

PREETHI VANGALA

DOTNET FULL STACK DEVELOPER

M: +1 (551)-280-6162 | E: preethi_v23@outlook.com | Ln: www.linkedin.com/in/pvangala10

PROFESSIONAL SUMMARY

Detail-oriented and solution-driven .NET Developer with 3 years of hands-on experience in designing, developing, and deploying scalable web applications and APIs using Microsoft technologies. Proficient in C#, ASP.NET MVC/Core, and SQL Server with a solid understanding of object-oriented programming and software development life cycle (SDLC). Adept at collaborating with cross-functional teams to deliver high-quality solutions on time.

KEY SKILLS

- **Languages:** C#, JavaScript, HTML5, CSS3, SQL, LINQ
 - **Frameworks & Platforms:** .NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework, Blazor (basic)
 - **Front-end:** Angular (basic), jQuery, Bootstrap
 - **Database:** MS SQL Server, MySQL
 - **Tools & IDEs:** Visual Studio, SSMS, Postman, Git, Azure DevOps
 - **ORMs:** Entity Framework, Dapper
 - **Cloud/CI-CD:** Azure (App Services, SQL DB), GitHub Actions, Azure Pipelines
 - **Other:** RESTful API design, Unit Testing (xUnit/NUnit), Agile/Scrum
-

EDUCATION

- Master's in information technology- Wilmington University, DE USA
 - Bachelor's in computer science—Osmania University, India
-

PROFESSIONAL EXPERIENCE

Role: .Net Full stack Developer

AUG 2024-Present

Client: Virginia Department of Transportation (VDOT), USA

- Developed and maintained full-stack web applications using **ASP.NET Core (C#)** and **Angular**, delivering responsive and user-friendly modules for VDOT's transportation asset management systems.
- Designed and implemented secure **RESTful APIs** using **ASP.NET Core Web API**, enabling reliable integration between frontend components and state-maintained backend services.
- Produced comprehensive **technical documentation**, including architecture diagrams and deployment instructions, in adherence to **state and federal IT compliance standards**.
- Implemented **Azure Logic Apps** to integrate VDOT's CRM with legacy transportation management systems.
- Created **driver license and vehicle registration validation plugins** using C# to ensure data accuracy.
- Migrated **millions of transportation records** using SSIS & Kingsway Soft with 99.9% data integrity.
- Participated in Agile/Scrum ceremonies with cross-functional teams, contributing to sprint planning, backlog grooming, and release cycles aligned with VDOT's delivery roadmap.

Tech Mahindra, India

- Designed and developed scalable, maintainable web applications using **ASP.NET Core and MVC** architecture, improving response time by 30% for high-traffic module
- Built and consumed RESTful APIs using ASP.NET Web API, ensuring secure communication between frontend and backend via JWT token-based authentication.
- Implemented **Role-Based Access Control (RBAC)** and **Claims-based authentication** using **ASP.NET Identity** and **OAuth2**.
- Participated in deployment and CI/CD pipelines using **Azure DevOps**, configuring build and release pipelines for .NET Core apps.
- Developed and optimized complex **T-SQL queries, stored procedures, and triggers** in **SQL Server** to support data-intensive applications.
- Participated in **peer code reviews and static code analysis** to maintain coding standards and reduce technical debt.
- Worked in **Agile/Scrum environments**, attended daily stand-ups, sprint planning, and retrospectives to ensure timely delivery.
- Conducted code profiling and memory leak analysis using tools like Visual Studio Diagnostics and ANTS profiler to improve performance.
- Used Azure DevOps to manage source control, work items, and build pipelines in coordination with the DevOps team.
- Prepared technical documentation, API references, and deployment guides, improving team onboarding and support.

CERTIFICATIONS

- Microsoft Certified: Fundamentals of Azure – (AZ-900)
- Microsoft Certified: Azure administrative developer – (AZ-104)
- Microsoft Certified: Power Platform Developer Associate –(PL-400)

ACADEMIC PROJECTS

- Built a Power Apps portal for student registration and interview scheduling.
- Integrated with university databases using Kingsway Soft and SQL Server.
- Created Power BI dashboards to track recruitment metrics (placements, interview stats).
