

Priyam Das

Software Engineer | Active Secret Clearance

Woodbridge, VA, USA

12priyamdas34@gmail.com • (571) 359-9471

Objective

Detail-oriented Software Engineer with around four years of experience in full-stack development, cloud computing, and problem-solving. Adept at working in client-facing roles, optimizing performance, and delivering high-quality software solutions. Strong background in both frontend and backend. Passionate about technology, innovation, and making an impact in both civilian and military sectors.

Education

Virginia Tech

Expected: June 2027

Master of Science, Information Technology (Software Engineering track)

George Mason University, Fairfax, Virginia

Graduation: May 2021

Bachelor of Science, Computer Engineering

Experience

- **Software Engineer | InterImage | April 2025 – present**
 - Migrate legacy web applications from Apache Struts to Spring MVC, modernizing outdated codebases to enhance maintainability, performance, and security.
 - Refactored controllers, services, and JSP views to align with Spring framework best practices, improving code structure and scalability.
 - Collaborated with cross-functional teams to ensure seamless integration, deployment and testing during the modernization process.
- **Software Engineer | JP Morgan Chase | Jan 2024 – March 2025**
 - Optimized backend services and APIs using Java (Spring Boot), PostgreSQL, and Redis, reducing latency by 30% and query execution time by 40%.
 - Implemented caching, asynchronous processing (Kafka), and performance monitoring (New Relic, Prometheus) to enhance system efficiency and reliability.
 - Collaborated with DevOps teams to optimize cloud deployments on AWS (ECS, Lambda, Auto Scaling), ensuring high availability and scalability.
- **Software Engineer | Neiman Marcus | July 2021 – Dec 2023**
 - Developed and maintained software solutions as part of a client project for Neiman Marcus, ensuring system reliability and efficiency.
 - Collaborated with cross-functional teams to enhance application performance and scalability.
 - Optimized backend services using Java (Spring Boot) and SQL databases, reducing system downtime by 15%.
- **Intern | Brightline Interactive | September 2020 – December 2020**
 - Contributed to the development of a virtual reality training simulation for law enforcement agencies.
 - Assisted in optimizing 3D rendering and real-time simulation mechanics, improving realism and responsiveness.
 - Worked with a team to integrate interactive AI models for enhanced training scenarios.

Technical Skills & Expertise

Programming Languages & Frameworks:

- Backend: Java (Spring Boot), Python (Django), Node.js (Express)
- Frontend: React.js (Next.js), TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap
- Databases: PostgreSQL, MySQL, MongoDB
- Infrastructure & DevOps: Docker, Kubernetes, Terraform, CI/CD (Jenkins, GitHub Actions)
- Cloud Platforms: AWS
