

Prathamesh Hemant Korale

Data Analyst

682-406-8926 | prathameshkh8@gmail.com | [LinkedIn](#)

SUMMARY

Data Analyst with 3+ years of experience in healthcare and finance, specializing in predictive modeling, cloud analytics, and ETL automation. Proficient in Python (Pandas, NumPy, Scikit-learn), SQL, Databricks, Snowflake, SSIS, and Talend to build scalable pipelines and streamline workflows. Skilled in Power BI and Excel dashboards delivering real-time insights. Applied ML techniques (regression, clustering, Random Forest, deep learning) to optimize forecasting and support drug discovery. Strong in AWS, NoSQL, and ensuring data quality.

SKILLS

Data Analytics & BI: Data Wrangling, Data Cleaning & Validation, EDA, Hypothesis Testing, A/B Testing, Statistical Modeling,
Languages & Tools: Python, R, SQL (MySQL, PostgreSQL, SQL Server), MATLAB, Excel (Pivot Tables, Macros), Power Query
Machine Learning & AI: Regression, Clustering, Classification, Random Forest, Gradient Boosting, CNN, RNN, Transformers, Generative AI (GPT, LangChain)
Frameworks & Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, PyTorch, Keras, spaCy, Hugging Face
ETL & Data Engineering: SQL Server Integration Services (SSIS), Talend, Informatica, Airflow, AWS Glue
Visualization & Reporting: Tableau, Streamlit, Power BI, SSRS, Excel (VLOOKUP, HLOOKUP), KPI Reporting
Cloud & DevOps Tools: AWS (EC2, S3, RDS), Git, CI/CD for Data Pipelines, Disaster Recovery Planning
Methodologies: SDLC, Agile, Waterfall
Soft Skills: Analytical Thinking, Problem Solving, Business Communication, Cross-Team Collaboration

CERTIFICATIONS

META Database Engineer	Apr 2025
AWS Certified Machine Learning Engineer, AWS	Mar 2025

WORK EXPERIENCE

Tenet Healthcare, USA Data Analyst	Jan 2025 - Present
- Transformed large-scale healthcare datasets using SQL, R, and Python to uncover patterns, improving forecasting precision by 15% and supporting data-driven decision-making. - Applied ML and deep learning (Logistic Regression, Gradient Boosting, CNNs) in Python/R to analyze biological data, advancing drug discovery initiatives. - Designed and executed ETL pipelines with SSIS, Talend, and dbt, improving data availability by 25% and reducing transfer time by 30%. - Developed interactive dashboards (Excel, Tableau, Power BI, Looker Studio), cutting report generation time by 20% and enabling real-time stakeholder insights. - Leveraged Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly) and R for advanced data manipulation, visualization, and statistical analysis, ensuring 20% fewer inconsistencies via validation (VBA, VLOOKUP, HLOOKUP). - Conducted financial analysis to identify \$500K annual savings and optimized regression algorithms, enhancing real-time performance and reducing budgeting prep time by 10%.	
Hexaware Technologies, India Data Analyst	Jan 2021 - Jul 2023
- Conducted exploratory data analysis (EDA), data cleaning, and trend forecasting on automotive telemetry datasets, improving reporting accuracy by 25%. - Designed dashboards in Tableau and Power BI to track vehicle diagnostics, downtime, and customer service KPIs, enabling management to reduce operational delays. - Wrote optimized SQL queries and built ETL pipelines in Informatica and Talend, reducing manual reporting effort by 40%. - Automated reporting workflows using Excel macros and Power Query to streamline KPI tracking across teams. - Partnered with engineering teams to identify gaps, implemented predictive models (XGBoost, ARIMA, Prophet) for fault detection, achieving 85%+ accuracy in early alerts. - Presented actionable insights to leadership, improving decision-making and reducing diagnostic costs by 15%.	

EDUCATION

Master of Science in Computer Science	May 2025
The University of Texas, Arlington, USA	
Bachelor of Engineering in Computer Engineering	July 2022
Savitri bai Phule Pune University, Pune, INDIA	

PROJECTS

Market Trend Analysis Using LSTM and Sentiment Analysis

Mar 2025

- Engineered and trained a four-layer LSTM network on cleaned Google and Tesla closing-price data, achieving 85 % directional-trend accuracy and strengthening short-term market predictions.
- Deployed the model as a Flask microservice that automatically loads, cleans, and scales live Yahoo Finance data, returning next-day price forecasts and interactive visualizations in under 500 ms.
- Skills: Python, TensorFlow/Keras, LSTM, Time-Series Forecasting, Flask, yfinance API, Pandas, NumPy, Data Loading, Data Cleaning, Model Deployment

Social Media Dashboard

Nov 2024

- Orchestrated 7 sprints to ship a 10 KLOC full-stack dashboard that unified Facebook, Twitter/X, and LinkedIn APIs; enabled multi-account scheduling plus real-time engagement analytics.
- Developed a robust OAuth-secured posting system and AI-driven content suggestion engine, leading to a 100% pass rate across 24 automated unit and integration tests, ensuring seamless and secure user experience.
- Skills: React, Node.js, Express, Firebase Firestore, AWS (Amplify & CloudWatch), OAuth 2.0, REST APIs, Agile Scrum, COCOMO estimation, Cypress, Jest, CI/CD.

VOLUNTEERING

Counselling And Psychological Services Ambassador

Dec 2023 - May 2025

The University of Texas, Arlington, USA

Team Lead, Tech Fest

Apr 2022

Sandip Institute of Engineering and Management, Nashik
