— PROFESSIONAL EXPERIENCE —

Dexian | Minneapolis, MN (Hybrid) Business Execution Consultant | Oct 2024 - 03/08/2025 (Contract)

- Configured and optimized Workday Absence Management and Time Tracking business processes (e.g., Time Off Requests, Leave of Absence, Termination payouts) to improve efficiency and compliance.
- Streamlined absence eligibility rules and designed custom Time Off accrual policies, reducing manual adjustments by 30% and aligning workflows with organizational policies and labor laws.
- Developed custom reports and dashboards for Time and Absence metrics (e.g., use trends, time-off balances), enhancing visibility for leadership and improving decision-making.
- Led testing and implementation of Workday upgrades and system enhancements, ensuring seamless transitions while finding and resolving process inefficiencies
- Provided training and advanced troubleshooting support to HR and payroll teams, improving system adoption, and reducing support ticket volume by 25%.

Whole Foods Market | Austin, TX (Remote) Sr. Reporting Analyst | Oct 2023 – Apr 2024 Sr. Software Development Engineer | May 2022 – Oct 2023

- Led the development and implementation of a Reporting Center of Excellence, creating standardized reporting frameworks and systems to improve decision-making processes and overall business performance.
- Provided technical configurations and advanced reporting across Workday HCM modules, including Absence, Benefits, Talent Management, Payroll, Time Tracking, Compensation, Recruiting, and Workforce Planning.
- Delivered custom dashboards, Workday Prism Analytics, and complex calculated fields, enabling HR and business leaders to derive actionable insights from their data.
- Managed security analysis, data governance, and quality assurance processes, ensuring that reports and dashboards were correct and compliant with company standards and policies
- Developed and optimized Workday Prism Analytics pipelines, improving the organization's data integration and reporting capabilities by 25%.

- Established a Reporting Center of Excellence, reducing ad-hoc reporting requests by 40% through the implementation of standardized reporting solutions.
- Led knowledge transfer sessions and change management efforts, providing training and documentation to ensure smooth post-go-live operations.

Patina Solutions (Korn Ferry) | Brookfield, WI (Hybrid) Business Process Documentation Specialist | July 2021 – Apr 2022

- Provided client support and leadership in the implementation of Workday HCM, Payroll, and Talent modules, ensuring system configurations met client-specific requirements.
- Delivered comprehensive solution design documentation and developed business process flows for end-to-end testing and change management
- Partnered with work stream leads to gather and confirm business processes, help text, and custom validations, ensuring correct system functionality.
- Led the documentation of key business processes and solution designs, supporting a smooth transition to Workday HCM for clients, reducing system-related issues post go-live by 30%.

Upton Hill | Edina, MN (Remote) Associate Consultant | June 2020 – Dec 2020

- Provided consulting support for the implementation of Workday HCM, Payroll, and Benefits modules, ensuring successful configuration and deployment.
- Supported the Reporting and Integrations team with system configuration to meet critical go-live deadlines
- Delivered knowledge transfer sessions and created solution design documentation for complex configurations, ensuring successful handover to client teams post implementation.
- Collaborated with cross-functional teams and external vendors to gather requirements, build, test, and confirm system configurations.
- Enabled on-time Go-live of Workday modules for clients, improving HR operational efficiency by 20%.

ManpowerGroup | Milwaukee, WI (Remote) Reporting Consultant | July 2019 – Nov 2019

- Led the Workday Recruiting Module Implementation, providing quality client support and project leadership throughout the process
- Migrated critical data, integrations, reports, and dashboards from the client's legacy Applicant Tracking System (ATS) to Workday Recruiting.

- Partnered with internal stakeholders to define, design, and test system requirements, ensuring alignment with client business needs.
- Provided post go-live support/hyper-care, including change management and documentation of solution designs, enabling smooth system maintenance.
- Migrated over 10,000 candidate records and streamlined recruitment reporting, improving system efficiency by approximately 25%.

Ecolab | St. Paul, MN (Onsite) Associate IT Developer – Workday HCM | June 2016 – Feb 2019

- Provided advanced reporting and configuration support across Workday HCM modules, including Absence, Benefits, Talent Management, Payroll, Time Tracking, Compensation, and Workforce Planning.
- Managed the global Workday HCM reporting support queue, resolving technical requests, and delivering solutions to meet HR reporting needs.
- Conducted change reviews, impact assessments, and testing for post go-live maintenance and new Workday releases twice per year, ensuring system stability and accuracy.
- Created custom Workday reports, dashboards, and complex calculated fields, delivering real-time insights into HR metrics and workforce data.
- Led the configuration, transformation, and testing of key data sets, the creation of over 50 custom reports, dashboards, and discovery boards improving reporting accuracy and reducing manual processes by 30%.
