EDUCATION

Binghamton University, State University of New York, Thomas J. Watson College of Engineering and Applied Science

Master of Science Information Systems

Aug 2023 – May 2025

Relevant Coursework: Database Management Systems, Object Oriented Design Patterns, Management of Information Systems, Software Project Management

University Of Mumbai, Maharashtra, India

Bachelor of Science in Computer Engineering

Aug 2016 – May 2020

Relevant Coursework: Advanced Database Management, Data Structures and Algorithms, Cloud Computing, Operating Systems

PROFESSIONAL EXPERIENCE

Backend Engineer Intern, Flow Global Software Technologies | New York, United states

Aug 2024 – Dec 2024

- Developed scalable **REST APIs** using **Python, Django, PostgreSQL** and **MongoDB** enabling seamless access to 1M+ B2B sales leads for AI-driven sales automation
- Optimized data ingestion pipelines, integrating 9k+ daily web-scraped leads, reducing **latency** by 30%
- Implemented **authentication(JWT)**, rate-limiting and **caching (Redis)**, improving API performance by 40%
- Built an **React js** dashboard for real-time lead insights, enhancing user engagement by 50%

Software Developer, Atos|Syntel (Client-FedEx GSI) |Mumbai, India

July 2022 – July 2023

- Built **RESTful APIs** for the Shipment Tracking **microservices in Java Spring Boot**, handling 2,000+ shipment operations daily
- Scaled shipment application functionalities with **caching**, handling high volume of packages through **load balancing**, improving service performance by 25%
- Created **CI/CD pipelines** for shipment application using **Docker, Kubernetes and GCP**, streamlining deployment and cutting build times by 50%
- Performed **code reviews**, implemented unit, functional and non-functional testing, generating reports that reduced API-related issues by 30%
- Executed shipment data validation using **Apache Kafka** to send shipment validation results through queues, reducing errors by 40% and improving efficiency

Automation Tester, Atos|Syntel (Client-FedEx GSI) |Mumbai, India

Mar 2021 – July 2022

- Automated the manual test flows through 8 applications reducing testing time by 60%, formulating detailed test cases and scenarios
- Implemented test scripts using **selenium, and Junit frameworks** to perform regression, functional, unit tests to ensure correct flow of 3,000,000 packages and shipments through nearly 6 cross train applications
- Debugged critical bugs of automation projects using techniques such as **root cause analysis** and **pair programming** to reduce diagnosis time by an average of 2 hours per issue
- Drafted and optimized **SQL queries** for efficient test data retrieval and processing across 8 applications, improving data accuracy by 15% and reducing query execution time by 30%
- Collaborated with architects and developers of **cross functional scrum teams** to understand code modification efforts ensuring 100% test coverage

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL/PL-SQL, Javascript

Frameworks & Technologies: Spring Boot, Spring MVC, Microservices, Apache Kafka, Angular JS, React JS, Django Framework

Cloud & DevOps: AWS (EC2, S3), GCP, Docker, Kubernetes, Jenkins, Git, Maven, ELK Stack

Databases: PostgreSQL, Oracle11g, MySQL, DataStax, MongoDB, Redis, Splunk, Microsoft Access

Testing Tools: Selenium, Junit, Protractor, Cucumber BDD, Postman

Methodologies & Tools: Agile/Scrum, Jira, Confluence

Certifications: Development & Testing track for skill development program (JAVA8, Spring MVC, spring boot framework, Angular JS, Selenium, Junit, cucumber BDD) Software development certification by J.P Morgan & Chase

PROJECT EXPERIENCE

Mini Reddit, Individual Project [Github link](#)

May 2024 – June 2024

Healthcare Connect, Individual Project [Github link](#)

Nov 2023 – Dec 2024

ACHIEVEMENTS AND AWARDS

- Awarded for identifying critical bugs in automation projects within stipulated timeline of 1 month
- Received the prestigious **"GoldenStar Award"** for delivering highquality automation test suites

June 2022

April 2023
