

Ramhruthik Reddy Kalsani

Data Analyst

Charlotte, NC | (980)-446-0762 | hruthikram73@gmail.com | [Linkedin](#) | [GitHub](#)

SUMMARY

Data Analyst with 4 years of experience working with large-scale operational, customer, and transactional datasets including sales records, inventory logs, delivery performance metrics, and support interaction logs to drive business intelligence, reporting automation, and process optimization.

EDUCATION

Missouri State University, Missouri

Aug 2021 - May 2023

Master of Science, Computer Science

•GPA: 3.2

•Coursework: Computer Science, Machine learning, Data Science

Sathyabama Institute of Science and Technology, India

Aug 2016 - May 2020

Bachelor of Technology, Computer Science

•GPA: 8.47

•Coursework: Computer Science, Cyber Security, Cloud Computing

PROFESSIONAL EXPERIENCE

Cardinal Health

Jun 2024 - Present

Data Analyst

Raleigh, NC

- Worked on enterprise-level data initiatives focused on healthcare distribution and customer service performance analytics.
- Collaborated with cross-functional teams to identify inefficiencies in patient delivery workflows and designed analytical solutions aligned with compliance and reporting requirements.
- Developed scalable ETL pipelines using SQL and PySpark in Databricks to transform inventory and logistics data into standardized formats for daily reporting.
- Created interactive dashboards in Power BI and Tableau to track SLA adherence, delivery exceptions, and issue resolution time for operations and compliance leads.
- Engineered Delta Lake pipelines using Unity Catalog to integrate real-time vendor and EHR data, enabling proactive inventory planning and reducing service disruptions.
- Integrated Azure OpenAI models to summarize support transcripts and classify incident themes, enhancing root cause detection and improving response times by 35%.

Lowes

Aug 2023 - Jun 2024

Data Analyst

New Jersey, USA

- Worked on retail analytics initiatives across eCommerce and in-store operations to optimize product movement, stock visibility, and customer satisfaction.
- Built PySpark workflows in Databricks to process millions of records from store sales, fulfillment data, and return logs, cutting refresh latency by 40%.
- Designed feature sets in Databricks for customer segmentation and campaign performance analytics using behavioral and transaction data.
- Developed and deployed Tableau dashboards to visualize inventory health, sales conversion rates, and category performance for merchandising teams.
- Created Power BI dashboards for tracking order delays, returns, and customer satisfaction KPIs with near real-time updates for operations managers.
- Integrated SAP, Salesforce, and order systems using SQL and Alteryx to connect customer journeys end-to-end and expose process gaps in fulfillment flows.

Knowledge Solutions

Apr 2019 - Jul 2021

Data Analyst

Hyderabad, India

- Built SQL-based procedures and SSIS packages to automate the generation of product analytics, campaign performance summaries, and KPI reporting.
- Worked directly with business stakeholders to gather requirements, define KPIs, and translate reporting needs into scalable data models and dashboards.
- Developed ETL workflows in SSIS and Python to combine marketing, finance, and customer datasets into centralized views used in executive dashboards.
- Designed and published dashboards in Power BI and Tableau for C-level users to monitor sales pipeline health, churn trends,

and campaign ROI.

- Used SQL and Excel to perform ad hoc analysis and validate data integrity across marketing and transactional datasets, ensuring report accuracy.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++, JavaScript
- **Web Technologies:** HTML, CSS, ReactJS, jQuery, AJAX, XML, JSON
- **Database & Data Management:** SQL, MySQL, NoSQL, ETL Processes, Data Warehousing, Data Analysis
- **Cloud Platforms:** Google Cloud Platform, AWS, Microsoft Azure
- **Data Visualization:** Tableau, Power BI, Data Visualization
- **Machine Learning & Statistical Analysis:** Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras, Hypothesis Testing, Regression, A/B Testing, Forecasting, Statistics, Data Science
- **Development & Tools:** MS Office, Android Studio, Git
- **Operating Systems:** Windows, Linux, macOS, Android
- **Professional Experience:** Consulting Experience

Academic Projects

- Applied machine learning models to classify loan applications using applicant demographics, credit history, and income data, resulting in a 20% increase in prediction accuracy.
- Engineered features and implemented optimized preprocessing workflows to reduce model training time by 30%, improving pipeline efficiency and resource utilization in cloud environments.
- Built stakeholder dashboards in Tableau and Power BI to visualize loan approval trends, identify risk factors, and support data-driven decisions across underwriting and customer service teams.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Google cloud Certifications : Data Analytics Professional
- Microsoft Power BI Certification
- Google Cloud: Smart Analytics, Machine Learning, and AI on Google Cloud
