EDUCATION

Saint Cloud State University

Bachelor of Information System Security, GPA: 3.78/4.0

St. Cloud, MN

Expected Graduation: May 2029

- **Relevant Coursework:** Business Analytics, Accounting, Macroeconomics, Microeconomics & Marketing

EXPERIENCE

Residential Advisor

St. Cloud State University

Aug 2025 – Present

St. Cloud, MN

- Built a positive residential community by organizing 5+ cultural and social events each semester using campus resources, which increased student engagement and attendance by **20%**.
- Supervised a residential community of **300+** students, enforcing policies and fostering inclusivity, contributing to higher satisfaction scores and fewer conduct issues.
- Enforced housing policies while providing guidance by documenting incidents in StarRez, ensuring a safe and inclusive environment.
- Tracked student concerns and reported patterns in weekly staff meetings, leading supervisors to proactively address recurring issues before escalation.

Teaching Assistant

St. Cloud State University

Aug 2025 – Present

St. Cloud, MN

- Supported professor by grading assignments and maintaining D2L Brightspace, ensuring accurate and timely records for **160+** students.
- Guided students in labs/projects with one-on-one and group assistance, which improved participation and boosted average performance by **15%**.
- Facilitated classroom operations by preparing resources and setting up lab environments, ensuring classes ran efficiently and on schedule.
- Led weekly study groups using practice problems and interactive discussions, which increased student comprehension and participation rates.
- Provided feedback on student progress through progress reports and D2L analytics, helping professor adjust instruction based on student needs.

PROJECTS

Community Engagement Analytics | *Excel, Survey Tools*

Aug 2025

- Designed and distributed surveys to **100+** students using Google Forms, collecting data on participation, engagement, and event satisfaction.
- Created pivot tables, charts, and visual dashboards to break down engagement trends by event type, time, and demographic group.
- Presented findings to NSA leadership in a structured report and presentation, leading to a **15%** increase in student attendance at subsequent events through targeted planning and improved scheduling.

Cybersecurity Case Study | *Research and Report Writing*

Jan 2025

- Conducted a literature review of **10+** academic papers, case studies, and industry reports on ethical AI and data privacy in higher education.
- Analyzed real-world scenarios of universities facing data security challenges, applying frameworks from coursework in Information Systems Security.
- Integrated visual aids such as flowcharts and tables to clearly communicate risks and potential solutions for non-technical audiences.
