## Education

### Arizona State University

*Masters in Computer Software Engineering GPA: 4.00/4.00*

Tempe, USA

Dec 2025

### Indian Institute of Information Technology Vadodara

*Bachelors of Technology Computer Science and Engineering GPA:8.83/10.00*

Gandhinagar, India

May 2023

## Technical Skills

**Languages:** Java, Python, C/C++, embedded C, JavaScript, Html/ CSS, R, SQL, Prolog, Matlab, Bash, LaTeX.

**Frameworks:** Linux, Tensorflow, ReactJs, ReactNative, Spring, SpringBoot, Flask, JUnit, Material-UI.

**Developer Tools:** VS Code,Eclipse IDE, Jupyter Notebook, Amazon AWS, IntelliJ,Git, Visual Studio, MySQL, PoweBi.

**Libraries:** pandas, NumPy, Matplotlib, Pytorch, OpenCV.

**Certificates:** Microsoft AI classroom, Fundamental of Deep Learning, Training on Artificial Intelligence and IOT, LangChain Chat with Data by Deep Learning.AI, AWS Certified Developer Associate Udemy.

## Experience

### Software Developer Intern

May 2025 – Aug 2025

*Amazon.com Inc,(AWS CLI Team)*

Seattle, USA

- Enhanced AWS CLI S3 high-level commands by developing a **no-overwrite** flag for copy, move, and sync preventing unintentional overwrites and improving data safety for millions of AWS users using python and AWS S3 APIs.
- Implemented an **all-versions** flag for S3 delete in AWS CLI, enabling permanent removal of all object versions in versioned buckets and addressing 250+ customer-raised requests on the AWS CLI repository.
- Designed and integrated the first batch processing mechanism in AWS CLI, scaling deletion throughput from 1 to 1,000 objects per request and reducing execution time for large-scale deletions by up to 99.9%.

### Associate Software Engineer

July 2023 – Jan 2024

*Broadridge Financial Solution*

Bengaluru, India

- Led the development of full-stack applications using Java Spring Boot and React.js, Material UI, to deliver robust and user-friendly dashboard with 95% accurate and 0 bugs.
- Spearheaded the integration of Power BI for advanced data visualization and developed a client-specific AI tool leveraging LLMs, boosting productivity by 60% through personalized insights and automated reporting.
- Applied advanced web scraping techniques to collect and analyze data from online sources, enhancing application functionality by converting manual to automated and providing valuable insights with help to increase efficiency by 50%.

### Software Engineer Intern

Jan 2023 – June 2023

*Broadridge Financial Solution*

Bengaluru, India

- Managed CheckMarx Tool and worked closely with the development to enhance code quality, and resolved 50+ Checkmarx issues making sure each code's quality is above benchmark.
- Developed APIs for scheduling automated emails and extracting Jira stories and sprint data, resulting in an 80% increase in process efficiency.

## Projects

### Smart Habitat Finder | Java, Springboot, TailwindCSS, GraphDb, Azure, ReactJS

Nov 2024 – Dec 2024

- Architected a graph-driven web application with Spring Boot and GraphDB, executing real-time SPARQL queries to deliver personalized habitability rankings and suggest the top five communities based on user-defined preferences.
- Streamlined API integration with Swagger and built a responsive React.js frontend, reducing query response times by 40% and enhancing user engagement.
- Automated testing and deployment pipelines using GitHub CI/CD, achieving 99.9% uptime and ensuring seamless scalability for processing user queries on Azure.

### Smart Contact Management | Java, Spring,MongoDB,AWS, TailwindCSS, javascript.

May 2024 – Aug 2024

- Developed a User-Centric Contact Management System with multi-method registration, secure email-based account verification, and cloud-based image uploads, enhancing accessibility and ensuring robust security for over 1,000 contacts.
- Implemented Advanced Features such as automated updates to minimize manual entry errors by 50%, integrated email attachment capabilities, and a dynamic report generation module with Excel and PDF formatting options, enabling accurate data analysis and improved decision-making.

## Publications & Awards

**Best Paper Award** – ASEE 2025 Annual Conference and Exposition, Software Engineering Division, for the paper “*SUCCESS: A Summer Camp Promoting On-campus Connections in Software Engineering*”.
