

RASOOL MALIK VEMPALLI

Software Engineer III

Email: rasoolv546@gmail.com LinkedIn: [linkedin.com/in/Rasool Vempalli](https://www.linkedin.com/in/Rasool Vempalli) Mobile: +1 9803584729 Place: United States

Summary

Experienced Full Stack Java Developer with 3+ years of expertise in designing, developing, and deploying scalable web applications. Led the optimization of microservices performance, enhancing system scalability and uptime. Spearheaded backend development for fraud detection systems, reducing response time by 40%. Proficient in Java, Spring Boot, REST APIs, AWS, Docker, Kubernetes, and CI/CD pipelines. Delivered efficient solutions by implementing Agile methodologies, improving project delivery. Focused on delivering high-performance, secure applications with optimal user experiences.

Technical Skills

- **Programming & Scripting Languages:** Java, Python, SQL, TypeScript, JavaScript, XML, Shell Scripting, Object-Oriented Programming, Azure, CMS, Firefox, Google Analytics, Salesforce, SASS, C#, WCAG
- **Web Development:** RESTful APIs, Kafka, SOAP, AngularJS, ReactJS, HTML5, CSS, Bootstrap
- **Cloud Platforms & DevOps:** AWS, GCP, Docker, Kubernetes, Jenkins, GitHub Actions
- **Databases:** MySQL, Microsoft SQL, Oracle, MongoDB, PostgreSQL
- **Frameworks:** Spring Boot, Kafka, Apache Tomcat
- **Build & Version Control:** Maven, Git, GitHub
- **CI/CD & Automation:** Jenkins
- **Project Management:** Jira
- **Methodologies:** Agile Methodologies, TDD, SOLID, Design Patterns, Agile, SCRUM, Kanban
- **Operating Systems:** Linux, Unix
- Data Structures and Algorithms
- Software Development Life Cycle (SDLC)

Professional Experience

Advanity Technologies LLC

Full Stack Java Developer

September 2024 – Present

Irving, Texas

Technologies: Java 17, Spring Boot, Hibernate, REST APIs, AWS (EC2, S3, Lambda, RDS, DynamoDB), Docker, Kubernetes, CI/CD, OAuth2, JWT, Microservices, Kafka, Splunk, Dynatrace, Sonar, Locust, Python, Agile, Jira, Rest API

- Directed backend development for a credit card fraud detection system by designing and implementing RESTful APIs, improving response time using Spring Boot and Java 17.
- Optimized microservices performance by utilizing AWS ECS with Docker containers, resulting uptime and augmented system scalability for high-demand applications.
- Integrated Spring Security with OAuth2 and JWT tokens, securing APIs, leading to a 50% decrease in security incidents.
- Led the transition of legacy systems to AWS, utilizing EC2, S3, and DynamoDB, reducing operational costs through serverless architecture.
- Deployed and maintained microservices within CI/CD pipelines, cutting deployment time by 35% through Docker and Kubernetes integration.
- Automated testing processes with Python scripts and the ROBOT framework, improving test coverage for the fraud detection system.

University of North Texas

Graduate Teaching Assistant

August 2023 – July 2024

- Streamlined course material management by collaborating with professors on GitHub, facilitating student repositories and conducting code reviews to enhance coding skills, improving student engagement.
- Directed the supervision of 60+ web application projects within the software engineering curriculum, ensuring high-quality deliverables and boosting project completion rates by 25%.
- Enhanced software quality by leading weekly code review sessions, advocating for best practices in refactoring and debugging, which resulted decrease in critical bugs.
- Applied Agile methodologies in classroom projects, increasing student collaboration and project flexibility, which led to a 20% improvement in timely project delivery.
- Facilitated clear understanding of core computer science concepts in Data Structures, Algorithms, and Software Engineering, resulting improvement in overall student grades.

HCL Technologies India Pvt Ltd

Software Engineer

Technologies: Java, Python, AWS, Jenkins, Microservices, Spring Framework, Kafka, CloudWatch, CloudTrail, Swagger, React, Sonar, JUnit, Agile, AWS IAM, Cloud Security

Client: Experian November 2020 – December 2022

Chennai, India

- Spearheaded the development of a Java-based automation framework using Spring, enabling instant configuration and code generation for thousands of signals, reducing software development time.
- Constructed and implemented a Diagnostic module supporting all Autosar versions and 5 communication protocols, improving framework interoperability by 25%.
- Progressed data parsers in Java and Python, streamlining data processing, enhancing flexibility, and cutting data handling time.
- Led the migration of legacy batch jobs to AWS Schedulers and Kafka, and transitioned applications from OpenShift Appcanvas to AWS, improving application performance by 50%.
- Engineered efficient CI/CD pipelines in Jenkins, reducing build and testing time while enhancing deployment efficiency and feedback cycles.

Softtown, Inc

Web Developer Intern

Technologies: Spring Boot, Hibernate, JPA, MySQL, PostgreSQL, MongoDB, Angular, Jenkins, Docker, Prometheus, Grafana, Sonar, Locust, Agile, Mockito

October 2019 – October 2020

Chittoor, India

- Designed and implemented a Spring Boot microservice from scratch, utilizing Mockito for unit tests, achieving a increase in testing efficiency and ensuring software reliability.
- Revamped legacy systems by integrating Spring MVC, Spring Boot, Hibernate, JPA, and MySQL, resulting in a 25% improvement in system performance and simplified code structure.
- Deployed CI/CD pipelines using Jenkins and Docker, accelerating deployment cycles and reducing delivery times.
- Improved database performance by optimizing PostgreSQL and MongoDB queries, improving response times by 20% and overall system responsiveness.
- Established interactive front-end dashboards with Angular, increasing user engagement and improving the overall user experience.

Education

Master of Science in Computer Science

University of North Texas, USA

January 2023 – July 2024

Bachelor of Technology in Electronics & Communication Engineering

Madanapalle Institute of Technology and Science, India

July 2016 – September 2020

Certifications

- Certified in Java Programming Masterclass for Software Developers – Udemy.
- Completed Practical Web Development course – Udemy.
- Achieved proficiency in SQL using MySQL and Database Design – Udemy.
- Gained fundamentals in Python Programming Essentials for Beginners – Udemy.
- Mastered Go Java Full Stack with Spring and Angular – Udemy.
- Attained expertise in Hibernate and JPA – Udemy.
