Professional Summary

Full Stack Developer with 5+ years of hands-on experience in **Java (Core, J2EE, Spring MVC, Spring Boot)** and **AngularJS** development across healthcare, finance, and enterprise domains. Skilled in building scalable web applications, REST/SOAP services, and configuring web containers (Tomcat, WebLogic). Adept in **Test/Behavior Driven Development (TDD/BDD)**, Agile delivery, and collaborating with cross-functional teams to deliver secure and high-performing applications.

Technical Skills

Java (6/7/8), J2EE, Spring Core, Spring MVC, Spring Boot, Hibernate, Angular 9+, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, C# .NET, Node.js, Express.js, NestJS, Service-Oriented Architecture (SOA), REST APIs, GraphQL, Microservices, MySQL, PostgreSQL, AWS (S3, EC2, CloudFront, ECS, SQS), Docker, Jenkins, GitHub Actions, CI/CD, Jasmine, Karma, Jest, Cypress, JUnit, Mockito, Postman, Agile (Scrum), TDD, Code Reviews, JIRA, Confluence.

Software Engineer

June 2024 – Present

Envision Health Care, USA

- **Developed enterprise web applications** using **Java (Spring MVC, Spring Boot)** and **AngularJS**, delivering scalable solutions with seamless **client-server integration** across healthcare and enterprise domains.
- **Built and consumed REST and SOAP services** while implementing best practices in **API design, authentication, and security**, improving system interoperability and application performance.
- **Applied TDD/BDD practices** leveraging **JUnit, Mockito, and Cucumber**, enhancing **code quality, test coverage, and defect reduction** in Agile development environments.
- **Configured and deployed applications** on **Tomcat and WebLogic servers** while optimizing runtime performance, scalability, and **high availability** of critical enterprise systems.
- **Collaborated in Agile teams**, actively driving **sprint planning, retrospectives, and daily standups**, ensuring alignment with cross-functional stakeholders and timely delivery of high-quality features.

Software Engineer

July 2021 – July 2022

Accolite Digital, India

- Delivered enterprise-grade **web applications** for Virgin Media using **Angular 8+**, **RxJS**, and **C# .NET** service integrations, implementing **Service-Oriented Architecture (SOA)** principles to enable real-time data streaming and enhance application scalability.
- Migrated legacy applications to a modern **Angular** architecture with optimized **component-based design** and **modular development**, improving maintainability and reducing release cycle time.
- Developed and integrated secure **RESTful APIs** to support SOA-based backend services, enabling efficient communication across distributed systems.
- Built and maintained automated **unit and integration test suites** using **Jasmine, Karma, and Cypress**, ensuring application reliability and reducing production defects.
- Managed deployments on **AWS (S3, EC2, CloudFront)** and automated release pipelines using **Jenkins**, delivering faster, more reliable production rollouts.

Software Developer

June 2018 – June 2021

MAQ.AI, India

- Built scalable **web applications** using **Angular** and **C# .NET** services, applying **Service-Oriented Architecture (SOA)** principles to enhance performance, reduce load times by 50%, and improve overall user experience.
- Developed robust **REST APIs** for real-time data interaction and microservices communication.
- Architected deployment solutions using **AWS EC2, Docker, and Kubernetes**, enabling automated scaling and fault tolerance.
- Led **DevOps initiatives** by configuring **CI/CD pipelines** and enforcing code quality through **SonarQube** and test automation.
- Supported LAMP stack systems with basic PHP integration and MySQL debugging during API migration phases.
- Adopted **TDD practices** using **JUnit, Mockito, and Postman** to validate service functionality and performance.

Education

University of Bridgeport
Master's in computer science

Jawaharlal Nehru Technological University Kakinada
Bachelor of Technology
