

PRUDHVEERAJ BOTTA

San Diego, California | +1 (945) 246-0871 | Prudhveeraj16885@gmail.com | www.linkedin.com/in/prudhveeraj

SUMMARY

Software Developer with 2+ years of experience developing full-stack web applications using Java, Spring Boot, MERN stack, and FastAPI. Proficient in AWS and PostgreSQL, with hands-on experience in SQL query optimization. Well-versed in machine learning and AI concepts, with a strong foundation in data structures, algorithms, and backend development. Ranked in the top 0.4% on LeetCode in 2023 and 2024. Top 2% candidate in national wide Python examination in 2021.

EDUCATION

The University of Texas at Dallas , Richardson, TX	May 2024
<i>Master of Science, Computer Science</i>	GPA 3.9/4
Core Curriculum: Data Structures, Database Design, Artificial Intelligence, Web Programming Languages.	
National Institute of Technology Patna , Patna, Bihar	May 2022
<i>Bachelor of Technology, Computer Science</i>	GPA 8.4/10
Relevant Courses: Object-Oriented Programming, Machine Learning, Software Engineering, BigData	

TECHNICAL SKILLS

Programming Languages: C++, C, Python, Java, JavaScript, SQL, TypeScript, HTML.
Databases: MySQL, Oracle, MongoDB, PostgreSQL, NoSQL.
Web Development: CSS, React.js, Node.js, Express.js, Git, JSON, RESTful Architecture, PHP, Babel.
Essential Skills: CI/CD, SDLC, Distributed Systems, AWS, TDD, OOPS, OAuth2, JWT, Kafka, Multithreading.
Certifications: Machine Learning (Stanford University), Software Development (Microsoft), SQL (Hacker Rank).

WORK EXPERIENCE

Sloka Technologies , Dallas	May 2025 - Present
<i>Software Developer</i> Spring, MVC	
- Engineered a full-stack web application for a Library using Java and Spring Boot for handling 900+ user interactions. - Implemented RESTful APIs for data processing, enabling smooth handling of HTTP requests and reducing response latency by 40% through pagination. - Configured and connected the MySQL database using Spring Data JPA for reliable data persistence, and improved data accuracy by 35% through unit testing with JUnit.	
Dreamline AI , Startup	Jul 2024 - May 2025
<i>Software Engineer</i> Python, AWS	
- Developed a scalable RESTful API using FastAPI with JWT authentication and RBAC, integrating PostgreSQL via SQLAlchemy ORM for efficient data modeling and access. - Optimized performance with asynchronous operations, reducing latency by 30%, and ensured reliability with 90%+ test coverage using pytest and httpx. - Deployed the application to AWS EC2 and RDS, configuring production-ready infrastructure including environment variables, security groups, and startup automation.	
National Institute of Technology Patna , Patna	Sep 2021 - May 2022
<i>Software Developer</i> Databases, SQL	
- Led requirement gathering and leveraged Lucid Chart, and MySQL Workbench to design ER diagrams to model Airbnb's database architecture. - Transformed ER diagrams into a relational schema by creating 20+ normalized tables using MySQL, and enforcing constraints through primary keys, foreign keys, and integrity constraints. - Normalized the database to Third Normal Form, reducing data redundancy by 30% and improved query execution time by 20% through indexing and SQL performance tuning using EXPLAIN and MySQL CLI.	
Indian Institute of Technology Patna , Patna	May 2021 - Aug 2021
<i>Research Software Intern</i> Microservices, Automation	
- Transformed a monolithic application into a microservices architecture, improving scalability and maintainability by 20%. - Deployed and managed microservices with Docker and Kubernetes, cutting deployment time by 30% and enhancing CI/CD efficiency with automated testing and streamlined deployments.	

ACADEMIC PROJECTS

Software Maintenance and Enhancement , UT Dallas	Jan 2024 - Apr 2024
- Orchestrated critical change requests, resolving password change errors, optimizing sound functionality, and improving data precision. Upgraded file retrieval, introduced toggle scroll, and precise cursor offset display. - Formulated the software principles in the code base with concept location, impact analysis, actualization, refactoring, and testing. Achieved 12% increase in overall user satisfaction.	
Task Management , UT Dallas	Aug 2022 - Dec 2022
Developed a responsive task management app using MERN stack (MongoDB, Express.js, React.js, Node.js) reducing page load time by 15% and improving UX.	

ACHIEVEMENTS

<https://leetcode.com/prudhveeraj16885/>

- LeetCode (Jan 2023 - Dec 2024):** Ranked in the **top 0.4%** among **5M+** LeetCode users globally.
- Python (Jan 2021 - May 2021):** Achieved a **top 2%** rank in NPTEL's national-level Python certification exam.
