

Raj Vaghasiya

Data Analyst

vaghasiyaraj16@gmail.com | +1 2233392003 | LinkedIn | PA, USA

PROFESSIONAL SUMMARY

Data Analyst with 3+ years of experience delivering data-driven insights, predictive models, and automated reporting solutions that optimize business performance. Proficient in Python, SQL, and R, with expertise in ETL pipelines, cloud platforms (AWS), and interactive dashboards (Power BI, Tableau). Adept in data visualization, data warehousing, and statistical analysis (Regression, Time Series, GAP, Risk, SWOT). Proven track record of reducing costs, improving data quality, and enabling faster executive decision-making.

TECHNICAL SKILLS

Programming & Scripting: Python (NumPy, Pandas, Matplotlib, Seaborn), SQL, R

Visualization & Reporting: Tableau, Power BI, Excel (Pivot, VLOOKUP, Power Query)

Databases: MS SQL Server, Oracle, RDS (AWS)

Data Engineering: ETL, Data Warehousing, Data Pipeline Development

Cloud Platforms: AWS (EC2, S3, RDS)

Methodologies: Agile/Scrum, SDLC, Waterfall

Version Control: Git, GitLab, Bitbucket, SVN

Analysis & Frameworks: Regression, Time Series, Business Impact, Risk, GAP & SWOT Analysis

PROFESSIONAL EXPERIENCE

EY

Data Analyst

July 2024 – Present

- Built and optimized ETL pipelines in Python & SQL to process 2M+ records daily with 99.9% accuracy, improving operational efficiency.
- Analyzed complex data sets from various sources to identify trends, patterns, and insights that informed business decisions.
- Managed and optimized databases including MySQL, Microsoft SQL Server, with expertise in data warehousing and data pipeline development.
- Designed Tableau and Power BI dashboards that enhanced data-driven decision-making by 30% for cross-departmental teams.
- Implemented data quality control measures and KPIs to ensure the accuracy and reliability of data, utilizing Git for version control, while monitored data security.
- Utilized MS Office Suite, including MS Excel and MS Visio, along with SSRS and SSAS, for comprehensive data analysis and reporting.
- Collaborated with cross-functional teams to understand business requirements and translate them into data-driven solutions, leveraging Agile/Scrum methodologies.

Smartfox

Data Analyst

June 2023 – May 2024

- Designed and maintained 15+ Power BI dashboards, reducing reporting cycles and improving executive decision-making speed by 40%.
- Improved data accuracy scores from 75% to 95% through large-scale data cleanup and transformation projects.
- Developed forecasting solutions in R/Python with 85% accuracy, enabling proactive decision-making.
- Created Tableau dashboards serving 50+ stakeholders, improving visibility into KPIs across departments.
- Delivered impact analyses for major business changes, providing executives with actionable insights.
- Managed AWS infrastructure (EC2, RDS) for analytics workloads, ensuring secure and scalable data access.

PROJECTS

Sales Forecasting (Python + SQL)

- Forecasted daily, weekly, and monthly sales trends using SQL + Python, identifying high-demand products.
- Delivered time-based sales insights with Matplotlib & Seaborn, improving planning and inventory management.

Online Sales Data Visualization (Tableau)

- Built interactive dashboards with symbol maps, heatmaps, and text tables to reveal product, region, and time-based patterns.
- Provided actionable insights that guided sales strategy and supported executive business decisions.

EDUCATION

Harrisburg University of Science and Technology

Master of Science in Computer Science and Information,

08/2023 – 08/2025

S.S Agrawal Institute of Engineering & Technology

Bachelor of Science in Computer Science and Engineering

09/2018 – 06/2022
