PROFILE

Detail-oriented **Data Analyst** with over **2** years of experience in data analysis, SQL development, and data visualization using Tableau. Skilled in integrating and analyzing large datasets to uncover business insights and deliver actionable reports. Experience with Student Information Systems concepts and enterprise-scale data environments. Adept at creating dashboards, validating data pipelines, and collaborating with cross-functional teams. Committed to continuous learning through training, self-guided projects, and workshops.

CERTIFICATES & TECHNICAL SKILLS

- Tableau Essential Training Certification
- Workshop: Information Security & Cyber Forensics – Cyber Cure Technologies
- SEED Infotech Preliminary Examination – Cleared
- Merit Certificate -Pune University (2012)
- **Databases:** Microsoft SQL Server
- **Programming Languages:** SQL
- **Tools:** Tableau, SSMS, MySQL workbench
- **Microsoft Office Suite:** Microsoft Excel, MS Word, Microsoft PowerPoint, Outlook
- **Other Tools:** JIRA

WORK EXPERIENCE

- **Tata Consultancy Services Ltd. (TCS)** Pune, India Nov 2015 - Mar 2018
Role: ETL/ Data Migration Analyst Client: **Pfizer Inc. USA**
 - Create advance SQL source and target count and minus queries to validate the source data against the target database.
 - Conducted data integrity and consistency check to identify data anomalies during data migration and rectify defects.
 - Developed complex dashboard reports for Drugs and related Adverse events using **SSMS** that helped businesses to see a comprehensive picture of reported adverse events and extract relevant insights.
 - Conducted data requirement analysis and developed test plans and traceability matrices to ensure system reliability.
 - Executed complex SQL queries to validate data integrity across enterprise systems.
 - Created and maintained source-to-target mappings and data dictionaries.
 - Collaborated with business and technical teams to confirm data requirements and reporting accuracy.
 - Managed issue tracking through JIRA supporting clean data delivery.
 - Contributed to internal dashboards and reporting interfaces for test and data validation processes.

EDUCATION

- **Bachelor of Engineering in Information Technology** Graduated: June 2015
JSPM Imperial College of Engineering and Research, Pune, India GPA: 3.0

SELF LEARNING PROJECTS

- **Excel Sales Dashboard Project**
 - Built a comprehensive **interactive Excel dashboard** integrating sales and profit data from 2015–2018 across categories and customer segments. Used **PivotTables**, **dynamic charts** and **conditional formatting** to surface business-critical insights including YoY trends, top-performing regions, and product-level profitability.
- **Aviation Big Data Analysis**
 - Analyzed the delay patterns in aviation dataset provided by the Bureau of Transportation Services USA, for the monthly data from July 2017 to July 2019 (over 2 million records), using both relational and non-relational databases.
 - Pre-processed the monthly flight data for duplicate flight records and conditioned data including cleansing, normalization, and labeling using Excel. Created a dashboard using Tableau to analyze the origin, destination, months, durations, and reasons for flight delays.
