---

## Professional Summary

- Over 5 years of experience as QA Automation Engineer in Manual and Automation testing across Web, Mobile, UI & API testing, CI/CD Integration, Agile/SCRUM environments, consistently delivering high-quality results.
- Expertise in creating comprehensive test plans, executing test cases efficiently, and cross-browser and mobile testing using BrowserStack and Appium.
- Proficient in Selenium, Playwright, Cypress, and Appium, with strong coding skills in Java, Python, and JavaScript.
- Experienced in building and maintaining automation frameworks, executing RESTful API testing using Postman, and setting up CI/CD pipelines with Jenkins and GitHub.
- Proven ability to work collaboratively in Agile environments, ensuring high-quality software through thorough test coverage, early bug detection, and scalable test solutions.
- Strong advocate for quality at every stage of SDLC, with deep understanding of SDET practices, test strategy design, and collaboration across cross-functional teams.

## Technical Skills

- Automation Tools: Selenium WebDriver, Playwright, Cypress, Appium
- Programming Languages: Java, Python, JavaScript, C/C++, C#
- API Testing: REST APIs, Postman, Rest Assured, SOAP UI, Swagger.
- CI/CD & DevOps Tools: Git, GitHub, Jenkins, Maven, Docker
- Frameworks: TestNG, PyTest, BDD (Cucumber/Gherkin), POM, Spring Boot
- Database & Cloud: SQL, MySQL, Azure, AWS
- Testing Platforms: Jira, Tricentis QTest, Test Rail, BrowserStack
- Operating Systems: Linux, Windows, macOS
- Methodologies: Agile/ Scrum, UAT, STLC, SDLC, Regression, Smoke, Functional Testing

## Professional Experience

### QA Automation Engineer

**American Express, Phoenix, AZ | May 2024 - Present**

- Lead end-to-end testing of the American Express Card Processing and Rewards Management System.
- Design and execute automated regression test scripts using Playwright, Selenium WebDriver, Java, and TestNG for card processing workflows.
- Perform backend API transactions using Postman and REST Assured, validating response time SLAs and JSON schema accuracy.
- Implement cypress test cases for frontend validation of rewards dashboard, reducing manual testing time by 40%.
- participate in Agile ceremonies including daily stand-ups, backlog grooming, sprint planning, and retrospectives.
- Manage Jenkins CI/CD integration for nightly test suite execution and automated release validation.
- Build reusable page object model (POM) components for scalable test maintenance across multiple modules.
- Write and execute complex SQL queries for backend data validation and transactional accuracy across multiple environments.
- Report, track, and manage defects effectively using JIRA, while preparing detailed test documentation such as test plans, test cases and Requirements Traceability Matrices (RTMs).
- Analyze user stories and define test strategies using TFS Test Tool and Excel to ensure test coverage and alignment with acceptance criteria.
- Participate in test plan reviews and estimations to optimize resource allocation and project timelines.
- Conduct functional, integration (QA), regression, and smoke testing across both web and desktop platforms.
- Support production deployments by validating release quality and coordinating QA efforts within Scrum ceremonies.

**Research Assistant- IT Department**  
**SIU- Carbondale, IL | Sep 2023 - Mar 2024**

- Designed and developed a Java-based automated tool to generate standardized course syllabi, improving academic document consistency.
- Applied Spring Boot framework and Front Controller design pattern to build a scalable client-server architecture.
- Implemented interactive front-end features using JavaScript, jQuery, HTML5, and CSS3 to enhance user experience and accessibility.
- Generated unified `.docx` syllabus files using the javaDocx library, streamlining syllabus creation by 70%.
- Managed backend data using MySQL for structured storage, ensuring data reliability and seamless integration with frontend services.

**Software Engineer- Capgemini, India | Oct 2020 -Jul2023**

- Designed and developed end-to-end test automation framework using Playwright, Cypress, and Appium, improving cross-platform testing efficiency and execution speed across web and mobile platforms.
- Migrated legacy Selenium scripts to a scalable UI automation framework using TypeScript, Page Object Model, increasing maintainability and scalability.
- Developed interactive UI components using HTML, JSP, JavaScript, and CSS to enhance application usability and user experience.
- Facilitated Acceptance Test-Driven Development (ATDD) sessions with cross-functional teams to clarify acceptance criteria, reduce defects, and enhance test coverage
- Delivered sprint-end demos showcasing automated tests and new features to stakeholders, promoting early feedback and reduce defects.
- Created and maintained automation scripts using Java, Selenium WebDriver, and Appium, conducting comprehensive testing on multiple browsers and real/emulated mobile devices.
- Implemented automation frameworks with TestNG, Maven, and integrated CI/CD pipelines with Jenkins and GitHub Actions, enable continuous testing.
- Utilized GitHub for version control, code reviews, and collaboration, ensuring high-quality and traceable automation deliverables.
- Followed Agile (SCRUM) Methodology, aligning testing activities with evolving sprint goals and business requirements.
- Documented detailed test scenarios, execution results, and QA processes in test management systems to support transparency and team knowledge.
- Collaborated closely with developers and product managers to identify requirement gaps, classify issues, and prioritize fixes for high-quality releases.
- Authored traceability matrices and release-specific QA documentation to support audit compliance and continuous improvement initiatives.

**Certifications**

- Robot Framework Test Automation- LinkedIn Learning (2025)
- Microsoft Azure Fundamentals (AZ-900) - Microsoft (2023)
- Agile Scrum Master Certification- Capgemini (2022)
- Software Development Engineer in Test- Capgemini (2021)
- Selenium WebDriver with Java Certification- Udemy (2020)

**Education**

**Master of Science:** Computer Science |Southern Illinois University | Carbondale, IL | 2023 -2025

**Bachelor of Science:** Computer Science and Engineering |VITS University| Hyderabad, India| 2017 -2021
