

Preethi Kilaru

Data Analyst

+1 (313) 290-0230 | kilaru.pc12@gmail.com | Mount Pleasant, MI | [LinkedIn](#)

SUMMARY

Results-oriented Healthcare Data Analyst with 3+ years of experience in data analysis and visualization. Proficient in Python, R, SQL, and SAS for data manipulation and statistical analysis, utilizing tools such as NumPy, Pandas, Matplotlib, SciPy, and Seaborn. Experienced in building actionable dashboards and reports using Tableau, Power BI, and Excel to drive data-driven decisions. Strong background in data management, including ETL, data cleaning, and integration, with hands-on experience in databases like MySQL, SQL Server, PostgreSQL, and MongoDB. Well-versed in cloud technologies (AWS, GCP, Azure) and big data tools (Snowflake, Hadoop, Spark). Adept in SDLC, Agile, and Waterfall methodologies for efficient project execution and collaboration.

SKILLS

- **Programming Languages:** Python, SQL, R
- **Data Visualization/ Tools:** Tableau, Power BI, Looker, Advanced Excel
- **Big Data Ecosystem:** Snowflake, Hadoop, Spark, Databricks, Kafka
- **Cloud Technologies:** AWS (Glue, S3, QuickSight, EC2, RDS, Lambda, IAM, CloudFormation), GCP, Azure
- **ETL Tools:** SSIS, Talend, dbt, Airflow
- **Databases:** MySQL, PostgreSQL, MongoDB, Redshift, Google, BigQuery
- **Data Science & ML:** NumPy, Pandas, TensorFlow, Scikit-Learn, SciPy, Matplotlib, Seaborn, GGplot2
- **Oracle EPM:** Data Interpretation, Dashboard Analysis, Financial Forecasting, Strategic Planning
- **Methodologies:** SDLC, Agile, Waterfall
- **Operating Systems:** Linux, Ubuntu, Windows, Mac

EXPERIENCE

United Healthcare Group, USA | Data Analyst

Jan 2024 - Present

- Conducted comprehensive data analysis using Python and SQL to identify trends and generate actionable insights, enhancing patient care and operational efficiency.
- Employed NumPy and Pandas for data cleaning and manipulation, ensuring data integrity and accuracy for reporting and analysis.
- Managed data integration across MySQL, SQL Server, PostgreSQL, and RDS for seamless access and enhanced database management.
- Utilized SAS for advanced statistical analysis to enhance predictive modeling and created interactive Tableau dashboards, improving reporting efficiency and enabling stakeholders to monitor key performance indicators (KPIs).
- Evaluated and enhanced the current data model as per the requirements to support efficient analysis and reporting.
- Provisioned new EC2 instances in AWS, allocated volumes, and provided IAM permissions for secure access to data and infrastructure.
- Utilized AWS Lambda to automate data processing tasks, improving efficiency and reducing manual intervention.
- Performed data mining to analyze patterns in healthcare data, including patient records and claims processing, helping improve operational insights.
- Developed and implemented data quality checks, resulting in a 30% reduction in errors and discrepancies in healthcare data reporting.

Hellinex Cloud, India | Data Analyst

Jun 2020 - Jul 2022

- Managed end-to-end ETL processes using SQL and Python, improving data integration efficiency and significantly reducing processing time, which enhanced overall data quality for decision-making.
- Conducted detailed data analysis using R and Excel, identifying key trends and providing actionable insights that guided business strategies and operational improvements.
- Designed and deployed interactive Power BI dashboards that tracked key business metrics and key performance indicators, noticeably enhancing decision-making efficiency across business units.
- Utilized machine learning models built with Scikit-Learn to predict customer behavior and optimize marketing strategies, directly contributing to the business's growth and improving targeted campaigns.
- Ensured data accuracy through cleansing and transformation while aligning solutions with business needs to drive actionable insights.

EDUCATION

Master of Science in Information Technology

Central Michigan University

May 2024

Mount Pleasant, Michigan

Bachelor of Technology in Electronics and Communication

DVR & DR HS MIC College of Technology

Sep 2020

Vijayawada, India

CERTIFICATION

Data Analytics Certification – Central Michigan University | 2024

AWS Certified Cloud Practitioner – Amazon Web Services | 2025

Improving financial Planning with Oracle EPM – Coursera Instructor Network | 2025
