

Rashmi Boga

San Jose, CA (619)-626-9187 | rashmibogab@gmail.com

EDUCATION

Osmania University

Hyderabad, India

Bachelors of Science, Statistics and Computer Science

Cumulative GPA: 9.3

WORK EXPERIENCE

USAA

Plano, TX

Data Analyst

Jan 2025 –Present

- Performed exploratory data analysis (EDA) using SQL and Python on large auto, property, and CAT insurance datasets to uncover trends, detect anomalies, and support data-driven claims strategies.
- Conducted end-to-end claims lifecycle analysis to identify drivers of claims inflation, processing delays, and cost leakage, contributing to a 13% improvement in claims efficiency and fraud detection accuracy.
- Designed and implemented ETL pipelines using AWS Glue and SQL to automate ingestion and transformation of policy, member, and claims data, improving data accuracy and reducing manual preparation time for analytics and reporting.
- Validated and reconciled policy, member, and claims data using SQL (AWS Redshift), Python (Pandas) and Excel, ensuring accuracy for regulatory reporting, actuarial analysis, and dashboards.
- Developed and automated Tableau dashboards, reducing manual reporting time by 22% and improving KPI visibility across loss ratio, claim cycle time, and fraud metrics.
- Queried and analyzed large-scale datasets using AWS Athena from S3 data lakes, supporting claims trend analysis, fraud detection, and reporting pipelines.

Verizon

Irving, TX

Data Analyst

Nov 2023 – Dec 2024

- Conducted cross-functional analytics using SQL, Python (Pandas, NumPy), and Excel to uncover trends in wireless and wireline customer behaviour, supporting data-driven retention strategies.
- Performed exploratory data analysis (EDA) to detect anomalies, identify patterns, and generate actionable insights for retention and channel optimization.
- Delivered ad-hoc insights for client service requests using SQL, Python, and advanced Excel, enabling faster decision-making across business functions.
- Built and automated dashboards in Tableau and Excel, reducing reporting cycle time by 24% and improving KPI visibility for sales, marketing, and finance leadership.
- Developed predictive models (churn prediction, customer lifetime value) using Python and Scikit-Learn, enabling targeted retention and revenue optimization strategies.
- Conducted deep-dive acquisition and channel analytics to evaluate pricing, promotions, and distribution, improving channel efficiency by 10%.

Zensar Technologies LTD

Pune, India

Data Analyst

Jan 2021 – Apr 2023

- Performed exploratory data analysis (EDA) on large-scale banking and financial datasets using SQL, Python (Pandas, NumPy), and Excel, uncovering trends and patterns that improved operational efficiency and risk visibility by 15%.
- Built and maintained Tableau and Power BI dashboards, reducing manual reporting time by 18% and improving KPI visibility for finance and risk teams.

- Performed predictive modeling and statistical analysis using Python and Scikit-Learn to support risk assessment, customer behaviour modeling, and strategic planning.
- Collaborated with cross-functional teams (risk, finance, operations) to translate business requirements into analytical solutions, enhancing reporting accuracy and decision-making.
- Automated recurring data preparation and reporting workflows using SQL and Python, significantly reducing manual effort and improving data consistency across reports.

SKILLS

- **Programming & Libraries** : Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, SciPy), SQL
- **Data Visualization & BI Tools** : Tableau, Power BI, Excel
- **Big Data & Distributed Processing** : PySpark, AWS Redshift
- **Cloud Platforms** : AWS, Snowflake
- **ETL & Data Pipelines** : Apache Airflow, AWS Glue, AWS Athena
- **Containerization & Orchestration** : Docker, Kubernetes
- **Data Analytics & Statistics** : Exploratory Data Analysis (EDA), Hypothesis Testing, Statistical Modeling, Time Series Analysis, A/B Testing
- **Version Control & Collaboration** : Git, GitHub, Jira, Scrum
- **Development Tools** : Jupyter Notebook, VS Code
