

RANJITH REDDY ANUMULA

DATA ANALYST

Location: GA | Phone: 334-610-9705 | Email: anumularanjithreddy98@gmail.com

SUMMARY

- **Data Analyst** with **4+ years of experience** in extracting actionable insights from complex datasets, specializing in **financial analysis, data visualization, and data integration**.
- Proficient in **Python, SQL, and R** for data manipulation and statistical analysis, with a focus on **data modeling and data quality** for accurate reporting.
- Skilled in developing **interactive dashboards** using **Tableau, Power BI, and Excel**, and implementing **cloud-based solutions with AWS** for scalable data storage and access.
- Experienced in **optimizing ETL pipelines**, ensuring high data integrity, accuracy, and timely delivery of insights to stakeholders.
- Collaborates effectively in **Agile methodologies** with cross-functional teams, enhancing project outcomes and ensuring data solutions align with business needs.

TECHNICAL SKILLS

Programming Language:	Python, SQL, R.
Databases:	MySQL, Oracle, MongoDB, PostgreSQL.
Libraries:	NumPy, Pandas, Matplotlib, SciPy.
Cloud Technologies:	AWS (EC2, S3, Lambda, RDS, Redshift, CloudWatch, Athena, Glue).
Data Visualization Skills:	Tableau, Power BI, MS Excel
Methodologies:	Agile, Waterfall.
Version Control Skills:	Git, GitHub.
Analytical Skills:	Data Mining, Data Cleansing, Statistical Analysis, Data Visualization, Text Mining, Data Wrangling, Data Warehousing, Problem-solving,

PROFESSIONAL EXPERIENCE

Data Analyst

Blue Cross Blue Shield, GA

Feb 2024 – Current

- Engineered and optimized 50+ complex SQL queries for ETL processes on PostgreSQL and MongoDB, processing 10,000+ records monthly to improve data quality and consistency.
- Promoted financial trend visualizations using Python and Matplotlib, providing insights that influenced management's decisions on 20+ strategic initiatives.
- Leveraged AWS Redshift to build a data warehousing solution, reducing query processing times by a factor of 5, enabling the analysis of 1+ terabytes of financial data.
- Created and managed 50+ Tableau dashboards to deliver actionable insights to senior stakeholders, supporting high-impact strategic planning.
- Executed 200+ ad-hoc queries monthly in AWS Athena on S3-stored data, accelerating data exploration and discovery for rapid decision-making.
- Applied advanced text mining to process and refine 500,000+ rows of financial textual data, enhancing report quality and scope for accurate financial insights.

Data Analyst

KPMG, India

Jun 2020 - Jul 2022

- Standardized and transformed financial data from Oracle, processing over 1 million records to ensure accurate and consistent reporting across key financial feeds.
- Automated data manipulation tasks with Python (NumPy, Pandas), reducing manual work and optimizing 50+ reporting workflows for financial performance analysis.
- Designed and delivered 30+ Power BI and Excel dashboards, enabling data-driven insights into financial metrics for 15+ stakeholders.
- Organized 10+ ETL pipelines on AWS (EC2, Lambda, S3, RDS) to process and analyze large-scale financial datasets, supporting efficient reporting.
- Conducted data cleansing and mining on millions of records to identify critical trends in financial data, providing insights that informed corporate financial strategies.
- Contributed to Agile sprints, collaborating on 20+ financial analysis projects, and maintained project documentation using GitHub for efficient version control.

SQL Developer Espire, India	Jan 2019 - May 2020
• Designed and optimized 50+ SQL queries and stored procedures for diverse data requirements, ensuring data accuracy across multiple systems. • Generated ETL processes with SSIS, automating the integration of 100+ data files from flat files and databases into SQL Server, improving data consistency. • Created 30+ SSRS reports with hierarchical parameters, hyperlinking, and sorting to provide detailed insights for end-users, enhancing decision-making efficiency. • Developed OLAP cubes with SSAS, supporting BI applications with efficient storage for complex queries and delivering insights to 10+ business units. • Built 15+ Power BI dashboards that consolidated data from multiple sources, enabling real-time tracking of KPIs and supporting better business analysis. • Applied Agile methodologies, collaborating in 25+ sprints to complete database development and ensure alignment with business requirements.	

EDUCATION	
Auburn University at Montgomery, AL Master’s in Management Information Systems	Aug 2022 – Dec 2023
Kommuri Pratap Reddy Institute of Technology, India Bachelor’s in Computer Science	Jul 2016 – May 2020
