SUMMARY

Business Analyst with 3 years of experience in data analysis, process improvement, and stakeholder collaboration. Proficient in SQL, Power BI, Tableau and Python to deliver actionable insights and drive measurable business value in dynamic environments. Inquisitive, self-driven, and eager to tackle challenges while delivering value to the organization at large.

EDUCATION

Master of Science in Business Analytics, University of Texas at Dallas

Jan 2023 – Dec 2024

Courses: Database Foundations, Prescriptive Analytics, Causal Analytics and A/B Testing, Applied Machine Learning, Predictive Analytics,

Bachelor of Technology, Computer Science Engineering, GITAM University

Jul 2016 – Jun 2020

WORK EXPERIENCE

Business Analyst at S Linx LLC, Leander, TX

Sep 2024 – Dec 2024

- **Dashboard Development:** Designed and developed interactive dashboards using Tableau and Excel, improving reporting accuracy by 30%, and delivered data-driven presentations to stakeholders, translating complex analytics into actionable business insights.
- **Requirements Documentation:** Authored detailed Software Requirements Specification (SRS) and Business Requirements Documents (BRD) to translate business requirements into technical deliverables, achieving high 98% project compliance.
- **Process Optimization:** Applied statistical analysis to identify patterns and reduce inefficiencies in staffing and business operations.

Data Analyst at University of Texas at Dallas, Richardson, TX

Jul 2023 – Aug 2023

- **Data Analysis:** Led the analysis of alumni data for the Princeton Review rankings, working with over 10,000 records to identify key trends and insights. Improved reporting accuracy and reduced data processing time by 20% through process optimization.

Business Analyst at Accenture, Hyderabad, India

Aug 2020 – Nov 2022

- **Business Analysis:** Analyzed business functionalities and collaborated with cross-functional teams to understand complex requirements for E-PolicyCenter, the core policy management system for an insurance client. Earned Specialist Certification in Guidewire PolicyCenter 10.
- **Incident Management:** Conducted Root Cause Analysis (RCA) and implemented workarounds for system defects, resolving 200+ incidents, including multiple high-priority issues, improving system stability and reducing incident inflow by 5% to the business.
- **Stakeholder Collaboration & Project Management:** Liaised between technical and business teams to gather requirements, documented user stories, conducted User Acceptance Testing (UAT), troubleshooted upstream and downstream application issues, and applied project management principles to track progress, ensuring alignment with business objectives.
- **Process Automation:** Streamlined deployment activities by automating reports, enhancing process efficiency and improving data accessibility for stakeholders.
- **Database Optimization:** Optimized SQL queries, performed DBA activities on Oracle Server, and resolved code inefficiencies to support the development of quantitative solutions, reducing memory utilization by 40% and enhancing the overall application performance by 14%.
- **Cloud-Based Solutions:** Utilized Google Cloud Platform (GCP) for data analysis and automation, driving efficiency and facilitating data-driven decision-making.
- **Technical Debt:** Identified and remediated technical debt, reducing long-term maintenance overhead by 3% and supporting scalability.
- **Achievements & Recognition:** Promoted 8 months ahead of schedule for exceptional performance in managing business-critical applications and optimizing system health. Recognized with S.T.A.R (Special Thanks and Recognition) Award for significant contributions and impact on the project's success.

PROJECTS

Predictive Model for Adult Income

Oct 2023 – Dec 2023

- Conducted Logistic Regression with 80% accuracy, 77% precision, and 58% recall, indicating high-income individual prediction.
- Applied Association Rules for strategic decisions, revealing patterns in business potential, real estate, and bank loan eligibility.
- Implemented K-Fold Cross Validation and CART algorithms, optimizing model selection and enhancing predictive accuracy by 15%.

Software Intern at DBace Technologies, PVT LMT, Hyderabad, India

Apr 2019 – May 2019

- Developed and optimized a Face Recognition model using advanced Machine Learning and OpenCV, achieving a 200% improvement in data dimensionality reduction and enhancing computational efficiency.
- Improved feature extraction using PCA to address inter-class and intra-class variability, increasing model accuracy by 6%.

TECHNICAL SKILLS

Programming Languages: SQL, Python, R, Gosu, Java

Databases: Oracle, MySQL, SQL Server, Snowflake, MongoDB, DynamoDB

Tools: Power BI, Tableau, Advanced Excel, RStudio, Google Analytics, Jupyter Notebook, Git, Jira, ServiceNow, Visual Studio

LEADERSHIP EXPERIENCE

Global Entrepreneur Product Manager at AIESEC in Visakhapatnam

Jan 2018 – Jan 2019

- Secured partnerships with Local organizations, increasing access to international travel programs and expanding event outreach by 40%.
- Led the planning and execution of the World's Largest Lesson, educating over 700 children on Sustainability Development Goals (SDGs).
- Designed and organized Model World Partnership Summit and Youth Speak Forum events, fostering collaboration and cultural exchange.

Core Committee Public Relations Lead at ACM Student Chapter

Sep 2017 – May 2019

- Managed a team of 5 members to execute TECHELLENCE 4.0, attracting over 2,000 participants and increasing attendance by 35% through public relations strategies.
