

Ravikanth Jatin Trichnopoly

jatintrichno@gmail.com | (602) 552-3197 | <https://www.linkedin.com/in/ravikanth-jatin-trichnopoly>

PROFESSIONAL SUMMARY:

- Software Engineer with 2+ years of experience in full-stack development, CI/CD automation, and cloud-native systems on AWS, Azure, and GCP. Proficient in Python, Docker, and TensorFlow, with a focus on delivering secure, scalable, and high-performance solutions in production. Cloud-certified across all three major platforms.

EDUCATION:

Master of Science in Information Technology

Ira A. Fulton School of Engineering at Arizona State University, Tempe, AZ

Aug 2023 – May 2025

GPA: 4.0

Bachelor of Technology (B. Tech), Computer Science Engineering

Jawaharlal Nehru Technological University Hyderabad – KMIT, Hyderabad, IN

Jun 2017 – Jul 2021

GPA: 3.2

PROFESSIONAL EXPERIENCE:

Associate Software Engineer

Jul 2021 – Aug 2023

Optum - UnitedHealth Group, Hyderabad, IN

- Spearheaded the migration of monolithic apps from VMs and OpenShift to Kubernetes, boosting engineering productivity by 15% through Agile and cloud-native practices.
- Designed CI/CD pipelines in Jenkins with automated testing, reducing deployment time by 45% and improving system reliability.
- Improved observability using Splunk, and optimized production infrastructure (JBoss/Tomcat, MySQL/Oracle), earning multiple Bravo and SPOT awards for resolving high-severity incidents.

Software Developer Intern

Jun 2019 – Jul 2019

Verzeo, Inc., Bangalore, IN

- Developed a cloud-based E-commerce platform on Azure, building REST APIs and CI/CD workflows via Jenkins and Git to cut deployment time by 30%.
- Delivered key features like DOCX-to-PDF conversion, malware scanning, and automated QA, improving efficiency by 20% and document accuracy by 35%.

TECHNICAL SKILLS:

- **Programming Languages:** Java, Python, C, C++, R
- **Web & Application Development:** HTML5, CSS3, JavaScript, React.js, Node.js, PHP, Spring Boot, REST APIs
- **Cloud Platforms:** Amazon Web Services (AWS), Google Cloud Platform (GCP), Microsoft Azure
- **Databases & Data Storage:** MySQL, MongoDB, Oracle, SQL Server, DynamoDB
- **DevOps, CI/CD & Version Control:** Jenkins, Docker, Kubernetes, OpenShift, Git
- **Frameworks, Tools & Build Systems:** Spring MVC, .NET, Postman, MySQL Workbench
- **Big Data & Distributed Systems:** Hadoop, Apache Spark, Databricks, NoSQL
- **Machine Learning & Data Science:** NumPy, Pandas, Scikit-learn, TensorFlow, Keras
- **Data Visualization & BI Tools:** Tableau, Power BI, GrafanaGrafana

PROJECT EXPERIENCE:

Big Data Analysis

Jan 2024 – Apr 2024

- Built a machine learning classifier on 290K+ school records to predict high/low performance based on ELA and Math scores, achieving 89% F1-score. Automated preprocessing and model tuning using Pipeline and GridSearchCV, reducing manual effort by 40%.

Virtual Police Station

Feb 2020 – May 2020

- Developed a voice-driven FIR filing system with 3D officer interaction using AWS Sumerian & Lex, hosted on EC2. Enabled secure digital FIR generation with 99.9% uptime, reducing filing time by 50%. Ranked 2nd in Smart India Hackathon 2020 for innovation and societal impact.

Smart Municipal System

Oct 2020 - Jan 2021

- Created a web-based municipal office automation system with real-time updates and authentication. Improved citizen service efficiency by 30% and reduced manual processing errors by 45%.

CERTIFICATIONS:

- Microsoft Certified: Azure Fundamentals
- Google Cloud Professional Cloud Architect
- Microsoft Technology Assistant (MTA) Certification in Cloud Fundamentals
- AWS Certified Solutions Architect – Associate
