

ABOUT ME

As a recent graduate of a technology school, I am actively pursuing opportunities in data, product analytics and project management roles. My expertise lies in business strategy, data analysis, project and product management, and skilled in coordinating cross-functional teams, streamlining project execution, and delivering insights through data visualization and reporting.

SKILLS AND CERTIFICATIONS

- Functional** – Improved Decision Making, Strong Analytical & Logical Thinking, Data Modeling, Strategic Planning, Agile
- Tools** – Power BI, Tableau, MySQL, PostgreSQL, Python, Advance Excel, Asana, Figma, Salesforce, CRM, Scrum, Jira
- Soft skills** – Problem solving, Project Planning, Team Management, Risk & Time Management, Critical Thinking, Analytical Thinking, Organizational Skills, Team Work, Stakeholder Management, Communication Skills
- Certifications** – Google Data Analytics, IBM Data Analyst, Google Business Intelligence, Python Basics, Product Management

EXPERIENCE

1. TimesPro

PROGRAM ADVISOR

Feb – March 2025

- Guided **1,500+ learners** in understanding course offerings and choosing the right program based on their career goals.
- Generated sales of **over ₹2.5 Lakh** by effectively analyzing learners' needs and recommending suitable courses.
- Utilized a consultative approach to bridge the gap between industry trends and learners' aspirations, while developing strong skills in **communication, problem-solving, and data-driven decision-making**.

2. Koita Centre for Digital Health(KCDH) – IIT Bombay

PROJECT INTERN

April – Dec 2024

- Managed extensive datasets, **ensuring 100% reduction** in data redundancy and **99% enhancement** in accuracy.
- Developed user-friendly **Power BI dashboards**, praised for comprehensive data visualization. Applied DAX queries for insightful data analysis and enhanced metabolomics data usability in Excel.
- Spearheaded AI integration, resulting in **15% improved** patient outcomes and **20% operational** efficiency.
- Collaborated on comprehensive **healthcare dashboards** integrating patient, doctor, and treatment data.

3. DeepHue Technologies Ltd.

DATA ANALYST INTERN

Nov 22 – Jan 2023

- Developed a comprehensive **Diabetes Reversal Course Curriculum** using Design Thinking and analytical tools, resulting in a **40% increase** in course completion rates.
- Utilized SWOT and competitive analysis to tailor the curriculum and enhance client **conversion by 15%**.
- Conducted data analysis for fitness bands and smartwatches to refine program strategies, employing advanced techniques like **Google Analytics, Power BI and Excel**.
- Identified feature importance and **ensured data accuracy** through meticulous cleaning and organization.

PROJECTS

1. Phishing Website Detection Using Machine Learning Techniques

Jan– May 2024

- Coordinated tasks across data collection, model training, and evaluation phases, ensuring structured progress and version control.
- Collected and categorized **10,000** URLs into two categories: legitimate and phishing websites, using 18 key features for accurate classification.
- Implemented various machine learning models, including Decision Tree, Random Forest, MLP, XG Boost, SVM, Linear Regression, Logistic Regression, and KNN, to train and test the dataset.
- Visualized the performance of each model by tracking accuracy, precision, F1 score, sensitivity, ROC curve, and confusion matrix.

2. Pizzaexpress Data Analysis

April 2024

- Employed **advanced MySQL queries** to conduct comprehensive data analysis on a vast dataset encompassing thousands of orders and 18 distinct categories for Pizzaexpress.
- Merged and analyzed data to derive insights and produce actionable reports, optimizing Pizzaexpress's menu, pricing, and operations.

3. Patients Healthcare Report (ER)

Jan 2024

- Analyzed extensive hospital data using statistical tools and DAX queries to uncover correlations and insights.
- Created visually informative Power BI dashboards presenting key metrics and trends for hospital performance and patient satisfaction.
- Drove a 15% increase in post-operative patient satisfaction scores by pinpointing bottlenecks in discharge process using data insights, enabling tailored interventions for improved patient experience.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering – 7.64 CGPA

University of Engineering & Management, Jaipur

2020 – 2024

12th PCM, CBSE – 75.02%

Radiant International School, Patna

2019 – 2020
