

Rajeswari Tadepalli

HEALTHCARE DATA ANALYST

Ozone Park, NY | (929)-599-6845 | rajeswari.tadepalli@hotmail.com

PROFESSIONAL SUMMARY

Results-driven Healthcare Data Analyst with **4+ years of experience** in leveraging **data analytics, ETL pipelines, and predictive modeling** to enhance patient outcomes, reduce healthcare costs, and optimize clinical workflows. Skilled in analyzing complex claims, EHR/EMR, and operational datasets using advanced tools such as **SQL, Python, Power BI, and Tableau**. Experienced in population **health analytics, utilization management, and risk stratification to support evidence-based decision-making**. Adept at designing **KPI-driven dashboards, building automated data pipelines, and integrating data governance and HIPAA-compliant frameworks** to ensure accuracy, security, and regulatory adherence across healthcare systems.

TECHNICAL SKILLS

Languages & Queries: SQL (Joins, CTEs, Window Functions), Python (Pandas, NumPy, Seaborn, Matplotlib), R (Basic)

Visualization & BI Tools: Power BI (DAX, Power Query), Tableau, Excel (Pivot Tables, Power Query, VLOOKUP), Google Data Studio

Healthcare Data Expertise: Claims & Utilization Data, Patient Outcomes Analytics, EHR/EMR Data, Population Health, Healthcare Cost Analysis, Clinical Metrics & Quality Reporting

Analytics & Modeling: Forecasting, Time Series, Regression, Cohort Analysis, A/B Testing, Data Cleaning & Transformation

Databases & Cloud: Azure SQL, MySQL, PostgreSQL, Oracle DB, Google BigQuery

ETL & Data Management: Alteryx, Apache Airflow, Talend, SSIS, Excel Power Query

Collaboration & Tools: JIRA, Confluence, Azure DevOps, SharePoint, MS Teams, Agile/Scrum Practices

Compliance & Governance: HIPAA, Data Security, HEDIS Measures, Healthcare Reporting Standards

PROFESSIONAL EXPERIENCE

Healthcare Data Analyst | UnitedHealth Group, NJ

Jan 2025 - Current

- Designed and delivered 10+ interactive dashboards in Power BI analyzing claims, readmission rates, and utilization trends, supporting a 12% reduction in avoidable hospitalizations.
- Partnered with clinical, actuarial, and finance teams to optimize risk adjustment models, improving forecast accuracy and reimbursement strategies for Medicare Advantage programs.
- Automated ETL pipelines integrating claims and EHR data across multiple systems, reducing manual intervention by 75% and enabling faster, compliance-ready reporting.
- Conducted predictive modeling on patient adherence and risk scores, enabling targeted outreach programs that boosted medication adherence by 18% and improved chronic disease management.
- Optimized SQL queries handling multi-million-row datasets, reducing execution time by 35% and accelerating reporting for care coordination and case management teams.
- Collaborated with compliance officers to establish HIPAA-aligned data governance, reducing audit findings by 20% and strengthening security controls for sensitive health information.

Healthcare Data Analyst | Infosys Limited, India

Jul 2021 - Nov 2022

- Developed and maintained interactive dashboards and reports for healthcare clients, providing insights into claims, utilization, and patient outcomes, supporting data-driven operational and clinical decisions.
- Built optimized SQL queries, stored procedures, and ETL pipelines to process large EHR datasets, reducing extraction and transformation times by 40% and improving reporting accuracy.
- Conducted patient outcome analysis using Python and statistical techniques, identifying high-risk cohorts and guiding interventions that reduced hospital readmissions by 10%.
- Partnered with healthcare providers to define KPIs and operational metrics, translating complex claims and clinical data into actionable insights aligned with organizational goals and regulatory compliance.
- Assisted in population health and care gap analyses, generating insights that increased preventive screening adherence by 15% and enhanced chronic disease management programs.

Junior Healthcare Data Analyst | HealthMinds Consulting, India

Oct 2019 - May 2021

- Designed and implemented Power BI and Tableau dashboards to visualize hospital claims, patient outcomes, and operational metrics, enabling executives to make data-driven strategic decisions.
- Developed SQL queries and scripts to extract and transform large EHR datasets, reducing processing times by 35% and enabling timely delivery of reports to hospital management.
- Conducted cohort analyses and trend forecasting using Python and Excel, identifying at-risk patients and helping hospitals design interventions that improved care delivery and reduced readmissions.
- Collaborated with hospital teams to define operational KPIs, ensuring analytics initiatives aligned with strategic goals and HIPAA compliance.

EDUCATION

Master of Sciences in Computer Science | Monroe University, Bronx, NY

CERTIFICATE

Oracle Certified Specialist: Data Analytics
