PROFESSIONAL SUMMARY

Computer Science student with around 3 years of internship and software engineering experience. Skilled in designing and developing cross-platform mobile applications with intuitive UI/UX and backend integration. Skilled in JavaScript, Java, Python, RESTful APIs and cloud platforms like AWS & GCP. Strong foundation in data structures, OOP, and modern development tools like Git, VS Code, and Agile methodologies. Collaborative team player committed to delivering high-quality software solutions aligned with business goals.

EDUCATION

Master of Computer Science

University of Texas at Austin, Austin, TX, USA

Expected Start: August 2025

Bachelor of Technology in Computer Science & Engineering

Guru Nanak Institute of Technology, Haryana, India

2015 - 2019

TECHNICAL SKILLS

Languages:

Java, Python, Dart, JavaScript, SQL, Shell Scripting

Databases:

PostgreSQL, Dynamo DB, SQL Server, Oracle

Frameworks:

Flutter, Spring, Angular, Hibernate, Microservices

Cloud Platforms:

AWS, Google Cloud

Data Analysis and Visualization Tools:

Power BI, Pandas, NumPy, Apache Spark, ML libraries

Other Skills:

Firebase, GraphQL, Docker, Kafka, PySpark, REST APIs, Google Maps API, Payment Gateway Integration (Stripe, Khalti), Push Notifications (Firebase Cloud Messaging)

PROFESSIONAL EXPERIENCE

Mavorion Systems, Kathmandu, Nepal

Aug 2020 – July 2022

Software Engineer

Responsibilities:

- Designed and developed cross-platform mobile applications using Flutter & Dart.
- Led a team of developers, ensuring clean code architecture and on-time project delivery.
- Integrated RESTful APIs for seamless frontend-backend communication.
- Optimized app performance by resolving memory usage & rendering issues.
- Managed state management solutions like Bloc, Provider, and MVVM architecture.
- Implemented payment gateways (Stripe, Khalti) with push notifications (FCM).
- Deployed applications to Google Play Store & Apple App Store.

Environment: Dart, Flutter, Google API, Bloc, Provider, Flavors, SQL, Unit Testing, Payment Integration Stripe and Khalti, Google Cloud, OAuth, JWT, Google Maps, Apple Maps, Firebase Cloud Messaging, API Integration, UI/UX, AdobeXD, Postman, Git, Jira.

- Developed mobile applications using Flutter & Dart with a focus on UI/UX design.
 - Implemented Google Maps API, Firebase Analytics, and authentication services.
 - Ensured cross-platform compatibility and optimized application performance.
 - Worked on state management using GetX, Bloc, and Provider.
 - Maintained version control using Git for seamless team collaboration.
- Environment:** Dart, Flutter, Google API, Bloc, Provider, SQL, JWT, Google Maps, Apple Maps, Firebase Cloud Messaging, API Integration, UI/UX, AdobeXD, Postman, Git, PHP.

Cotiviti Nepal, Kathmandu, Nepal
Software Development Intern

- Developed Java-based applications using Spring Boot, Hibernate, JSP, and Servlets.
- Gained hands-on experience with SQL databases & REST APIs.
- Built a Blog Application using Spring Boot, Hibernate, and web security measures.
- Worked with Linux and Shell Scripting.
- Worked with various databases, including Oracle, MySQL, PostgreSQL, and SQLite.
- Developed websites using Python frameworks like Django, combining Python with web technologies like HTML, JavaScript, CSS, and jQuery.

CERTIFICATIONS & TRAINING

- Data Engineering Basics, IBM (edX)
- AWS Cloud Technical Essentials, AWS
- SQL Bootcamp, Udemy
- Power BI Bootcamp: Build Real-World Power BI Projects, Udemy
- Web Designing Training, Broadway Infosys Nepal
- 6-Week Frontend Development Training, Acadview
- Core Java, JavaScript, and Android Development Training, Ducat
