## SUMMARY

---

Dynamic and results-driven Market Research Analyst with 5 years of experience and a master's degree in chemical engineering. Expertise in conducting comprehensive market analysis across diverse industries including Food & Beverages, Oil & Gas, Healthcare, and Chemicals. Adept at utilizing advanced analytical tools and problem-solving techniques to deliver strategic insights that support business growth and decision-making. Proven ability to identify market trends, assess competitive landscapes, and develop data-driven solutions that align with business objectives.

## WORK EXPERIENCE

---

### Deputy Manager (R&D Technical Market Analysis)

PepsiCo

Aug '22 — May '24

- Identified and defined the objective of a research project and determined the best methods to use to meet those objectives by framing up the research.
- Performed in-depth market analysis, consumer behavior, desk research on products, market trends and competitors to create detailed reports and presentations.
- Translated complex research data into clear, actionable recommendations to the stakeholders.
- Used a concise and structured data storytelling approach through insightful presentations and visualizations.
- Analyzed scientific publications and clinical data to correlate the relationship between ingredients and their benefit or claim areas.
- Summarized relevant data and made suitable recommendations related to research findings.
- Used advanced SQL queries to pull data while working with large data sets.
- Proficiency with Euromonitor and Mintel databases
- Experience with survey platforms like Qualtrics, SurveyMonkey, and Google Forms.

### Market Research Analyst

Marketyzers Global Consulting LLP

Jan '22 — Apr '22

- Conducted in-depth secondary research on markets, products, and companies within the chemical & materials sector, leveraging both written and data-based analysis.
- Prepared detailed reports across multiple industry verticals, providing actionable insights and strategic recommendations to stakeholders.
- Delivered competitive analysis of companies' market offerings, identifying key market trends, pricing strategies, and sales approaches.
- Collaborated closely with clients to understand their objectives, contributing to the development of comprehensive databases, samples, and reports tailored to specific business needs.
- Ensured the accuracy and completeness of data, adhering to prescribed quality standards and enhancing decision-making processes.
- Actively handled client queries and managed deliverables, ensuring timely and effective communication throughout project life cycles.

### Associate Analyst

GlobalData PLC

Mar '19 — Dec '21

- Performed desk research on markets, products, and companies within the Oil & Gas sector, delivering actionable insights through both written reports and data-driven analysis.
- Analyzed financial and regulatory filings, prospectuses, government statistics, industry publications and other sources for investment information and to update asset level data.
- I was responsible for covering global-level oil and gas assets such as Gas processing plants, LNG Terminals and Tankers and regularly updating, organizing, and ensuring data accuracy in a timely manner.
- Used advanced SQL queries for data extraction and excel for analyzing data for market or trend analysis.
- Proactively identified and sourced new information, ensuring the continuous update and relevance of market data.
- Monitored and evaluated key industry developments, including policy changes, regulations, and emerging trends to provide actionable insights.
- Upheld the highest standards of data quality, ensuring all information adhered to parameters of accuracy, completeness, and relevance for informed decision-making.
- Analyzed global market trends within the Oil & Gas industry, providing clients with strategic insights to navigate market shifts and opportunities.
- Familiarity with Pitchbook and D&B Hoovers for company's information.
- Supported research on healthcare market trends and regulatory dynamics by assessing key competitors with their product features, pricing/packaging strategies, go-to-market motion, and market share.
- Collected and analyzed customer feedback to improve product positioning strategies and innovation areas.

**Assistant Professor**  
B.V Raju Institute of Technology

May '17 — Feb '19

- Taught courses in Energy Engineering, Petroleum, and Petrochemical Technology, delivering high-quality lectures and fostering a deep understanding of complex concepts in these fields.
- Led research initiatives in Water Treatment, contributing valuable insights and innovations to address industry challenges.
- Actively engaged in workshops and National Conferences, continuously expanding knowledge, sharing expertise, and staying at the forefront of industry developments.

**Assistant Professor**  
Lords Institute of Engineering & Technology

Dec '15 — Mar '17

- Delivered lectures on Heat Transfer and Chemical Process Calculations, providing students with a strong foundation in core engineering concepts.
- Guided students in the development of theses and dissertations, offering academic support and facilitating research progression.
- Actively mentored and counseled students, fostering their academic growth, personal development, and career planning.

EDUCATION

---

**Master in Chemical Engineering**, NIT Warangal (GPA: 7.76)

Jul '13 — Jun '15

**Bachelor in Chemical Engineering**, B.V. Raju Institute of Technology (GPA: 84.25%)

Jul '09 — May '13

SKILLS

---

**Research Skills**

Secondary Research, Data Analysis, Survey Design & Questionnaire Development

**Technical Skills**

Microsoft Office, Power BI, Data Mining, SQL, Microsoft Excel

**Analytical Skills**

Insights Generation, Analytical Thinking, Problem Solving

**Communication Skills**

Report Writing, Presentation & Communication, Data Storytelling

**Management Skills**

Stakeholder Management
