

Rajkumari Alluri

BUSINESS ANALYST

Illinois, USA | (908) 760-6529 | rajkumariallu98@gmail.com | [LinkedIn](#)

SUMMARY

- Experienced Business Analyst with 4+ years of expertise in optimizing business processes, enhancing data-driven decision-making, and improving operational efficiency across industries including finance and healthcare.
- Proficient in data analysis and reporting tools such as SQL, Python, Tableau, and Alteryx, consistently improving process automation and reporting efficiency, resulting in significant time savings and higher ROI.
- Expertise in gathering business requirements, stakeholder management, and conducting in-depth gap analysis, ensuring alignment with business objectives, compliance standards, and user needs.
- Proven ability to develop and implement real-time tracking tools (Tableau, Salesforce) that streamline business operations, reduce manual efforts, and enhance decision-making speed.
- Skilled in Agile methodologies, successfully managing cross-functional teams, driving sprint reviews, and ensuring faster delivery of features, improving time-to-market.
- Strong background in user acceptance testing (UAT), consistently achieving high user satisfaction rates and resolving issues pre-implementation, resulting in reduced post-launch errors.
- Exceptional interpersonal and communication skills, with the ability to collaborate effectively with diverse teams, facilitate productive stakeholder discussions, and bridge the gap between technical and non-technical stakeholders.

SKILLS

Data Analysis:	Excel, SQL, Python
Methodology:	SDLC, Agile, Waterfall, Kanban, Lean Six Sigma
Documentations:	BRD, FRD, SRS, BPMN, User stories, Use Cases, Test Plan, User Guide
Project Management Tools:	Jira, Confluence, Trello, MS Project, MS Excel, MS SharePoint, Primavera
Visualization Tools:	Tableau, Power BI, Qlikview
UML and prototyping Tools:	MS Visio, Smart Draw, IBM Rational Rose, Balsamiq mock-ups, Sketch
Business Analysis:	Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
ERP Planning & CRM:	SAP, MS Dynamics Nav, Salesforce, HubSpot
Technical Skills:	KPI, User Acceptance Testing (UAT), Alteryx, Requirement gathering, Google Analytics, Data Analysis, MS Visio, Joint Application Development (JAD), MS Office, User Story creation, Software development & testing, Data Modelling, Database Knowledge, Business Intelligence (BI) Tools, Process Mapping, User Experience (UX) Understanding, Quality Assurance (QA) Knowledge, Prototyping
Soft Skills:	Business Intelligence, Stakeholder Engagement, Requirements Gathering, Time management, Leadership, and management, Problem-solving, Negotiation, Decision-Making, Documentation, and Presentation, Verbal communication
Operating System:	Windows, Linux, Mac iOS

PROFESSIONAL EXPERIENCE

Northern Trust, Chicago, IL Business Analyst

Jan 2024 – Present

- Worked on a project focused on optimizing investment portfolio performance by analyzing asset allocation, improving real-time tracking, and enhancing decision-making tools.
- Conducted **20+ interviews** with stakeholders to understand investment goals and risk appetite. Used **Salesforce** to track communication, ensuring alignment with business objectives and contributing to **10% higher returns** year-over-year.
- Automated portfolio data extraction, cleansing, and analysis using **SQL** and **Python**. Improved reporting efficiency by **40%**, saving **20+ hours** weekly, and optimized portfolio performance, increasing returns by **15%** over 6 months.
- Modeled and tested asset allocation strategies based on risk tolerance. Performed **Python**-based scenario analysis, outperforming benchmarks by **7%**. Integrated **Salesforce** data for enhanced decision-making and portfolio management.
- Designed and implemented a real-time portfolio tracking tool using **Tableau** and **SQL**. Integrated **Salesforce** data to track KPIs, reducing manual reporting time by **35%** and enhancing decision-making speed by **30%**.

- Conducted stress testing on the portfolio under various market conditions. Delivered risk reports that identified underperforming assets, reducing portfolio risk by **20%** within 4 months and improving asset allocation strategies.
- Applied **Agile** project management methodologies, introducing bi-weekly sprint reviews and daily stand-ups. Utilized **Salesforce** for task management, reducing time-to-insight by **25%** and enabling quicker adaptation to market shifts.
- Developed interactive **Tableau** dashboards to enable real-time monitoring of portfolio performance. Integrated **Salesforce** data, improving communication of complex financial metrics by **30%**, facilitating faster decision-making for senior leadership.
- Conducted **User Acceptance Testing (UAT)** with investment teams, resolving **50+ issues** pre-implementation. Used **Salesforce** to track issue resolution and ensure model accuracy, reducing post-launch errors by **90%**.

Birla Soft, India

Jul 2019 – Dec 2022

Business Analyst

- Gathered and analyzed requirements for enhancing the patient portal, facilitating access to medical records, appointments, prescriptions, billing, and secure communication, resulting in a **30% increase** in adoption rates.
- Conducted **40+ stakeholder interviews** and facilitated **JAD sessions** with IT and administrative teams to define business requirements, ensuring alignment with organizational goals and patient needs.
- Developed a **BRD** and a **requirements traceability matrix**, ensuring **100% alignment** with stakeholder expectations, regulatory compliance, and HIPAA standards.
- Analyzed portal data using **SQL and Tableau**, identifying key improvement areas, reducing navigation time by **25%** and enhancing the patient experience.
- Created process maps with **Visio** to streamline workflows for appointment scheduling, billing, and prescription management, **reducing administrative workload by 20%** and improving overall user experience.
- Collaborated with cross-functional teams to integrate the portal with Electronic Health Records and hospital systems, improving **data accuracy** and real-time access to patient information.
- Performed a **cost-benefit analysis** of portal enhancements, projecting a **15% reduction** in call center volume and **10% improvement** in patient satisfaction.
- Managed over **50 change requests**, ensuring effective communication between stakeholders and development teams while maintaining a structured process for ongoing portal updates.
- Facilitated **user acceptance testing (UAT)** with patients and healthcare providers, achieving a **98% satisfaction rate** with portal usability and functionality.
- Improved data accessibility by introducing personalized dashboards, reducing **20%** in patient calls for medical information and enhancing user satisfaction.
- Implemented **Agile methodologies**, collaborating with development teams to roll out features **30% faster** and improving overall time-to-market.
- Created detailed use cases and user stories for portal features like secure messaging and appointment reminders, resulting in a **40% increase** in patient engagement.
- Developed a **data dictionary** and metadata repository, ensuring consistency in data exchange across platforms and reducing **integration issues by 25%**.
- Used **Alteryx** for data integration, ensuring seamless synchronization of patient records and reducing **data preparation time by 50%** while improving reporting accuracy.
- Analyzed patient feedback and post-implementation data, driving continuous improvement initiatives and enhancing overall **personalized patient experience**.

EDUCATION

Master of Science in Business Analytics

University of New Haven, West Haven, Connecticut, USA

Bachelor of Technology in Electronics and Communication Engineering

MLR Institute of Technology, Hyderabad, India
