

ABOUT ME

Job-ready Software Engineer and Data Analyst with hands-on experience in SQL, .NET Core, Azure, Python, data analysis, and microservices. Developed task management applications using the .NET stack, leveraging LLMs and RAG for intelligent summaries and data visualization. Proficient in API development, cloud deployment, and Agile workflows. Eager to contribute to high-impact engineering teams.

Top Strengths: Software Development, Data Analysis, SQL, C#, .NET, LLMs, AI Integration, Tableau, Agile Development, APIs

EXPERIENCE

.Net & Azure Developer | Elevate Path Richmond, VA, Sep 2024- Present

- Completed a bootcamp covering .NET fundamentals, including C#, dependency injection, and REST APIs, SQL DB and Azure Cloud Fundamental
- Designed and implemented a .NET microservices architecture using clean code principles and domain-driven design following agile methodology
- Gained hands-on experience in Azure cloud deployment, including App Services, Azure Functions, and Cosmos DB.
- Built a capstone task management application with features like task creation, updates, user assignment, and status tracking.
- Integrated Large Language Models (LLMs) to generate intelligent task summaries and progress reports using Retrieval-Augmented Generation (RAG).
- Practiced Agile methodologies and collaborated in a team environment using GitHub for source control and project management.

Sales Associate | Macys Richmond, VA, Nov 2014- Present

- Maintain excellent customer service by greeting and assisting customers in-store.
- Operate cash registers to assist with purchases, returns and correct discrepancies.
- Communicate effectively with customers to find what they are looking for.
- Effectively implement daily workflow to fellow peers and management resulting in increasing productivity to support team goals.
- Organize the merchandise stock in an orderly manner and auditing the inventory of upwards 1000 units with attention to detail for the purpose of reaching quarterly revenue goals.

ACADEMIC EXPEREINCES

Google Analytics for Person Finance

- Modeled personal finance and budget data using google analytics to find the insight on spending behaviors and opportunities to control expenses. Tool used are excel, SQL database, and tableau for data visualization.

Quantitative Model of Honeybee Colony Population Dynamics Report

- Researched numerous data from Mathematical Journals on Honeybee Colony Population and analyzed it in MATLAB to infer the declining state of Honeybee Populations in the current ecological environment using LaTeX

Bouncing Ball Dynamics Report

- Analyzed European restaurant data to uncover drivers of high ratings; used ML models Recorded data on Excel spreadsheets from experimentation of bouncing balls in different terrains and analyzed the data in MATLAB to model an equation to examine the chaotic dynamics.

Golden Ratio Report

- Researched on the historical significance and real-life applications of the golden ratio using MATLAB and LaTeX.

VOLUNTEER EXPEREINCES

- Taught English and Math to Bhutanese refugee community members, designing customized **learning plans using data-driven assessments** to track progress.
- Cats Corner, Inc., Newport News, VA – January to April, 2012
- Grace Methodist Church, Newport News – March to April, 2012

EDUCATION

Virginia Commonwealth University | Dec 2021

B.S in Mathematics

Elevate Path | May 2025

.NET & Azure Bootcamp

SKILLS

- .Net Core & C#
- Python & Pandas
- Microservices
- Azure Cloud Services
- SQL & NoSQL Database
- Restful Api Design
- Entity Framework Core
- Git & CI/CD
- Azure Devops
- Ai Integration
- LLMs And Rag
- Software Lifecycle
- Agile Sprint and Kanban
- Application Debugging & Testing
- Webservices
- Postman And Swagger
- Microsoft Office Suite
- Team Player
- MatLab
- Latex
- Data Visualization
- Regression Model
- Copilot
- Claude Code
