

Pravin Ajay Selvavinayagam Ponmozhi

Business Analyst

Fort Worth, TX | (682) 355-1894 | ajayponmozhi98@gmail.com | [LinkedIn](#)

SUMMARY

Business Analyst with 4+ years of experience driving requirements gathering, data analysis, and process optimization. Skilled in stakeholder management, Agile/Scrum methodologies, and cross-functional collaboration to deliver actionable insights and data-driven solutions. Adept at Power BI, Tableau, SQL, and Excel to support budgeting, forecasting, and strategic decision-making. Passionate about streamlining workflows, improving KPIs, and bridging business-technical gaps.

TECHNICAL SKILLS

- **Requirements Gathering & Documentation:** BRD, FRD, User Stories, Use Case Diagrams
 - **Stakeholder Management & Cross-Functional Collaboration**
 - **Business Process Analysis & Workflow Modeling:** Visio, Lucidchart, Draw.io
 - **Data Analysis & Reporting:** Power BI, Tableau, Excel (Advanced), SQL, Google Analytics
 - **Agile & Scrum Methodologies:** Sprint Planning, UAT, Backlog Management, SDLC
 - **ERP & CRM Experience:** SAP, Oracle NetSuite, Microsoft Dynamics 365
 - **Wireframing & Prototyping:** Figma, Pencil, Adobe PDF Templates
 - **Testing & Quality Assurance Support:** Selenium, JMeter, SmartTestLink, UAT
 - **API & Data Management:** Postman, JSON, Data Mapping, Gap Analysis
 - **Change Management, Training & Data-Driven Decision Support**
-

PROFESSIONAL EXPERIENCE

MetLife, USA

Jan 2024 to Present

Business Analyst

- Designed, developed, and maintained **Power BI and Tableau dashboards, Redshift queries, and Excel reports** to track key performance indicators, improving decision-making speed by 20%.
- Conducted **data modeling, ETL pipeline design, and gap analysis** using **SQL, Redshift, and Oracle** to ensure data accuracy across policy admin, CRM, and ERP systems.
- Delivered **ad-hoc analysis** for leadership using **statistical methods** (t-test, Chi-squared, correlation analysis), supporting operational and financial forecasting models.
- Facilitated **UAT sessions, Agile/Scrum sprint planning**, and created documentation/training for **self-service analytics tools** to empower non-technical users.
- Reviewed **Figma prototypes** and validated embedded BI reports for usability and data accuracy, contributing to a **25% reduction in average customer handling time**.
- Delivered interactive KPI dashboards in Tableau, empowering leadership with data-driven decision support.

Encode Testers, India

May 2019 to Dec 2022

Business Analyst

- Built interactive **Quick Sight, Power BI, and Excel** dashboards to monitor QA efficiency, resulting in a **15% increase in execution throughput**.
 - Modeled **integration workflows and ETL processes** between QA tools (**Selenium, JMeter, SmartTestLink**) and backend systems, streamlining data pipelines.
 - Performed **API testing** using Postman, validated **JSON imports into NoSQL databases**, and maintained accuracy for high-volume data sets.
 - Created forecasting and KPI tracking reports using **statistical analysis** to predict defect rates and testing resource needs.
 - Designed **client-facing BI reports and MicroStrategy layouts**, and led **training sessions** to enable stakeholder self-service access to QA metrics.
-

EDUCATION

Masters in Management - Data Analytics — Indiana Wesleyan University, IN

May 2025

Bachelors in Information Technology — PSNA College of Engineering and Technology, India

Apr 2019
