EDUCATION + TECHNICAL SKILLS

University of Texas at Austin — B.S.A., Computer Science, Business Minor (2025)

Programming: Java, Python, JavaScript, HTML, CSS, Swift, C, Clojure

Frameworks & Tools: React, Angular, Spring Boot, FastAPI, Next.js, Git, Gradle, Kubernetes, Playwright, Docker, GCP, VBA

Databases & AI Tools: PostgreSQL, FAISS, Pinecone, OpenAI API

Concepts: Object-Oriented Programming (OOP), Machine Learning, Prompt Engineering & LLM Integration, Data Preprocessing & Feature Engineering, Model Evaluation & Optimization, Natural Language Processing (NLP), Cybersecurity, Cloud Computing, Cloud-Native Architecture, CI/CD Pipelines, Agile Methodologies

PROFESSIONAL EXPERIENCE

Citi | Dallas, TX — Project Management Intern (Jun 2024 – Aug 2024)

Tools: React, Java, Excel, Visual Basic for Applications (VBA), PowerPoint

- Built stocks web app (Spring Boot, React) with REST APIs and real-time data visualizations.
- Initiated the automation of weekly Excel-based data consolidation processes, reducing reporting time by 30%
- Organized and analyzed 10,000+ applications, streamlining data tracking; created dashboards to communicate project progress
- Partnered cross-functionally to validate technical data and maintain system accuracy.

H-E-B | San Antonio, TX — Systems Developer Intern / Scrum Master (May 2023 – Jul 2023)

Tools: Java, Oracle Database, SQL, Gradle, Angular, CSS, HTML, Spring Boot, Agile Methodologies

- Collaborated with a team of 5 interns, rotating as Scrum Leader, and developed a full-stack web application using Spring Boot and Angular to replace the legacy software; delivered a functional, production-ready solution within a 10-week cycle
- Designed a user-centric interface to meet team requirements, improving usability and accessibility

General Data Tech | Dallas, TX — IT Security Intern (May 2022 – Jul 2022)

- Mapped 30+ security policies to internal tools, streamlining documentation and improving accessibility across teams
- Supported annual compliance audits for SOC 1 Type 2, SOC 2 Type 2, and ISO 27001 standards
- Documented security workflows across three teams, leading to better cost control, license management, and audit efficiency

Sanger Learning Center | Austin, TX — Supplemental Instruction Leader (Aug 2022 – May 2024)

- Boosted session attendance by 20% by fostering a collaborative learning environment for 30+ students in a UT-Austin academic support program, reviewing course concepts, assisting with projects, and answering cross-disciplinary questions
- Provided individualized academic support through peer tutoring and private 1:1 sessions, helping students master course material and build confidence in problem-solving

PROJECTS

AI-Powered Job Application Assistant

Tools: Python (FastAPI), React/Next.js, Playwright, PostgreSQL, OpenAI GPT, FAISS, Pinecone, Docker

- Built an automation pipeline to parse job descriptions, tailor resumes/cover letters, and auto-fill application forms
- Integrated GPT-based parsing with vector retrieval (FAISS/Pinecone) for accurate, ATS-optimized output
- Designed React-based dashboards to track and manage job applications securely

Prompt-Engineered Resume Tailoring Framework

Tools: OpenAI GPT models, Python, Few-Shot Prompting, JSON Schema Validation

- Developed a pipeline to convert job descriptions into tailored resume bullets using controlled prompting
- Enforced factual accuracy with schema validation and constraint-based prompting to minimize fabrication

Movie Review Text Mining & Analysis

Tools: Python, Pandas, Scikit-learn, NLTK, WordCloud, Matplotlib

- Analyzed 50,000+ IMDB reviews to extract linguistic patterns correlated with ratings
- Built sentiment models and visualization dashboards to highlight audience sentiment trends

Windmill Productivity — Energy Analytics — Tools: Python, Pandas, Scikit-learn

- Built ML models optimizing U.S. wind turbine placement via feature engineering

PomoFriend | HackTX — Tools: JavaScript, HTML, CSS

- Designed and developed a Chrome extension with productivity timers, to-do lists, and website blacklisting

LEADERSHIP & OUTREACH

Women in Computer Science (WICS) — Member & Nell Dale Officer (2021–2025)

- Mentored and onboarded new members by creating support groups ("Nell Dale Families") with a mentor-to-peer structure

Cybersecurity Clinic (2023–2024)

- Delivered cybersecurity solutions to small businesses and nonprofits in Texas, for clients below the security poverty line
