EDUCATION

University of Michigan

Master of Science in Data Science

Dearborn, MI

Sept 2024 – Present

Mody University

Bachelor of Computer Science with Big Data Analysis

Rajasthan, IN

Sept 2018 – May 2022

PROFESSIONAL EXPERIENCE

Data Analyst - INFERESS

May 2025 – Present

- Developed and deployed scalable data solutions in Python, leveraging AWS Athena and S3 to streamline supplier-customer networks across 10,000+ organizations.
- Automated dynamic SQL query generation with Boto3, reducing manual effort by 80%.
- Engineered composite keys to drive aggregated analytics, resulting in a 30% boost in revenue insight and audit efficiency.
- Created classification models to differentiate active/inactive business relationships, enabling revenue segmentation and forecasting.
- Designed reusable Python libraries (AthenaHelper) with robust exception handling, increasing code modularity and testing coverage.
- Developed Streamlit dashboard to compare datasets, detecting missing values with bidirectional row-level analysis.
- Skills:** Python, Pandas, SQL, AWS Athena, Boto3, S3, Data Pipelines, Cloud Analytics, Streamlit, Data Validation

Software Engineer - HSBC Bank

Aug 2022 – July 2024

- Designed and implemented secure, high-performing REST APIs using Spring Boot, achieving 90%+ code coverage via JUnit5 and cutting post-release defects by 40%.
- Eliminated 30+ critical vulnerabilities using SonarQube and Checkmarx, improving application security compliance and audit-readiness.
- Spearheaded integration of 33+ APIs with external partners, reducing onboarding time by 25% through documentation and endpoint socialization.
- Optimized deployment of transaction-tracking APIs on GCP Kubernetes clusters, improving response latency by 35% during peak load.
- Led root cause analysis and production monitoring using Splunk and AppDynamics, improving incident resolution time by 50%.
- Redesigned SQL queries for payment modules, reducing query runtime by 20%, enhancing system scalability.
- Migrated legacy backend to containerized microservices, ensuring zero downtime and compliance with ISO and PSD2 standards.
- Skills:** Java, Spring Boot, REST APIs, SQL, GCP, CI/CD, Kubernetes, Splunk, AppDynamics, API Security, Microservices

PROJECTS

Credit Score Classification Using Deep Learning – ANN Model

Jan 2025-April 2025

- Built an Artificial Neural Network in TensorFlow/Keras, achieving 83.5% test accuracy on structured credit data.
- Conducted feature engineering, batch normalization, and hyperparameter tuning to maximize model performance.
- Skills:** Python, TensorFlow, Keras, Deep Learning, Feature Engineering, Model Optimization

Pizza Sales Data Analysis Project, Academic

Sept 2024 – Dec 2024

- Created an interactive Power BI sales dashboard connected to a PostgreSQL backend, automating reporting workflows.
- Streamlined data pipelines using ETL techniques, reducing analysis time by 40% and enhancing reporting efficiency.
- Identified peak sales trends, enabling staffing and inventory recommendations that improved order accuracy by 15%.
- Skills:** Power BI, PostgreSQL, Python, ETL, Data Visualization, Sales Analysis

TECHNICAL SKILLS

- Programming:** Python(Pandas, NumPy, Scikit-learn, TensorFlow, Boto3), Java, SQL
- Visualization:** Power BI, Tableau, Matplotlib, Seaborn
- Data Tools:** PostgreSQL, MS SQL Server, Oracle, DB2, MongoDB, MySQL
- Backend & Tools:** Spring Boot, REST APIs, JUnit5, MuleSoft, Postman, Jenkins, Git, Bitbucket
- Cloud & DevOps:** GCP, AWS (Athena, S3), Kubernetes, GitHub Actions, AppDynamics, Splunk, , CI/CD
- Collaboration:** Agile Scrum, JIRA, Confluence, Git, Bitbucket, Postman, Unit Testing

CERTIFICATIONS

- Microsoft Certified:** Power BI Data Analyst Associate Dec 2024
- IBM Explorer Award:** Business Intelligence Analyst Aug 2022
- IBM Explorer Award:** Cloud Application Developer Jan 2020

AWARDS

- HSBC:** Circle of Excellence Award July 2024
- HSBC:** Pat on the back Award May 2024
- HSBC:** Super Squad Award Aug 2023
