

Ram Nivetha Ramasamy

Data Engineer

Chino Hills, CA | 840-218-0346 | ramnivetha.ramasamy@gmail.com | [LinkedIn Profile](#)

EDUCATION

Master of Science, Business Analytics

California State University, Singelyn Graduate School of Business, Pomona, CA

Aug 2025

3.94/4.00

Bachelor of Technology (Honors), Computer Science & Engineering

APJ Abdul Kalam Technological University – Kerala, India

June 2021

3.41/4.00

SKILLS

Cloud Platforms: AWS (S3, Glue, Redshift, Athena, IAM, SageMaker), Databricks Spark, Apache Spark, Snowflake (Storage)

Data Engineering: ELT/ETL pipelines, RAG workflows, batch & streaming data, Informatica PowerCenter, Teradata, Kafka

Programming: Python, SQL, PySpark, Shell

Orchestration & CI/CD: Airflow, Control-M, dbt, Git/GitHub Actions version control

Visualization: Tableau, Power BI, Excel

EXPERIENCE

Client Consulting at Cenergy Power (Capstone Project), USA

Aug 2024 - Aug 2025

- Developed **RAG-powered pipelines**, reducing 200+ themes to 7 areas and increasing risk-assessment efficiency by **60%**.
- Engineered structured data processing for extraction and topic clustering, standardizing data across multiple US counties.
- Supported **AI** use cases with **Power BI dashboards**, surfacing risks and opposition hotspots to support decision-making.

Senior Systems Engineer at Infosys Ltd, India | CVS Health

July 2021 – May 2023

- Supervised a **5-member** team maintaining Teradata BTEQ scripts, reducing reconciliation by **25%** across **5M+** daily records.
- Designed **180+ Informatica PowerCenter** ETL workflows within a healthcare PBM Enterprise Data Warehouse in Oracle.
- Applied SCD Type logics to maintain data integrity and historical changes, improving scalable reporting accuracy to **98%**.
- Leveraged MapGen automation tools (**Excel** → **XML**) to auto-generate mappings, saving **4 hrs/day** of manual effort.
- Optimized **PL/SQL** procedures, triggers, and packages for efficient batch processing and improving data model reliability.
- Collaborated with Analyst to managed **Control-M** scheduling of workflows, ensured **100%** SLA compliance focus for feeds.
- Monitored **HIPAA** compliance through encrypted SFTP transfers and role-based QA/prod access for every workflow run.
- Utilized **Unix and Python** scripts to automate tasks and log checks via **PuTTY** for troubleshooting and Root Cause Analysis.

ACADEMIC PROJECTS

AWS Cloud Sentiment Pipeline

Jan 2025 - Aug 2025

- Deployed an **ELT cloud** data pipeline to extract and analyze YouTube comment sentiment from 25 videos across 5 channels.
- Conducted QA code reviews and quantitative analysis to ensure accurate data transformation in a collaborative environment.
- Queried and analyzed structured datasets in **Redshift Serverless**, enabling sub-second queries and cost-efficient analytics.
- Orchestrated runs with **Apache Airflow** (Docker DAGs) for **Python API** extraction, enrichment, and strategic Redshift load.
- Integrated **Git** version control for **dbt** validation, testing use cases, and deployment, reducing documentation effort by **70%**.
- Streamlined near-real-time data ingestion by exploring **Apache Kafka** event streaming concepts to enhance future scalability.
- Published **Tableau Public KPI** dashboards, visualizing quick insights into regulation and community engagement patterns.

Big Data – SKU Demand Forecasting

Aug 2024 – Dec 2024

- Processed 1M+ historical transaction records into AWS S3 and queried datasets using AWS Athena for downstream analysis.
- Supported high-performance features with PySpark on **3 Databricks** Spark clusters, optimizing **Apache Spark** pipelines.
- Developed an **XGBoost** time-series model in **AWS SageMaker**, improving forecast reporting accuracy (MAPE) by **12%**.

CERTIFICATIONS

Beta Gamma Sigma (International Business Honor Society, AACSB top 5%)

Jan 2025

Microsoft Certified: Azure Fundamentals – Microsoft (Azure Data Lake, Databricks, Azure SQL)

Aug 2022

Google Cloud Essentials (GCS, BigQuery, Cloud function, Cloud Composer, Cloud Scheduler) - Qwiklabs

Sep 2020
