EXPERIENCE

- Graduate Research and Teaching Assistant** Aug 2024 – Dec 2025
Youngstown State University *Youngstown, OH*
 - Architected a 28-org Hyperledger Fabric network with Chaincode-as-a-Service and automated benchmarking.
 - Engineered scalable big data solutions for approximate query processing using Rust and SQLite.
 - Instructed undergraduates in full-stack web technologies, including React, Node.js, MongoDB, and SQL.
- Full Stack Developer** June 2025 – Aug 2025
Youngstown State University *Youngstown, OH*
 - Created a mobile app in Expo Go/React Native and added JWT authentication with session management.
 - Engineered a Node.js/MongoDB backend with RESTful APIs, reducing API response latency by 15%.
 - Integrated full-stack services to visualize health metrics, resolving state management issues for optimized UX.
- Software Project Manager** Dec 2022 – Aug 2023
BlackTech *Pokhara, Nepal*
 - Finalized software requirements and optimized workflow, leading to a 15% reduction in project delivery.
 - Applied systematic task allocation in ClickUp, driving a 15% increase in project completion.
 - Implemented testing methodologies to enhance software quality, achieving a 30% increase in product quality.
 - Led multi-platform deployments (Web/iOS/Android) and optimized DigitalOcean servers to cut latency by 20%.
- Software Project Manager** Mar 2020 – Dec 2022
BrandBuilder *Pokhara, Nepal*
 - Designed UML diagrams for POS and CMS systems, streamlining workflows for 10 developers.
 - Led three teams, enforcing industry-standard code quality practices and improving code efficiency by 20%.
 - Managed AWS EC2 instances to maintain 99% uptime through automated health checks and routine updates.

PROJECTS

- MRI Brain Tumor Classification** | [Link](#) | *Deep Learning, MobileNetV2* 2025
 - Built a MobileNetV2 CNN (>90% accuracy) for MRI analysis, featuring Grad-CAM attention maps and deployment.
- Movable-Agent (Hack YSU)** | [Link](#) | *Playwright, Gemini, ElevenLabs* 2025
 - Developed a Playwright-based AI agent integrating Gemini and ElevenLabs for natural language browser automation.
- Zero-AI (Hack YSU)** | *Python, ChatGPT API, ElevenLabs* 2024
 - Built a Python-based AI assistant integrating ChatGPT and ElevenLabs APIs for natural language task execution.
- Handwritten Digit Recognition System** | [Link](#) | *Python, Tkinter, CNN* 2024
 - Built a CNN-based handwritten digit recognition system, achieving over 92% accuracy using Tkinter on Python.

EDUCATION

- Master of Computing and Information Systems** Dec 2025
Youngstown State University *GPA: 4.00/4.00*
- Bachelor of Science in Computer Science** Dec 2021
Informatics College Pokhara *GPA: 4.00/4.00*

CERTIFICATES

Fundamentals of AI Agents (Hugging Face), One-Week Machine Learning Bootcamp
Django Features and Libraries (Coursera), Building Web Applications in Django (Coursera)
