

# RAVI CHANDRA B

## Full Stack Software Engineer, AI Applications

Springfield, IL | ravichandra.bhamidipati@gmail.com | (217) 761-7140 | [LinkedIn](#) | [GitHub](#)

### SUMMARY

AI Full-Stack Software Engineer delivering scalable, data-driven solutions across financial, educational, and enterprise domains. Designs and implements intelligent web platforms integrating React, Node.js, Python, and cloud automation. Builds high-impact systems that reduce latency, optimize model performance, and ensure security compliance. Combines applied AI methods with collaborative delivery to translate complex requirements into measurable outcomes.

### CORE SKILLS

- **Languages:** Python, JavaScript/TypeScript, SQL, Java, C#, Bash, YAML, JSON
- **Frontend:** React, Next.js, Redux, Tailwind CSS, Material UI, Bootstrap, HTML5, CSS3, REST API Integration
- **Backend:** Node.js (Express/Nest), Django, Flask, FastAPI, Spring Boot, GraphQL, REST APIs, WebSockets, Nginx
- **AI & ML:** LangChain, OpenAI APIs (GPT-4/GPT-3.5), RAG, Embeddings, FAISS, PgVector, scikit-learn, PyTorch, TensorFlow, Hugging Face Transformers, Prompt Engineering
- **Data & Analytics:** PostgreSQL, MySQL, MongoDB, Redis, Snowflake, BigQuery, ETL Pipelines, Azure Data Factory, Airflow, Pandas, NumPy, Tableau
- **Cloud & DevOps:** AWS (ECS, Lambda, S3, CloudFront, CloudWatch), Azure (ADF, Functions, Blob Storage), GCP (GCS, Composer, BigQuery), Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, CI/CD Automation, Infrastructure as Code (IaC)
- **Security & Testing:** OAuth2, JWT, RBAC, Secrets Management, API Security, Unit Testing (PyTest, Jest, Mocha), Postman, Swagger/OpenAPI, Prometheus, Grafana
- **Version Control & Agile:** Git, GitHub, GitLab, Bitbucket, Jira, Confluence, Agile/Scrum, Sprint Planning, Code Review, Collaboration Tools (Slack, Teams)

### PROFESSIONAL EXPERIENCE

**Zyter — Full-Stack Software Engineer, AI Applications** Mar 2025 – Present | Springfield, IL

- Engineered AI-driven analytics for financial data processing and regulatory reporting, reducing latency 30 percent and improving token efficiency 27 percent.
- Developed and maintained RESTful APIs integrating LangChain and Next.js interfaces to streamline analytics delivery.
- Collaborated with cross-functional data and compliance teams to align platform performance with reporting standards.
- Deployed containerized microservices on AWS using Docker and Terraform, achieving 99.9 percent uptime.

**Capgemini — Software Engineer (Full-Stack & Data)** May 2021 – Aug 2023 | Hyderabad, India

- Designed Spring Boot-based REST APIs integrated with PostgreSQL, decreasing backend latency 25 percent during high-volume financial transactions.
- Automated 100 plus ServiceNow workflows with Java and test-driven development, shortening resolution time 40 percent.
- Managed Git repositories for 15 microservices and implemented CI/CD pipelines via Jenkins and GitHub Actions to accelerate deployment cycles.
- Presented workflow metrics to client leadership to enhance transparency and adoption of automated solutions.

#### **Verzeo — Full-Stack Developer** Jan 2020 – Apr 2021 | Hyderabad, India

- Constructed React + Django content management system reducing manual content updates 55 percent and improving release accuracy.
- Optimized database queries and API calls enhancing page-load performance 35 percent for 20 million-user base.
- Partnered with content and design teams to ensure timely feature deployment and consistent user experience.
- Led unit and integration testing to maintain defect rates below 2 percent across releases.

#### **Verzeo — Machine Learning Intern (Python)** Feb 2019 – Jun 2019 | Remote, India

- Built Python-based credit-card fraud detection pipeline using Decision Trees and Neural Networks with SAS Enterprise Miner.
- Achieved model accuracy of 94 percent through feature engineering and hyperparameter tuning.
- Documented data-preprocessing scripts shortening training time 60 percent for subsequent iterations.

### **EDUCATION**

- M.S., Management Information Systems (MIS) — University of Illinois Springfield | Aug 2023 – Dec 2024 | 4.0 CGPA
- **Coursework:** Cloud Computing, Data Mining, Advanced DB Systems, Info Security, Business Analytics
- **Graduate Project:** Healthcare claims ETL + Power BI dashboard; LLM-based Q&A over policy docs
- B.E., Electrical & Electronics Engineering (EEE) — Matrusri Engineering College, Osmania University | 2016 – 2020
- **Capstone:** IoT anomaly detection (Python + MQTT/WebSockets)

### **SELECTED PROJECTS**

- **RAG Starter Pipeline (FastAPI + LangChain + FAISS):** Improved answer relevance +28% on tagged eval set; streaming responses with semantic cache.
- **Real-Time Chat (MERN + Socket.IO):** 99.95% uptime, persistent room history, role-based access; CI deploys to Render/Netlify.

### **CERTIFICATIONS & CONTINUOUS LEARNING**

- AWS Certified Developer – Associate (in progress) | MTA | Google Data Analytics
