PROFESSIONAL EXPERIENCE

MedCentris – Wound Care Management | United States

Business Intelligence Analyst

April 2025 – Present

- Integrated **EMR** systems to extract and analyze provider activity data, increasing clinical reporting efficiency by 28%
- Created billing reports to **flag denials**, ensuring compliance with Medicare and Managed Medicaid requirements, reducing rejections 22%
- Designed Power BI **dashboards** to analyze regional revenue, expenses, and NIFO trends, enabling leadership to make data-driven decisions that expanded in-home service coverage by 16% across underperforming areas
- Automated weekly operational reporting workflows, replacing legacy Excel processes and **saving 6+ hours** per week across 5 departments
- Structured a centralized data model to unify disparate data sources, improving reporting accuracy and reducing data refresh time by 40%

CrowdDoing | Dallas, TX

Business Intelligence Analyst

Aug 2024 – March 2025

- Optimized data pipelines in healthcare Revenue Cycle Management using **Azure Data Factory**, improving accounts receivable analytics
- Led the product development lifecycle, from ideation to launch, ensuring timely delivery and alignment with stakeholder expectations
- Conducted root cause analysis to identify low-performing regions, delivering actionable insights that improved regional efficiency by 25%

UTD Housing Operations | Dallas, TX

Business Analyst

Feb 2023 – May 2024

- Engaged with stakeholders throughout the software development lifecycle (SDLC) using Jira, translating business needs into technical requirements. Optimized requirement gathering, UAT, and cutover activities, resulting in a 25% reduction in project delivery time
- Collaborated on an ETL pipeline using **SQL** and **Python** to preprocess housing maintenance data. Created reports and developed a priority-based **Power BI dashboard** using DAX queries, reducing resident complaints by 30% and improving work order completion time by 12%
- Streamlined workflows using **Excel VBA** and **statistical analysis**, generating monthly reports and reducing operational costs by 9%

SG Looming Technologies | Udaipur, India

Business Analyst

Jun 2021 - Jul 2022

- Created a **Tableau dashboard** for vendor performance evaluation in healthcare and wellness care, tracking key metrics related to claims and patient outcomes. This analysis identified underperforming vendors and high-risk areas, leading to a 15% reduction in large claims.
- Analyzed customer feedback, gaining insights on service gaps, leading to a 25% increase in satisfaction by enhancing support strategies
- Led market research & competitive analysis to enhance go-to-market strategies, increasing their effectiveness by 30%

The Sparks Foundation | Delhi, India

Business Analyst Intern

Apr 2021 - May 2021

- Managed **Python** based data processing and cleansing, boosting data quality and achieving a 22% increase in business data accessibility
- Engineered visualizations in Tableau to track vaccination progress, contributing to a 10% increase in public awareness

PROJECTS

Cloud-Driven YouTube Data Analytics

Dec 2023 – Jan 2024

- Directed the development of YouTube data analytics using SQL, AWS Athena, Glue, and Lambda, focusing on security and compliance
- Established secure Cloud-based Data Lake with SQL on Redshift, driving insights through Power BI and QuickSight visualizations

Black Friday Tweets Analytics

Jun 2023 – Jul 2023

- Employed Pandas and NumPy in Python to enhance dataset quality, ensuring accurate sentiment analysis insights
- Visualized consumer sentiment with Matplotlib and Seaborn, identifying excitement and dissatisfaction patterns for analysis

Predictive Trucking Analytics

Jan 2023 – Mar 2023

- Analyzed truck fleet data using R-Studio and Hive to identify risk factors and optimize movement strategies with insights
- Utilized Hive for interactive exploration of trucking data, enabling the extraction of valuable insights
