

Rakshita Reddy

Business Intelligence Engineer

Chicago, IL | rakshita.saireddy@gmail.com | (405) 868-9427 | www.linkedin.com/in/rahareddy
Skilled in Azure Cloud, Power BI, and SQL Server

Professional Summary

Accomplished Senior Business Intelligence Engineer with 6+ years of experience in designing, developing, and deploying enterprise BI solutions across Azure Cloud, SQL Server, and Microsoft Power Platform. Proven expertise in Azure Data Factory, Power BI, SSIS, and Databricks, with strong skills in building optimized data models, streamlining ETL workflows, and creating impactful dashboards. Adept at integrating cross-functional data sources, improving data accuracy, and empowering strategic decision-making. Passionate about solving complex challenges and delivering scalable, cloud-driven analytics solutions.

Core Skills

- **BI & Reporting Tools:** Power BI (DAX, Power Query, Row-Level Security), Tableau, SSRS, SSAS
- **ETL & Data Integration:** Azure Data Factory, SSIS, Databricks, Snowflake
- **Databases & Cloud:** Azure SQL, SQL Server, Oracle
- **Programming & Automation:** SQL, Power Apps, Power Automate, PowerShell
- **Other Tools:** JIRA, TeamCity, SharePoint, Excel Power Pivot

Professional Experience

Senior BI Engineer (Contract) – KPMG | Jan 2023 – Present | Remote/Chicago, IL

- Leveraged Power BI, Power Apps, and SharePoint for advanced reporting and process automation.
- Designed, developed, and published Power BI dashboards, including the migration of legacy SSRS reports.
- Built and optimized SQL queries, stored procedures, and data models to ensure accuracy and performance.
- Integrated Power BI with Power Apps for interactive data solutions and automated workflows with Power Automate.
- Utilized Azure Data Factory and Databricks for large-scale ETL processing and data integration.
- Collaborated with stakeholders to define KPIs, improve reporting processes, and drive operational efficiency.

Data / Power BI Developer – University of Texas at Dallas | Jan 2022 – Dec 2022 | Dallas, TX

- Developed and maintained interactive dashboards and reports to support enterprise decision-making.
- Built optimized data models and wrote complex SQL queries for efficient data retrieval.
- Created advanced DAX measures to enhance analytics capabilities.
- Managed ETL processes, performed data validation, and implemented row-level security.
- Assisted in migrating BI solutions to cloud platforms, ensuring scalability and compliance.

SQL / Power BI Developer (Contract) – Verizon | Nov 2019 – Nov 2021 | Hyderabad, India

- Designed and deployed SSRS reports and Power BI dashboards for executive and departmental use.
- Developed SSIS ETL workflows for seamless data integration across multiple sources.
- Created SSAS cubes and MDX queries for multidimensional analysis.
- Developed stored procedures, triggers, and optimized SQL queries for database management.
- Utilized JIRA for agile project tracking and cross-team collaboration.

SQL / Power BI Developer – Axiophyl | Mar 2019 – Oct 2019 | Hyderabad, India

- Built and maintained SSIS data pipelines integrating SQL Server, Oracle, flat files, Excel, and XML.
- Designed Power BI dashboards and Excel Power Pivot reports for business insights.
- Customized SharePoint forms and workflows for improved data management.
- Implemented CI pipelines using TeamCity and PowerShell, ensuring smooth deployments.
- Delivered SSRS reporting solutions and developed SQL stored procedures for business processes.

Education

Master of Science in Information Technology & Management
University of Texas at Dallas – Dallas, TX

Certifications

- Microsoft Certified: Power BI Data Analyst Associate
- Microsoft Certified: Azure Fundamentals (AZ-900)
- AWS Certified Cloud Practitioner
- Databricks Fundamentals Certification
