PROFESSIONAL SUMMARY

Results-driven analyst with 5+ years of experience delivering data-driven insights, executive dashboards, and intelligent automation across healthcare, retail, and tech sectors. Skilled in SQL, Python, Power BI, Tableau, and agentic AI frameworks (LangChain, n8n, RAG). Proven success in optimizing supply chains, automating reporting, and leading cross-functional teams to drive measurable business impact.

WORK EXPERIENCE

Operations and Business Analyst

Mechanix & Mechanix Lubricants – India | Oct 2020 – May 2023

- Led analytics team to deliver Power BI dashboards, improving delivery efficiency by 20%.
- Guided pricing strategy via inventory and market analysis, increasing monthly revenue by \$12K.
- Reduced lead times by 20% and excess inventory by \$10K while maintaining 95%+ availability.
- Streamlined supply chain workflows using Google Data Studio and demand forecasting.

Data Visualization Analyst

Andhra Pradesh COVID Control Center – India | Apr 2020 – Sep 2020

- Analyzed 400K+ COVID-19 records using SQL, Excel, and Python to inform public health strategy.
- Built Power BI dashboards accessed by 200+ officials for real-time case and resource tracking.
- Automated reporting workflows, cutting manual effort by 30% and boosting efficiency by 40%.
- Ensured HIPAA compliance and coordinated data validation across healthcare teams.

Data Analyst

Telstra, Melbourne, Australia | Nov 2018 – Feb 2020

- Improved wrap-time efficiency by 8% by redesigning case logging workflows and automating escalation documentation (1,700s → 1,000s).
- Developed and optimized Power BI dashboards; enhanced performance by reducing SQL query time by 25% and automating reporting with Python and Power Automate.
- Analyzed customer complaint data using Excel, boosting issue detection by 30% and supporting pricing strategy for 3 major Mobility campaigns.
