SUMMARY

Data Analyst with 5+ years of experience in transforming technical IT data into actionable insights. Skilled in SQL, Power BI, and Python, with a proven track record of developing dashboards and automating data validation processes. Demonstrated expertise in analyzing IT operational data and collaborating with cross-functional teams to optimize system performance and data integrity.

TECHNICAL SKILLS

- **Data Querying:** SQL (Window Functions, CTEs, Joins, Subqueries, Stored Procedures, Indexing Strategies), Python (Pandas, NumPy), R
- **Data Visualization:** Power BI, Tableau, Excel Dashboards
- **Data Warehousing:** Snowflake, Amazon Redshift, Azure Synapse, Dimensional Modeling, Star & Snowflake Schema Design
- **Cloud Platforms:** AWS S3, Azure Data Lake, Google BigQuery
- **ETL Tools:** SSIS, Informatica (basic), Power Query
- **Reporting & Analysis:** KPI Dashboards, SLA Metrics, Root Cause Analysis, Forecasting, A/B Testing, Data Storytelling, Statistical Analysis
- **Data Governance & Compliance:** Data Quality, Validation Rules, Lineage Documentation, GDPR, CCPA, Data Cataloging
- **Version Control:** Git, GitHub
- **Business Tools:** Excel (Power Query, VBA, PivotTables), Microsoft Access, SharePoint, Outlook
- **Workflow & Automation:** Jira, Azure DevOps, Scheduled Reporting, Confluence
- **Data Security:** PII Handling, Data Masking, Role-based Access, Compliance Reporting
- **Databases:** MySQL, PostgreSQL, MS SQL Server, MongoDB (NoSQL)
- **Big Data:** Spark (basic), Hadoop (basic)
- **Soft Skills:** Business Communication, Stakeholder Collaboration, Agile Delivery, Cross-Functional Teamwork
- **Certifications:** CompTIA Data+ certification, Microsoft Power BI certification
- **IT Infrastructure & Monitoring:** IT Infrastructure Concepts, IT Monitoring Tools

WORK EXPERIENCE

SYSRS IT Services

May 2024 - Present

Data Analyst

Columbia, MD

- Developed 15+ executive dashboards using Power BI to translate business needs into actionable insights, reducing manual reporting effort by 40%.
- Engineered and managed ETL pipelines across AWS S3, PostgreSQL, and Excel with SQL and Power Query, optimizing refresh cycles and enhancing data latency by 45%.
- Introduced intelligent anomaly detection through DAX and conditional formatting, enabling 60% faster identification of outliers and operational gaps.
- Collaborated with leadership to reconstruct KPI frameworks, resulting in a 25% improvement in performance metric accuracy and transparency.
- Streamlined reconciliation processes by customizing Excel automation with VBA, saving over 30 hours monthly in manual tasks.
- Implemented Git-based version control for SQL and BI assets, reducing deployment issues and improving cross-functional collaboration.
- Secured sensitive datasets by enforcing role-based access, data masking, and compliance with GDPR and CCPA.
- Coordinated Agile sprint deliverables with DevOps teams and stakeholders to ensure timely feature releases across 6+ sprints.
- Documented BI workflows and architecture, reducing analyst onboarding time by 50%.
- Delivered targeted analyses that supported client business reviews and shaped strategic decision-making.

SYSRS IT Services

Aug 2023 - Jan 2024

Data Strategic Analyst

Internship Remote

- Constructed 5+ healthcare KPI dashboards using Power BI and Excel to monitor SLA and efficiency, influencing department-level decisions.
- Refined over 100K records by modeling, cleaning, and validating data from Snowflake and Excel sources with SQL and Power Query.
- Engineered custom DAX measures and hierarchical filters to enable dynamic slicing and in-depth analysis by leadership.
- Performed rigorous quality assurance with detailed test case documentation, achieving 99.8% launch accuracy.
- Authored comprehensive BI documentation to support onboarding, reducing analyst ramp-up time by 50%.
- Engaged in Agile ceremonies and prioritized sprint tasks based on evolving data requests from stakeholders.
- Facilitated stakeholder walkthroughs to enhance dashboard adoption and usability.

Tata Consultancy Services (TCS)

Mar 2020 - Dec 2022

Data Analyst

Hyderabad, India

- Delivered 50+ reporting solutions for enterprise clients across finance and operations, aligning insights with strategic KPIs.
- Migrated legacy systems to Snowflake and PostgreSQL by designing normalized schemas, reducing reporting load time by 40%.
- Automated regulatory compliance processes using SSIS, cutting audit preparation time by 60% and ensuring data traceability.
- Established data governance protocols including lineage tracking, validation logic, and GDPR readiness.
- Enforced version control for SQL scripts and dashboard logic with GitHub, enhancing consistency across global teams.

- Implemented SLA breach alerting systems that reduced missed targets by 18% and improved operational responsiveness.
- Coordinated with global delivery teams in the US, UK, and APAC to maintain consistent dashboard uptime and standardized KPIs.
- Mentored junior analysts in BI visualization standards, query optimization, and schema modeling.

Coursera

Apr 2018 - Aug 2018

Data Analyst Intern (Remote)

Virtual Internship Program

- Constructed a full-scale e-commerce reporting solution in Power BI featuring 10+ KPIs centered on customer segmentation, churn, and profitability.
- Deployed mock A/B testing analyses to evaluate campaign strategies and determine optimal targeting approaches.
- Modeled a dimensional schema to simulate scalable architecture for reporting and performance optimization.
- Presented a capstone demo to over 30 peers and instructors, ranking in the top 10% for data storytelling and dashboard clarity.
- Documented model assumptions and created clear visuals to support peer learning and future framework enhancements.

EDUCATION

Saint Louis University

Jan 2023 - May 2024

Master of Science, Information Systems

St.louis, MO

CERTIFICATIONS

- Microsoft Power BI Data Analyst Associate
- AWS Certified Data Analytics – Specialty
- Snowflake SnowPro Core Certification
