Permanent Work Authorization

OBJECTIVE

Detail-oriented and analytical Performance Test Engineer with **6.5 years of experience** in performance testing, system optimization, and data analysis. Skilled in identifying performance bottlenecks, troubleshooting issues, and enhancing application efficiency through data-driven solutions. Experienced in analyzing large datasets, recognizing trends, and providing actionable insights.

Recently completed a **Master of Science in Data Analytics**, gaining **project-based experience in R Studio, Python, and Tableau** through academic coursework and real-world data. Proven ability to collaborate with cross-functional teams, leveraging analytical and problem-solving skills to improve system performance and reliability. Passionate about applying data analytics to drive informed decision-making and business improvements.

Technical Proficiencies

- Data Analysis & Machine Learning: R, Python, Tableau, Linear Regression, Logistic Regression, Decision Trees, Clustering, SVM, k-NN
- Performance Testing & Monitoring: Load Runner, WAPT, New Relic, Manage Engine, Perfmon, YSlow, GTmetrix, HTTP Watch, Fiddler
- Protocols: Web HTTP/HTML, Web Services

EXPERIENCE

AQM Technologies Private Ltd
Sr Performance Test Engineer

Mumbai, Maharashtra, India
July 2015 - Dec 2021

- Led performance testing engagements across all phases: requirement gathering, test strategy creation, scripting, workload modeling, execution, monitoring, result analysis, diagnostics, and reporting.
- Developed performance test scripts using LoadRunner and WAPT for diverse application scenarios.
- Designed and implemented workload models; set up test environments and configured APM tools, including AppDynamics, New Relic, and ManageEngine.
- Conducted performance tests in line with the test strategy and produced comprehensive reports on results.
- Provided technical assistance in root cause analysis and developed troubleshooting techniques to resolve performance bottlenecks.
- Managed test schedules and strategies to ensure alignment with project scope and delivery timelines.

Projects Handled and Managed in AQM

- Dubai Development Authority | DDA Zoning portal Applications | Tested application for performance testing (Load Testing, Stress Testing) | Tools Used – WAPT Pro 5.0 and New Relic.
- VFS Global Solutions | E-Visa Application | Tested solution for 5000 virtual users | WAPT Pro
- NIIT Technologies Limited | MSTD Application | Tested 2000 VU | Tools used: Load Runner & Application manager
- Arab National Bank | Ti plus Application | Tested 100 VU | Tools used: Load Runner & New Relic
- Nelito Systems Ltd | Fincraft CBS application | Tested 500 VU | Tools used: WAPT Pro 4.7 & New Relic
- Edelweiss Broking Limited | Edelweiss IN (Phase I and Phase II) | Tested 5000 VU
- BIRLA SUN LIFE ASSET MANAGEMENT COMPANY LTD | Corporate Website Application | Tested 1000VU
- Edelweiss Business Services Ltd | Revamp Portal Application | Tested 100VU
- Crime and Criminal Tracking Network and Systems (CCTNS) | CCTNS Application | Tested 1500VU
- National Stock Exchange of India Ltd | CKYC Application | Tested 20000VU
- E-District MMP, Manipur | Manipur web-based Application | Tested 500 VU
- UTI Infrastructure Technology and Services Limited | ECHS Application | 1000 VU
- Edelweiss Agri Value Chain Limited | Vault Application | 500 VU | Load Test & RCA
- Birla Sun Life Insurance Company Limited | Insurance Application | Tested 200 VU
- Magic bricks Realty Services Limited | Auction-Bank Application | Tested 500VU | Load Testing

Volunteer Experience

Volunteer – Screening Team | American Red Cross, Greater Pennsylvania Region

May 2025 – Present

- Conduct screening interviews and background checks for prospective volunteers to ensure alignment with organizational standards
- Maintain accurate records and documentation in internal systems to support compliance and onboarding processes
- Collaborate with Red Cross staff and other volunteers to ensure timely and thorough candidate evaluations
- Demonstrate strong attention to detail, confidentiality, and professionalism in handling sensitive information

ACADEMIC PROJECTS

Diabetes Prediction using Machine Learning

Spring 2024

- Applied machine learning algorithms (KNN, Naive Bayes, SVM, Decision Tree) to predict gestational diabetes using the Pima Indian Diabetes Dataset.
- Performed feature selection and hyperparameter tuning to enhance model performance.
- SVM model achieved highest accuracy (84%) and precision (78%).
- Evaluated models using accuracy, precision, recall, F1-score, and confusion matrix.

EDUCATION

Harrisburg University of Science & Technology

Masters of Science in Data Analytics

Harrisburg, Pennsylvania, US

2024

Mumbai University

Bachelor of Science in Electronics Engineering

Mumbai, Maharashtra, India

2014

CERTIFICATION

- Scrum Foundation Professional Certificate (Oct 2020)
- Silk Performer Results Analysis and Correlation (June 2020)
- Blaze meter Course Completion Certificates-(June 2020)
- Splunk Course completion Certificates (May 2020)
- Neotys Certified Professional for Neoload (May 2020)
- Softlogica Certified WAPT Professional (April 2020)
- Certified Associate in Project Management (CAPM) Course Completion (Dec 2019)
- New Relic Certified Performance Pro (May 2019)

AWARDS

- Mentorship Award in recognition of uplifting the skills of the new entrants by giving them that 'Extra Wing' from AQM Technologies (2020)
- Leadership Impact Award for outstanding accomplishment in leading overall projects and execution team from AQM Technologies (2018)
- Certificate of Excellence for exemplary performance and valuable contribution in Edelweiss - WCM automation project from Edelweiss in (2018)
- Excellence in Performance in recognition of valuable contribution & outstanding performance (2017)
- Certificate of Appreciation for all the passion & commitment exhibited during the last 30 months towards Organization (2017)
