Summary

MPH graduate in Epidemiology with a strong background in dentistry and experience in public health, research, and patient care. Skilled in data collection, statistical analysis, and visualization using Excel, SPSS, SAS, R, and Tableau. Experience in grant writing, IRB compliance, and health equity research. Certified in Good Clinical Practice and CITI programs, with proven ability to bridge clinical knowledge and research to improve health outcomes.

Experience

OKC- County Health Department

Feb 2025 – Jul 2025

Epidemiologist 1

Oklahoma city, OK

- Led contact tracing and exposure assessments for infectious diseases, delivering targeted health education and coordinating follow-up care to support at-risk individuals.
- Conducted comprehensive investigations of reportable communicable diseases, analyzing data to identify risk factors, ensure timely reporting, and maintain compliance with state protocols.
- Revised and standardized public health fact sheets, incorporating the latest CDC guidelines and verified data from epidemiological studies, supporting public health education efforts.

Jackson County Public Health

Jan 2024 – May 2024

Health Equity Intern

Lee's Summit, MO

- Designed an educational module on local health disparities in Eastern Jackson County based on community health assessments
- Developed and distributed pre- and post-training surveys to 25+ staff members, quantifying a 30 % improvement in understanding of local health disparity concepts after module completion.
- Collaborated on redesigning feedback tools, increasing community survey response rates by 40%

Saint Louis University

Sep 2023 – May 2024

Graduate Assistant

St. Louis, MO

- Conducted literature reviews and applied statistical data analysis on health equity and payment models.
- Drafted research proposals and manuscripts; contributed to grant writing efforts
- Facilitated IRB submissions and protocol amendments for active research studies, ensuring full adherence to ethical guidelines and regulatory compliance.
- Performed qualitative data coding and analysis on oversight topics, providing evidence-based input for policy recommendations.

Sushanth Dental Clinic

Jan 2022 – Jul 2022

Junior Dentist

India

- Spearheaded a new patient intake process, consolidating clinical and administrative workflows, reducing patient wait times by 15 minutes and increasing patient satisfaction scores by 20 %
- Implemented and reinforced infection control protocols, maintaining high standards of clinical hygiene and accurate outcome documentation to support regulatory compliance.
- Streamlined patient scheduling and record-keeping by coordinating between clinical and administrative teams.

Narayana Dental College

Oct 2020 – Nov 2021

Clinical Research Intern/Dentist

India

- Performed assessments by interviewing, recording, and interpreting patient dental and medical histories.
- Advised around 300 patients regarding preventative dental care, including the causes and treatment of dental problems.
- Analyzed the community's dental needs to determine changes and trends in dental disease patterns.

Education

Saint Louis University

May 2024

MPH Epidemiology

St. Louis, MO

NTR University of Health Sciences

Nov 2021

Bachelor of Dental Surgery

India

Technical Skills
