PROFESSIONAL SUMMARY

Results-driven Full-Stack Engineer with 4.5+ years of experience building high-performance Java and Spring Boot microservices and cloud-native full stack applications on AWS. Proven success delivering scalable, secure, and low-latency systems processing 80M+ daily transactions in banking and healthcare domains. Passionate about API engineering, automation, and performance optimization that drive measurable business impact.

EXPERIENCE

Full-Stack Software Engineer: Wells Fargo - San Francisco, California

Aug 2024 – Present

- Engineered a high-throughput fraud detection platform on AWS EKS using Java 17, Spring Boot, Node.js, and Kafka, enabling 80M+ daily transactions and reducing fraudulent approvals by 32%.
- Designed and deployed distributed microservices handling 200K+ API requests per minute with <120 ms latency, driving 40% improvement in transaction scalability and 25% faster API response time.
- Modernized legacy GraphQL and REST APIs, improving system reliability and enabling real-time fraud analytics through CloudWatch, Prometheus, and Grafana, cutting incident resolution time by 45%.
- Enhanced React.js dashboards with TypeScript and RxJS, improving investigator workflow efficiency by 35% and page rendering speed by 50%.
- Integrated biometric authentication and AI-based scoring models, strengthening fraud prevention and regulatory compliance across platforms.
- Mentored and guided cross-functional teams on microservice design and CI/CD best practices, improving sprint delivery predictability from 80% to 95%.

Environment: Java 17, Spring Boot, Node.js, React.js, GraphQL, Kafka Streams, AWS (EKS, Lambda, S3, CloudWatch), Docker, Kubernetes, Jenkins, MongoDB, PostgreSQL, Prometheus, Grafana, Agile Scrum.

Full-Stack Software Engineer: LTI Mindtree - Mumbai, India

Oct 2022 – Jul 2023

- Developed HIPAA-compliant Spring Boot microservices with FHIR APIs, enabling real-time healthcare data exchange across 25+ hospitals and insurers, and improving integration efficiency by 40%.
- Automated large-scale ETL pipelines using Kafka, AWS Kinesis, and AWS Glue, migrating 10+ TB of patient data to Snowflake and reducing ETL load time by 35%.
- Streamlined cloud infrastructure provisioning using Terraform and Kubernetes, reducing manual deployment time by 40% and improving uptime to 99.9%.
- Implemented predictive analytics workflows with AWS SageMaker and NLP models, accelerating anomaly detection by 30% in patient IoT data streams.
- Secured microservices and APIs with OAuth2, JWT, and AWS IAM, ensuring data privacy and compliance with HIPAA standards.

Environment: Java 17, Spring Boot, React.js, FHIR APIs, Kafka, AWS (Kinesis, Glue, EKS, SageMaker), Snowflake, Terraform, Power BI, Grafana, OAuth2, JWT, CI/CD, Jenkins, Agile Scrum.

Software Engineer: SMS Techsoft India Limited – Bangalore, India

Jan 2021 – Sep 2022

- Migrated legacy HR and healthcare systems to Spring Boot microservices on AWS, improving scalability by 40% and shortening release cycles by 35% through automated CI/CD pipelines.
- Developed responsive React.js interfaces integrated with Node.js middleware, enhancing visualization speed and reducing user task completion time by 30% across enterprise dashboards.
- Optimized SQL and NoSQL databases in PostgreSQL and MongoDB, improving data retrieval efficiency by 25% and accelerating analytics for reporting teams.
- Implemented proactive monitoring solutions with AWS CloudWatch and Grafana, reducing system downtime by 22% through alert-based incident detection and faster recovery.

Environment: Java 17, Spring Boot, Node.js, React.js, REST APIs, AWS (EC2, RDS, Lambda, API Gateway), Jenkins, Docker, Kubernetes, MongoDB, PostgreSQL, TypeScript, Agile Scrum.

Junior Software Engineer: Center Systems Limited – Hyderabad, India

Jul 2020 – Dec 2020

- Developed a Spring Boot microservice for cloud-based inventory management, improving real-time stock accuracy to 99.8% and reducing data retrieval time by 30%.
- Designed RESTful APIs for CRUD operations integrated with AWS RDS and Elastic Beanstalk, enhancing availability and scalability by 20%.
- Performed unit and integration testing with JUnit, ensuring zero regressions during production releases.
- Collaborated in Agile sprints to refine user stories, deliver on-time releases, and strengthen code quality through peer reviews and Git version control.

Environment: Java 8, Spring Boot, REST APIs, AWS (Elastic Beanstalk, EC2, S3, RDS), PostgreSQL, JUnit, GitHub, Agile Scrum.

SKILLS

- **Programming Languages:** Java, Python, C, C++, JavaScript, TypeScript.
- **Frontend:** React.js, Angular, HTML5, CSS3, Bootstrap, RxJS, AJAX, JSON, Responsive UI Development.
- **Backend & APIs:** Spring Boot, Node.js, Hibernate ORM, RESTful APIs, GraphQL, Microservices Architecture, API Gateway.
- **Databases:** PostgreSQL, MongoDB, MySQL, SQL Server, Oracle 11g, Snowflake.
- **Cloud & DevOps:** AWS (EKS, Lambda, S3, EC2, RDS, CloudWatch, API Gateway, Kinesis, Glue, SageMaker, IAM), GCP (GKE, Pub/Sub, BigQuery), Azure (Containers, Storage), Jenkins, Docker, Kubernetes, Terraform (IaC), SonarQube, CI/CD Pipelines.
- **Testing & Quality Assurance:** JUnit, Mockito, Postman, Jest, Jasmine, Karma, Protractor, Automated API Testing, Exception Handling, Log Analysis.
- **Version Control & Project Management:** Git, GitHub, GitLab, Bitbucket, Jira, Agile Scrum, SDLC, Peer Code Review, Sprint Planning.
- **Security & Compliance:** OAuth2, JWT, Biometric Authentication, Responsible AI, Explainable ML, HIPAA, GDPR, OCC, FDIC Compliance.
- **Monitoring & Analytics:** Grafana, Prometheus, Power BI, AWS CloudWatch, ELK Stack, Azure Monitor
- **Architectural & Other Skills:** Microservices Design, API Gateway, Containerization, Performance Optimization, Automation, Agile Collaboration, Problem Solving, Leadership & Mentoring.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Developer Associate – In Progress

EDUCATION

University of North Texas, USA

Master's in computer sciences (GPA – 3.7/4.0)

Anurag Engineering College, Kodad, India

Bachelor of Technology in Computer Sciences (8.50/10)
