SUMMARY

Experienced Data Analyst and Engineer with 7 years of expertise in SQL and PL/SQL development, data analysis and visualization, and data management strategies. Skilled in writing complex SQL queries, optimizing database performance, and implementing high-availability systems. Adept at working in Agile environments and implementing security best practices for large-scale enterprise systems. Seeking to leverage technical acumen and innovative problem-solving skills to spearhead data initiatives in a progressive organization.

SKILLS

- **Languages:** SQL, PL/SQL, Python
- **Tools and Databases:** Power BI, Oracle BI Publisher, Oracle 11g-19c, SQL Developer, Toad, SQL*Loader, Oracle APEX, Oracle FLEXCUBE, Informatica PowerCenter
- **Cloud & DevOps:** AWS (S3, EC2, EKS), Jenkins, Kubernetes, GitHub, CI/CD Pipelines
- **Testing & Scheduling:** Apache JMeter, Autosys Scheduler, Postman, Insomnia
- **Methodologies:** Agile, Scrum, DevOps, Waterfall

EXPERIENCE

LEAD SOFTWARE ENGINEERING – DATA ENGINEER

Fidelity Investments | April 2023 – June 2024

- Led the design and implementation of automated ETL workflows, managing incremental data ingestion and ensuring timely, high-quality data delivery using PL/SQL, Informatica, and Autosys Scheduler for supporting investment risk analysis and asset management.
- Collaborated with stakeholders to refine reporting and analytics needs and translated them into database solutions using PL/SQL objects.
- Ensured high availability and performance of data services on AWS EKS and EC2, including managing database objects and optimizing data consumption.
- Led multiple technical implementations including achieving a 300% reduction in job runtimes through performance tuning of SQL queries and managing a critical 1.5TB table structure change within 12 hours using table partitions and PL/SQL procedures, preventing potential disruptions to daily batch processes for the asset management.
- Supported production issues bi-monthly, overseeing 500+ jobs and 200+ tables, with a focus on maintaining operational integrity.
- Developed and tested various Jenkins pipelines, including CI and CD pipelines using groovy and python scripts.
- Improved operational processes by developing Oracle APEX self-service interfaces, reducing resolution time by over 24 hours.

DATABASE AND BI DEVELOPER - FLEXCUBE CONSULTANT (BANKING CLIENT)

Oracle Financial Services Software | June 2021 – April 2023

- Customized and enhanced Oracle Flexcube Universal Banking modules including OBCL (Corporate Lending), CASA (Current & Savings Accounts), and Credit Reports by developing PL/SQL packages, database objects, and user screens using the RAD tool, for efficient data processing and transaction handling.
- Created and modified complex SQL queries and business reports, utilizing Oracle Business Intelligence Publisher for enhanced data reporting.
- Automated the generation of legal and regulatory reports, streamlining processes and saving significant time for the client.
- Ensured data integrity and optimized system performance while collaborating with the client to adapt the solutions to their business needs.
- Worked in an Agile environment, coordinating closely with stakeholders and team members to deliver customized solutions within project timelines.

DATA ENGINEER (REINSURANCE CLIENT)

Tata Consultancy Services (TCS) | Oct 2017 – June 2021

- Designed and optimized PL/SQL-based database solutions for OLTP and OLAP systems supporting Reinsurance Policy Management, financial transactions, accounting, and policy data inflow for Life and Health Insurance, with a focus on accurate financial data processing and calculation.
- Created efficient data loading workflows using SQL*Loader and Informatica PowerCenter, ensuring data integrity for business operations.
- Led efficient error-handling and purging process creation using various PL/SQL objects, improving issue resolution times by at least 2 hours per day.
- Participated in extensive discussions with clients to document business use cases and developed solutions that met client requirements and improved system efficiency.

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (Credential ID: 9970882571009686)

EDUCATION

Bachelor of Technology

Government College of Technology, Coimbatore, India

2013-2017

7.8/10
