

Ramani Chippa

Dallas, TX | +1 9409774662 | chipparamani@gmail.com

SUMMARY

Detail-oriented and results-driven **Data Analyst** with 4+ years of experience in data engineering, analytics, and visualization across healthcare, education, and manufacturing domains. Proven expertise in SQL, Python, Power BI, Tableau, Azure, AWS, and cloud-based ETL workflows. Adept at transforming complex data into actionable insights to drive business strategies. Strong collaboration with cross-functional teams, ensuring data integrity and governance throughout the lifecycle.

SKILLS

- **Programming & Query Languages:** SQL, PL/SQL, R, Python, Pyspark
- **Data Tools & Visualization :** Tableau (Desktop, server and online), PowerBI, Smartsheet, MS Excel, Crystal Reports
- **Databases:** MS SQL Server, Oracle, PostgreSQL, MySQL, Azure SQL Database, SQL Server, Redshift, Teradata ETL
- **Cloud & Data Platforms:** Azure(ADF, Data Lake, Databricks), AWS (S3, Redshift, Glue), GCP Dataflow
- **ETL Tools & pipelines:** SSIS, Azure Data Factory (ADF), Airflow, Apache Kafka
- **Data Modeling & Analysis:** ERwin, Power Designer, DFDs,ERDs, Star/Snowflake Schema, Spark, Hive, ETL Pipelines
- **Project Tools:** GitHub, Azure DevOps, JIRA, Agile, SDLC
- **Data Analysis & Visualization:** Data analysis, Data visualization, Data modeling, Data preparation, Data transformation, Azure, Data Aggregation, Systems Analysis & Requirement Gathering

EXPERIENCE

Data Analyst | UF Health | Jacksonville, FL (Remote)

June 2024 - Present

- Created comprehensive data dictionaries, ETL mappings, DFDs, ERDs, metadata documentation, and SQL scripts (DDL/DML) to support data architecture and application development.
- Designed and maintained robust data pipelines using Apache Kafka, Apache Airflow, and cloud-native tools (AWS Glue, GCP Dataflow) for real-time and batch data processing.
- Developed Kafka producers/consumers and integrated pipelines with data lakes, Redshift, and PostgreSQL to enable streaming analytics and efficient data delivery.
- Led stakeholder JAD sessions, reverse-engineered schemas, and enforced data governance.
- Developed and executed SQL scripts to implement database changes, including schema modifications, view creation, index tuning, and stored procedures.
- Delivered Oracle and SQL-based data solutions aligned with APS and TSI's advancement reporting goals.
- Developed and maintained reporting modules using SQL and integrated with Redshift and PostgreSQL.
- Created and optimized physical/logical data models and wrote PL/SQL scripts for application integration.

Research Analyst - Advanced Data Analytics | University of North Texas | Denton, TX **Aug 2023 - Jun 2024**

- Developed and supported AAS models for retail sales, POS, and corporate forecast data, enabling dynamic Power BI reporting and enterprise data visualization.
- Collaborated with solution architects, principal engineers, and business analysts to capture precise business requirements for data product deliverables.
- Leveraged a comprehensive data stack including Azure Databricks, ADLS, ADF, and Power BI to build and refine dashboards for enhanced business insights.
- Delivered end-to-end PySpark ETL pipelines on Azure Databricks, orchestrated via ADF, to transform and prepare data for robust analysis.

- Boosted CI/CD data access security; version-controlled assets via Azure DevOps and GitHub.
- Optimized data analysis project outcomes by employing Enterprise GitHub and Azure DevOps Repos for version control, achieving a 30% increase in efficiency.

Data Analyst | HCL Technologies - Verizon | Hyderabad, IN

Jan 2021 - Dec 2022

- Utilized AWS, Snowflake, and Spark SQL to enhance data stack capabilities, improving data exploration and modeling for better insights in AI & ML projects
- Added value to Digital Manufacturing Data Products by contributing as an Insights Data Analyst building business driven sourcing solutions based on Business users' requirements.
- Communicated data analytic finds for Digital Manufacturing, Audit Data, Distribution Centers analysis.
- Design Review contributor to cross functional technical teams and communicating technical finds to Visualizations Developers.
- Streamlined data ingestion pipelines using Airflow and Python; automated API-based data transfer to AWS S3.
- Used Tableau and Excel for Visualization charts etc. and regularly communicating finding with Product Owners.
- Worked with Data Engineers and Data Scientists to help and understand the gaps between Product Integrity Datasets and Digital Manufacturing by leveraging Advanced Analytics.
- Worked in an Agile Environment and indulged in Design Review and End-to-End UATs and assisted QA in automating test cases.

EDUCATION

University of North Texas

Master of Science, Advance Data Analytics

Jan 2023 - Dec 2024

CVR College of engineering

Bachelor's, Computer Science

Jun 2018 - May 2022

CERTIFICATIONS

- Microsoft Certified: Data Analyst Associate (Power BI)
- AWS Certified Data Analytics – Specialty

ADDITIONAL SKILLS

Salesforce | Salesforce Marketing Cloud | Ellucian Advance | Technical writing | Presentation design | Problem-solving and critical thinking | Documentation | Collaboration with SMEs and stakeholders
