caching:	MySQL, PostgreSQL, Oracle, MongoDB, Redis, PL/SQL, Query Optimization & Caching
Cloud & DevOps:	AWS (EC2, S3, EKS, RDS, Lambda, API Gateway, Elastic Beanstalk), Azure, Terraform, Docker, Kubernetes (Container Orchestration), Jenkins, GitHub Actions
Testing & Debugging:	JUnit, Selenium, Mockito, Jest, Enzyme
Security & Authentication:	Spring Security, OAuth 2.0, JWT Authentication, AWS KMS, GDPR & PCI-DSS Compliance
Tools & Methodologies:	Git, GitHub, Bitbucket, Jira, Confluence, Code Reviews, Agile (Scrum/Kanban), TDD, Design Patterns

Education

- Master of Science in Computer Science** - University of Missouri - Kansas City, Missouri, USA
- Bachelor of Technology in Computer Science & Engineering** - Madanapalle Institute of Technology & Science, India
