

Priyal Thaker

Priyalbhatt413@gmail.com | 732-762-6632 C

Frisco, TX

Professional Summary

Detail-oriented and results-driven Quality and Laboratory Science professional with over **5 years of experience in FDA-regulated medical device and diagnostics industries**, specializing in **product support, laboratory testing, quality assurance, maintaining & troubleshooting instruments**. Adept at handling **customer complaint investigations, regulatory compliance (CLIA, ISO 13485, GMP, GCP)**, and **cross-functional collaboration**. Demonstrated success in **clinical diagnostics, biomedical engineering, and remote QA support**. Proven ability to manage high-volume technical inquiries, improve SOPs, and ensure compliance with **FDA, ANSI, and ISO standards**.

Professional Experience

VSP Optics, Lewisville, TX (Hybrid)

Senior Quality Analyst | Aug 2023 – Jan 2025

- Validated optical lenses from new vendors to maintain consistent quality standards across U.S. labs.
- Conducted FDA/ANSI-compliant audits; produced detailed weekly reports for labs and Quality Engineers.
- Performed QA lab tests including contact angle, QUV, Bayer, and tap-pulling.
- Managed NCMR processes and updated controlled documents per ISO 13485.
- Maintained calibration of QA lab equipment and authored lab work instructions.
- Collaborated cross-functionally with manufacturing, engineering, supply chain, and sales teams.
- Tracked data & reviewed calibration documents using CERDAAC software by SIMCO.
- Promoted from Product Development QA to Senior Quality Analyst at VSP Optics.

Maternity leave*

Abbott Diagnostics (Remote, Scarborough, IL)

Quality Assurance Product Support Specialist | Jan 2022 – Aug 2022

- Handled nationwide COVID-19 complaints; managed cases using Salesforce and Oracle.
- Conducted root cause investigations using RDR methodology; escalated high-risk cases.
- Utilized TrackWise for documentation; created essed trends, and escalated CAPAs.
- Resolved issues such as optic errors, shipping stress, step-loss, and temperature failures.

Maternity leave*

Abbott Diagnostics, Irving, TX

Product Support Specialist Senior | Aug 2019 – Nov 2019

- Managed the Customer Complaint Investigation Program for in-vitro diagnostic instruments.
- Evaluated complaint severity to determine pRE vs Non-pRE status and regulatory reportability.
- Authored detailed root cause analyses; engaged with global support, technical teams, and country managers.
- Worked within GSS, APLM, TSB, CMS Next, and GPPM platforms to support product lifecycle quality.

Abbott Diagnostics, Irving, TX

Biomedical Engineering Technician | Aug 2018 – Feb 2019

- Assembled and validated new/refurbished Prism analyzers, ensuring readiness for field deployment.

- Performed PMs, functional testing, assay simulations, and system validations.
- Authored NCMRs; ensured compliance with GMP and internal documentation requirements.
- Performed sample tests plus preventive maintenance, software installation, troubleshooting, purge and prime.

Arthritis Centers of Texas, Dallas, TX

Lab Technician | Mar 2017 – Aug 2018

- Conducted tests using Siemens and Dynex systems (Lupus Panel, RA, CCP, Lipid, Thyroid).
- Managed CLIA inspection audits and system validations.
- Maintained compliance with 21 CFR Part 11; used CGM LABDAQ and LIS for data tracking.
- Interfaced with physicians for critical results and coordinated send-outs to reference labs.

Education**M.S. Biomedical Engineering (Tissue Specialization)**

New Jersey Institute of Technology – Jan 2015

B.S. Biology

Kean University – Aug 2011

A.A.S. Medical Laboratory Technology (MLT)

Middlesex County College – May 2009

Internship in Raritan Bay hospital as in Medical Lab Technician

Technical Skills

- **Medical Devices/Instruments:** Siemens Dimension Rxl Max, Dynex DSX, Abbott Prism, Beckman
- **Lab Equipment:** Centrifuges, pipettes, incubators, autoclaves, spectrophotometers, HPLC
- **Software:** CERDAAC software, Salesforce, Oracle, TrackWise, LIS, CGM LABDAQ, Power BI, AutoCAD, Pro Engineer
- **Techniques:** ELISA, Western/Northern Blot, Flow Cytometry, PCR, DNA/RNA extraction
- **Compliance:** ISO 13485, GMP, GDP, CLIA, 21 CFR Part 11, GCP
- **Work Skills:** Good Laboratory Practice, quickly grasp new tools, problem-solving techniques, and methodologies, able to multi-task, hands-on NPD experience and good communication skills

Certifications & Training

- ABO (American Board of Opticianry) Training
- Certificate: CBT-CAPA-PRERFR, ED.003
- ISO & METRO SOP Compliance Training
- 100% Accuracy on American Proficiency Institute Assessment
- "Super Star Award" – Clinical Lab Scientist II, Q2 2016
- Outstanding Clinical Award – Middlesex County College MLT Dept.

Professional Development & Projects

- **Research Projects:**
 - AI Concave Contact Lens Prototype
 - Synthetic ACL Implant Design
 - Gold Nanowire-Infused Cardiac Patch
 - Anatomical LOGO Man via CAD 3D
